Policy Book

(November 2023)

FOREWORD

Contained herein are the policy statements formulated by the Board of Education of the Southern Cayuga Central School District.

Policy is defined as a basic plan of action. It establishes limits within which freedom of judgment can be exercised.

Policy is a governing principle of management. It is a statement that has an effect on the interests of those who come under its jurisdiction. A policy may originate from the constitution, from statute, from local determinations and/or from customary patterns of formal behavior.

Policy should accomplish the following:

- a) State a position taken by the District;
- b) Grant the authority to act;
- c) Be sufficiently detailed to give adequate direction;
- d) Be achievable within the real environment of the school and community;
- e) Provide for impartial procedures.

Jurisdiction

In addition to the adopted policies, the operation of the School District is governed by and subject to all applicable Laws, Regulations of the Commissioner of Education, Civil Service requirements, Board of Education Resolutions, School Administrative Regulations and Contracts of Agreement.

Severability

If any part of this manual is made invalid by judicial decision or legislative or administrative enactment, all other parts shall remain in full effect unless and until they are amended or repealed by the Board of Education. The official record of the adoption, amendment, or repeal of the by-laws and policies of the Southern Cayuga Central School District shall be the minutes of the meetings of the Board of Education.

MISSION STATEMENT

In preparing individuals to develop their fullest potential for living in the society of today and tomorrow, the Board of Education and the staff of the School District:

- I. Recognize their responsibility to help meet the physical, intellectual and emotional needs of children; particularly the needs to inquire, learn, think, and create; to establish aesthetic, moral and ethical values; and to relate satisfactorily to others in social situations involving family, work, government and recreation.
- II. Accept primary responsibility for giving students a mastery of the basic skills of learning, thinking and problem-solving; for teaching them to use the various media of self-expression; for instilling in them a knowledge of the social and natural sciences; for acquainting them with the richness of our heritage; and for stimulating them to productive work in the various areas of human endeavor.
- III. Acknowledge the importance of their supplemental role to the home and other social agencies in developing habits and attitudes which make for effective personal living, the maintenance of optimum physical and mental health, and the establishment of sound moral, ethical, and aesthetic values.

Realizing that education, as here defined, is a lifelong process, the School System seeks to orient its graduates toward various types of post-secondary education and further formal training and study of many types; and to provide educational opportunities particularly suited to the needs of adults, both as individuals and as citizens in a democracy.

SUBJECT: SCHOOL DISTRICT AND BOARD OF EDUCATION LEGAL STATUS

The Constitution of New York State, as amended in 1894, instructs the Legislature to provide for a system of free common schools wherein all children of the State may be educated.

The Legislature of the State has implemented this constitutional mandate through the creation of school districts of various types. The Southern Cayuga Central School District is governed by the laws set forth for Central School Districts in Article 37 of the Education Law.

The School District constitutes a corporate entity that possesses all the usual powers of a corporation for public purposes, and in that name may sue and be sued, purchase, hold and sell personal property and real estate, and enter into such obligations as are authorized by law.

The Constitution of the State of New York places the responsibility for public education on the State Legislature, and directs the establishment of a State Department of Education for general supervision over the schools and headed by a Commissioner of Education. The New York State Constitution further provides that local public schools under the general supervision of the State Education Department shall be maintained, developed and operated by locally elected boards. Legally, local boards are instruments of the New York State Constitution, the New York Statutes and the regulations of the State Education Department and its Commissioner.

SUBJECT: BOARD OF EDUCATION AUTHORITY

The Board exercises policy and rule-making authority over the schools in accordance with applicable laws. It determines policy, delegates executive, supervisory and instructional authority to its employees and appraises the results achieved in light of the goals of the school system.

The Board shall concern itself primarily with questions of policy and with the appraisal of results rather than with administrative details. The application of policies is an administrative task to be performed by the Superintendent and his or her staff, who shall be held responsible to the Board of Education for the effective administration and supervision of the entire school system.

All matters to be submitted to the Board shall first be brought before the Superintendent for investigation. If these matters require Board action, they shall be presented to the Board by the Superintendent.

In carrying out its functions, the Board has the power to issue contracts for services and materials, the power to inspect, or to employ a staff of consultants to inspect, the power to pass judgment upon employees and their work and the power to veto acts of any and all employees and their work when such acts are deemed inexpedient to the legal rights or obligations of the district or are inconsistent with the established policies of the Board.

The Board shall consider and act on items presented by the Superintendent.

It is understood that the members of the Board have authority only when acting as a Board legally in session. The Board shall not be bound in any way by any action or statement on the part of any individual Board member except when such statement or action is in pursuance of specific instructions from the Board.

SUBJECT: POLICY

The Board of Education shall reserve to itself the function of providing guides for the discretionary action of those to whom it delegates authority. The Superintendent shall act as an advisor to the Board in the adoption and approval of written Board policies. The Board shall seek input from the staff and community where appropriate. These guides for discretionary action shall constitute the policies governing the operation of the School System.

The formulation and adoption of these written policies shall constitute the basic method by which the Board of Education shall exercise its leadership in the operation of the School System. The study and evaluation of reports concerning the execution of its written policies shall constitute the basic method by which the Board of Education shall exercise its control over the operation of the School System.

Definition of Policy

Policy is defined as a basic plan of action. It establishes limits within which freedom of judgment can be exercised.

Policy is the wise governing principle of management. It is a statement which has an effect on the interests of those who come under its jurisdiction. A policy may originate from the New York State constitution, from statute and/or from customary patterns of formal behavior.

Policies should accomplish the following:

- a) Reflect the general environment in which the school organization operates;
- b) Include direction for their implementation either by implication or broad explication;
- c) Be impartial to deal uniformly with all whom they touch;
- d) Omit non-relevant details that might need to be changed from time to time;
- e) Grant the authority to act.

Formulation of Policies

Proposals regarding school district policies and operations may originate at any of several sources: a parent, taxpayer, professional consultant, civic group, etc.

Action on such proposals, whatever their source, is taken finally by the Board in accord with bylaws. The Board shall take action on most matters upon the basis of recommendations presented to the Board by the Superintendent. The Superintendent bases his/her recommendations upon the outcomes of study and upon the judgment of the professional staff, study committees and Board of Education.

(continued)

SUBJECT: POLICY *(continued)*

Adoption and Amendment of Policy

The adoption of a written policy shall occur only after the proposal has been moved, discussed and voted on affirmatively at two (2) separate meetings of the Board of Education (i.e., the "first reading" and the "second reading"). The policy draft may be amended at the second meeting. By a majority vote, the Board may waive the "second reading" and complete the adoption of the proposed policy at its "first reading."

Dissemination of Policy

The Superintendent is directed to establish and maintain an orderly and ongoing plan for preserving and making accessible the policies adopted by the Board and the administrative rules and procedures necessary to implement the policies.

Accessibility is to extend to the members of the Board of Education, school district administrators, school district employees, and community members through the district website.

Application of Policy

A policy should be capable of being applied equitably in all circumstances to which it refers. The Board policy should not be set aside for one person while being applied to others. If the Board finds it must modify an adopted policy for a particular case, it shall amend the inadequate policy for the future. It shall not let policy stand while acting in a different manner.

Review of Policy

The process of appraisal of existing written policies shall be continuous, and items may be included on the agenda at any time at the suggestion of individual Board members or the Superintendent of Schools.

Administration in Policy Absence

If occasion should occur calling for immediate action by the administrators in an area where no Board policy exists, the Superintendent is empowered to act thereon. However, the Superintendent must report such action to the Board at its next regular meeting.

SUBJECT: REGULAR BOARD MEETINGS and RULES (QUORUM and PARLIAMENTARY PROCEDURE)

All Board of Education meetings must be open to the public except those portions of the meetings which qualify as executive sessions. In accordance with Section 102 of the Open Meetings Law, a "meeting" is defined as an official convening of a public body for the purpose of conducting public business, including the use of videoconferencing for attendance and participation by the members of the public body. Reasonable efforts shall be made to ensure that all meetings are held in an appropriate facility which can adequately accommodate any and all members of the public who wish to attend.

Whenever such a meeting is to take place, there must be at least seventy-two (72) hours advance notice in accordance with the provisions of the Open Meetings Law. Notice of other meetings shall be given as soon as is practicable in accordance with law. When the District has the ability to do so, notice of the time and place of a meeting shall be conspicuously posted on the District's internet Web site.

District records subject to release under FOIL, as well as any proposed rule, regulation, policy or amendment, that are on the Board agenda and scheduled to be discussed at a Board meeting, shall be made available upon request, to the extent practicable, prior to the meeting. Copies of such records may be made available for a reasonable fee. If the District maintains a regularly updated Web site and utilizes a high-speed internet connection, such records may be posted on the Web site to the extent practicable, prior to the meeting. The District may, but it is not required to expend additional funds to provide such records.

Regular meetings of the Board of Education of Southern Cayuga Central School District shall take place on the day and time designated by the Board at the Annual Organizational Meeting, except as modified at subsequent meetings of the Board.

It is the responsibility of the Superintendent to prepare the agenda and review it with the Board President for each meeting of the Board. The agenda for each meeting shall be prepared during the week prior to the meeting. The agenda shall be distributed to Board members no later than the Friday before such regular meeting. Whenever the President or other members of the Board wish to bring a matter to the attention of the Board, such request should be made to the Superintendent so that the same can be placed on the agenda. Whenever individuals or groups wish to bring a matter to the attention of the Board, such request shall be addressed in writing to the Superintendent. The Superintendent shall present such matter to the Board.

The District Clerk shall notify the members of the Board of Education in advance of each regular meeting. Such notice, in writing, shall include an agenda and the time of the meeting.

(continued)

SUBJECT: REGULAR BOARD MEETINGS and RULES (QUORUM and PARLIAMENTARY PROCEDURE) *(continued)*

In the event that a meeting date falls on a legal holiday, interferes with other area meetings or there is an inability to attend the meeting by Board members to the extent that a quorum would not be present, the Board shall select a date for a postponed meeting at the previous regular meeting, and shall direct the Clerk to notify all members.

Any meeting of the Board may be adjourned to a given future date and hour if voted by a majority of the Board present.

The Superintendent and members of his/her staff at the Superintendent's discretion shall attend all meetings of the Board. The Superintendent shall attend all executive session meetings of the Board except those that concern his/her evaluation, employment status and salary determination. The Board may request the attendance of such additional persons as it desires.

Using Videoconferencing to Conduct Board Meetings

If videoconferencing is used to conduct a Board meeting:

- a) The Board will provide an opportunity for the public to attend, listen, and observe the meeting in at least one physical location at which Board members are participating.
- b) Voting may be done through videoconferencing provided that Board members can be both seen and heard voting and participating from remote locations.
- c) The minutes of the meeting must include which, if any, Board members participated remotely.

Recording of Meetings

The Board recognizes that advances in technology allow public meetings to be photographed, broadcast, webcast and/or otherwise recorded, by means of audio or video, in a non-disruptive manner and supports the use of such technology to facilitate the open communication of public business. To that end, the Board may adopt rules addressing the location of the equipment and/or personnel used to photograph, broadcast, webcast and/or record such meetings to assure that its proceedings are conducted in an orderly manner. Such rules shall be conspicuously posted during meetings and written copies provided, upon request, to meeting attendees.

Public Expression at Meetings

All regular and special meetings of the Board will be open to the public. Because the Board desires to hear the viewpoints of citizens throughout the district, it may schedule periods during each meeting for public participation.

No person should speak for more than four (4) minutes during a meeting, unless the time limit is waived by a majority of the Board members present. The Board President shall limit total speaking time during this session to thirty minutes. However, any individual may submit written comments to the clerk of the Board for consideration by the Board.

SUBJECT: REGULAR BOARD MEETINGS AND RULES (QUORUM AND PARLIAMENTARY PROCEDURE) *(continued)*

Comments and questions at a regular meeting may deal with appropriate topics related to the Board's conduct of the schools in public session. Comments at special meetings must be related to the call of the meeting.

The Board President shall be responsible for:

- a) Recognizing all speakers who will properly identify themselves;
- b) Maintaining proper order and limiting inappropriate comments or actions by visitors as specified in the District Code of Conduct;
- c) Adhering to any set time limits.

After public input on a topic, the Board will utilize one of the following options:

- a) Discuss issue;
- b) Refer the issue to the Superintendent for review;
- c) Place the issue on a future agenda;
- d) Take no action.

Members of the public will not be recognized by the President as the Board conducts its official business except when the Board schedules in advance an interim public discussion period on a particular item.

The Board of Education reserves the right to enter into executive session as specified in Policy #1730 -- Executive Sessions.

Quorum

The quorum for any meeting of the Board shall be four (4) members. No formal action shall be taken at any meeting at which a quorum is not present. When only a quorum exists, the Board shall act by unanimous vote unless otherwise required by the laws of the State of New York.

Use of Parliamentary Procedure

The business of the Board of Education shall be conducted in accordance with the authoritative principles of parliamentary procedure as found in the latest edition of Robert's Rules of Order.

- a) Action items require a:
 - 1. Motion by a Board member;
 - 2. Second of the motion;
 - 3. Discussion by Board members;
 - 4. Vote by Board members.Any Board member may request that discussion be terminated on any discussion of an action item, on which a motion and second have not been made.
- b) Each motion shall be limited to one idea or issue.
- c) No new motion may be made while another is being discussed.
- d) A motion may be amended during discussion by any Board member. If seconded, the amendment shall be discussed and voted upon before action on the original motion.
- e) No more than two amendments may be added (passed) to any motion.

SUBJECT: REGULAR BOARD MEETINGS AND RULES (QUORUM AND PARLIAMENTARY PROCEDURE) (*continued*)

- f) Before a vote on a motion is taken, business can be interrupted by a motion to:
 - 1. Table the main motion;
 - 2. Postpone action;
 - 3. Refer the motion to committee;
 - 4. Withdraw it from consideration;
 - 5. Adjourn the meeting.
- g) Debate can be closed with a motion to move the question and a two-thirds affirmative vote (of those members present).
- h) A member of the Board, but no one else, may rise to a point of order at any time. After point is stated, the President shall issue a ruling which may be appealed to a vote of the full board. Such vote shall require a two-thirds affirmative vote (of those members present).
- i) Before a motion is voted, any member may request it be read aloud by the Clerk.
- j) The President, by virtue of membership on the Board, is expected to vote on each issue, as with any member.
- k) When once decided, a particular motion should not be taken up again at that meeting. A motion can be brought up again at a subsequent meeting. Training on Financial Oversight, Accountability and Fiduciary Responsibilities

Currently, within the first year of election or appointment, each Board member must complete a minimum of six (6) hours of training on the financial oversight, accountability and fiduciary responsibilities of a school board member.

Re-elected Board members are not required to repeat this training. Additionally, re-training is not required if the Board member has previously fulfilled this requirement as a first-term member of a component school district.

Beginning July 1, 2011, and thereafter, in addition to the above training, during the first year of a Board member's first term, he/she shall be required to complete a training course acquainting them with the powers, functions and duties of Boards of Education, as well as the powers and duties of other governing and administrative authorities affecting public education.

SUBJECT: SUB-COMMITTEES OF THE BOARD AND BOARD REPRESENTATION ON BOARD, DISTRICT AND AD HOC COMMITTEES

The Board and/or the President of the Board may at its discretion establish sub-committees for the purpose of undertaking a specific task in connection with Board activity. These committees, however, cannot make legal decisions for the entire Board.

At the request of the Board, the President shall appoint temporary or advisory committees consisting of less than a quorum of the full membership for special purposes. These committees shall be discharged on the completion of their assignment.

SUBJECT: VISITS TO THE SCHOOLS -- BOARD MEMBERS

The Board encourages its members to visit the district schools and supportive school departments. However, such visits shall be made in accordance with the following guidelines:

- a) All visits shall be recorded in the main office, stating the purpose of the visit;
- b) Such visits are for the purpose of becoming acquainted with school programs, personnel, operation and facility and should not interfere with the operation of the school or any employee or student;
- c) Board members should refrain from giving directions or making evaluations of personnel or operating procedures during their visit;
- d) If a school visit leaves a Board member with a concern, this concern should initially be discussed with the Superintendent and President of the Board.

Board members may have children in the schools and therefore have parental opportunities to converse with their child's teacher, counselor or administrator. In those instances, the Board member should make it clear that he/she is visiting as a parent and not as a member of the Board of Education.

SUBJECT: GUIDELINES FOR CITIZENS' CONCERNS TO BOARD MEMBERS

Since Board members are the elected representatives of the community with respect to the schools, each member should welcome community input, observing the following guidelines so such input is effectively handled:

- a) When a member receives input on matters such as disciplinary cases, complaints about staff members, etc., and where the Board member has no prior knowledge of the situation, the member should first ask whether the teacher or administrator involved has been contacted. If the appropriate school person has not been contacted, the Board member should refrain from making any remarks which would prejudice the orderly administration of due process related to the situation. The Board member should request that the appropriate school person be contacted.
- b) In cases where the member is unsure of how to handle a query, the member should tell the party that he/she will research the situation. At this point, the Superintendent, appropriate administrator or the President of the Board should be consulted. This procedure should be used before the individual Board member commits himself/herself to an opinion on a matter which he/she is not conversant. It is the policy of the Board to give no information rather than misinformation.
- c) Board members have the responsibility to ensure that due process should be used properly ensuring the rights of all individuals. If proper procedures are not used, someone's rights may be violated.

SUBJECT: SOLICITATION OF CHARITABLE DONATIONS FROM SCHOOL CHILDREN

Direct solicitation of charitable donations from children in the District schools on school property during regular school hours shall not be permitted. It will be a violation of District policy to ask District school children directly to contribute money or goods for the benefit of a charity during the hours in which District students are compelled to be on school premises.

- a) Fundraising activities which take place off school premises, or outside of regular school hours during before-school or after-school extracurricular periods;
- b) Arms-length transactions, where the purchaser receives a consideration for his/her donation. For example, the sale of goods or tickets for concerts or social events, where the proceeds go to charity, shall not be prohibited, as the purchaser will receive consideration - the concert or social event - for the funds expended;
- c) Indirect forms of charitable solicitation on school premises that do not involve coercion, such as placing a bin or collection box in a hallway or other common area for the donation of food, clothing, other goods or money. However, collection of charitable contributions of food, clothing, other goods or funds from students in the classroom or homeroom is prohibited.

The Superintendent shall develop regulations to guide which organizations, groups, etc. can solicit charitable donations and for what purposes. The activities must comply with the terms of this policy and the rules of the Board of Regents.

SUBJECT: USE OF SCHOOL FACILITIES, MATERIALS AND EQUIPMENT

School Facilities

It is the policy of the Board to encourage the greatest possible use of school facilities for community-wide activities. This is meant to include those uses permitted by New York State law. Community groups wishing to use the school facilities must secure written permission from the Board of Education or its designee and abide by the rules and regulations established for such use including restrictions on alcohol, tobacco and drug use. Community groups must provide proof of insurance that meets district insurance company requirements. Private and/or personal use of school facilities is strictly prohibited.

The District reserves the right to charge a fee for the use of its facilities in a manner consistent with law and on terms specified in regulation or by agreement with such organizations.

Materials and Equipment

Except when used in connection with or rented under provisions of Education Law Section 414, school-owned materials or equipment may be used for school related purposes only. Private and/or personal use of school-owned materials and equipment is strictly prohibited. The loan of equipment and materials for public purposes that serve the welfare of the community is allowed, as long as the equipment is not needed at that time for school purposes and that the proposed use will not disrupt normal school operations.

The Board will permit school materials and equipment to be loaned to staff members when such use is directly or peripherally related to their employment and to students when the material and equipment is to be used in connection with their studies or extracurricular activities. Community members will be allowed to use school-owned materials and equipment only for educational purposes that relate to school operations. The Board will also allow the loan of equipment to local governments and other entities that benefit the welfare of the surrounding community. The Board supports such inter-municipal cooperation as it saves taxpayer monies and is a more efficient use of scarce or costly equipment and resources.

The District will develop administrative regulations to assure that use of school-owned materials and/or equipment complies with the letter and spirit of this policy, including a description of the respective rights and responsibilities of the School District/lender and borrower in relation to such materials and equipment.

General Guidelines

The goal of infusing technology into daily operations of offices and classrooms is to promote the use of high quality technological resources in an equitable, efficient, and cost-effective manner. Such technology includes, but is not limited to, electronic mail, local computer networks and Internet and/or other online communication services.

Southern Cayuga Central School recognizes that use of electronic technology and networks must be consistent with the purpose, goals and mission of the district. It is imperative that staff, students and guests conduct themselves in a responsible, decent, ethical and polite manner while using such equipment and networks. The following general guidelines are provided to determine appropriate conduct and use:

- a) Any use of Southern Cayuga Central School equipment or information networks for inappropriate, illegal, obscene or harassment purposes is prohibited. Illegal activities shall be defined as a violation of local, state and/or federal laws as well as the district's rules and regulations. Inappropriate use shall be defined as a violation of the intended purpose of the network. Obscene activities shall be defined as a violation of the generally accepted social standards for use of a publicly owned and operated communication vehicle.
- b) Any use of the district's equipment for commercial purposes, or for individual profit or gain, or unauthorized access to databanks is prohibited.
- c) Any use of equipment for private business advertisement, spamming or political lobbying is prohibited.
- d) Any use of the district's equipment that will disrupt use by others or invade the privacy of individuals is prohibited. This includes using another's password or trespassing in another's folders, work or files.
- e) The district's on-line network accounts shall be used only by the authorized staff listed and approved by the Superintendent or designee. Account users are ultimately responsible for all activity associated with their accounts, including any costs incurred which are not sanctioned by the district.
- f) Prudent use of the district's finite resources and shared technological resources is expected. Users may not intentionally write, produce, generate, copy, propagate or attempt to introduce any computer code (i.e., "virus") designed to self-replicate, damage or otherwise hinder the performance of any computer's memory, file system or software.

SUBJECT: ACCEPTABLE USE OF COMPUTERIZED INFORMATION AND EQUIPMENT *(continued)*

- g) Only approved hardware is to be connected to any network. Also, software must be approved by the district and loaded on the network by the Network Administrator. Users may not tamper with networks, terminals, printers, wiring, etc.
- h) Student use will be permitted provided that there are administrative authorizations and permissions by parents/guardians and/or persons in parental relation and the staff to maintain proper supervision.
- i) All users must recognize and observe applicable copyright laws and regulations.

- k) Students will be expected to use the equipment and networks only as part of their educational experience. Priority will be given to those with specific class assignments and activities needing completion for their course work. Availability of the equipment will be decided by the teacher monitoring the facility. Educational email will be permitted at the discretion of the teacher issuing the pass.
- l) Network storage areas may be treated like school lockers. Network administrators may review files and communication to maintain system integrity and ensure that users are using the system responsibly. Users should not expect that files stored on district servers will always be private. Furthermore, school staff has the right, at all times, to view material students are accessing or have transmitted. The District reserves the right to intercept, monitor, access and/or disclose any information that is maintained on, stored in or transmitted over its systems.

SUBJECT: THREATS OF VIOLENCE IN SCHOOL

The School District is committed to the prevention of violence against any individual or property in the schools or at school activities whether such acts and/or threats of violence are made by students, staff, or others. Threats of violence against students, school personnel and/or school property will not be tolerated whether or not such threats occur on school grounds or during the school day.

Any acts and/or threats of violence, including bomb threats, whether made orally, in writing, or by e-mail, shall be subject to appropriate discipline in accordance with applicable law, District policies and regulations, as well as the *Code of Conduct for the Maintenance of Order on School Property* and collective bargaining agreements, as may be necessary.

While acknowledging an individual's constitutional rights, including applicable due process rights, the District refuses to condone acts and/or threats of violence which threaten the safety and well being of staff, students and the school environment. Employees and students shall refrain from engaging in threats or physical actions which create a safety hazard for others.

All staff who are made aware of physical acts and/or threats of violence directed to students or staff are to report such incidents to the building principal/designee, who shall report such occurrences to the Superintendent. Additionally, the building principal/designee will also report occurrences of violence, whether involving an actual confrontation or threat of potential violence, to the school psychologist and/or Director of Special Education if applicable. Local law enforcement agencies may be called as necessary upon the determination of the Superintendent/designee.

SUBJECT: NON-DISCRIMINATION and ANTI-HARASSMENT IN THE SCHOOL DISTRICT

The Board of Education is committed to providing an environment free from discrimination and harassment. Accordingly, the Board prohibits discrimination and harassment on the basis of race, color, religion, national origin, sex, sexual orientation, age, disability or other legally protected category. Such actions and occurrences are prohibited regardless of whether they take place on School District premises or at school-sponsored events, programs, or activities held at other locations.

Prohibited Conduct

Determinations as to whether conduct or occurrences constitute discrimination or harassment for the purposes of this Policy and its implementing Administrative Regulations will be made consistent with applicable law. Such determinations may depend upon a number of factors, including but not limited to: the particular conduct or occurrence at issue, the ages of the parties involved, the context in which the conduct or occurrence takes place, the relationship of the parties to one another, the category or characteristic that is alleged to have been the basis for the action or occurrence, and other considerations as are necessary and consistent with law. The characterizations and examples below are intended to serve as a general guide for individuals in determining whether to file a complaint of discrimination or harassment, and should not be construed to add or limit the rights individuals and entities possess as a matter of law.

Discrimination is, generally, the practice of conferring or denying privileges on the basis of membership in a legally protected class. Discriminatory actions may include, but are not limited to: refusing to promote or hire an individual on the basis of his/her membership in a protected class, denying an individual access to facilities or educational benefits on the basis of his/her membership in a protected class, or impermissibly instituting policies or practices that disproportionately and adversely impact members of a protected class.

Harassment generally consists of subjecting an individual, on the basis of his/her membership in a protected class, to conduct and/or communications that are sufficiently severe, pervasive, or persistent as to have the purpose or effect of: creating an intimidating, hostile, or offensive environment; substantially or unreasonably interfering with an individual's work or a student's educational performance, opportunities, benefits, or well-being; or otherwise adversely affecting an individual's employment or educational opportunities.

Harassment can include unwelcome verbal, written, or physical conduct which offends, denigrates, or belittles an individual because of his/her membership in a protected class. Such conduct includes, but is not limited to: derogatory remarks, jokes, demeaning comments or behavior, slurs, mimicking, name calling, graffiti, innuendo, gestures, physical contact, stalking, threatening, bullying, extorting, or the display or circulation of written materials or pictures.

SUBJECT: NON-DISCRIMINATION AND ANTI-HARASSMENT IN THE SCHOOL DISTRICT *(continued)*

Civil Rights Compliance Officer

The District will designate one or more individuals to serve as Civil Rights Compliance Officer. The Civil Rights Compliance Officer will be responsible for coordinating the District's efforts to comply with and carry out its responsibilities regarding non-discrimination and anti-harassment, including investigations of complaints alleging discrimination, harassment, or the failure of the District to comply with its obligations under relevant non-discrimination and anti-harassment laws and regulations (e.g., the Americans with Disabilities Act, Title IX of the Education Amendments of 1972, and Section 504 of the Rehabilitation Act of 1973).

Prior to the beginning of each school year, the District shall issue an appropriate public announcement or publication which advises students, parents/guardians, employees and other relevant individuals of the District's established grievance procedures for resolving complaints of discrimination and harassment. Included in such announcement or publication will be the name, address, telephone number, and email address of the Civil Rights Compliance Officer(s).

The Civil Rights Compliance Officer(s) for the District is/are:

Investigation of Complaints and Grievances

The School District will act to promptly, thoroughly, and equitably investigate all complaints, whether verbal or written, of discrimination and/or harassment based on any of the characteristics described above, and will promptly take appropriate action to protect individuals from further discrimination or harassment. In the event an anonymous complaint is filed, the District will respond to the extent possible.

It is essential that any individual who is aware of a possible occurrence of discrimination or harassment immediately report such occurrence. All reports will be directed or forwarded to the District's designated Civil Rights Compliance Officer(s). Such complaints are recommended to be in writing, although verbal complaints of discrimination or harassment will also be promptly investigated in accordance with applicable law and District policy and procedure. In the event the Civil Rights Compliance Officer is the alleged offender, the report will be directed to another Civil Rights Compliance Officer, if the District has designated another individual to serve in such a capacity, or to the Superintendent.

Privacy Rights

As part of any investigation, the district has the right to search all school property and equipment, including district computers. Rooms, desks, cabinets, lockers, computers, etc, are provided by the district for the use of staff and students, but the users do not have exclusive use of these locations or equipment and should not expect that materials stored therein will be private.

SUBJECT: NON-DISCRIMINATION AND ANTI-HARASSMENT IN THE SCHOOL DISTRICT *(continued)*

To the extent possible, all complaints will be treated as confidential. Disclosure may, however, be necessary to complete a thorough investigation of the charges and/or notify law enforcement officials.

If an investigation reveals that discrimination or harassment has occurred, the District will take immediate corrective action as warranted. Such action will be taken in accordance with applicable laws and regulations, as well as any and all relevant codes of conduct, District policies and administrative regulations, collective bargaining agreements, and/or third-party contracts.

Knowingly Makes False Accusations

Any employee or student who *knowingly* makes false accusations against another individual as to allegations of discrimination or harassment will face appropriate disciplinary action.

Prohibition of Retaliatory Behavior

The Board prohibits any retaliatory behavior directed against complainants, victims, witnesses, and/or any other individuals who participated in the investigation of a complaint of discrimination and/or harassment. Complaints of retaliation may be directed to the Civil Rights Compliance Officer. In the event the Civil Rights Compliance Officer is the alleged offender, the report will be directed to another Civil Rights Compliance Officer, if the District has designated another individual to serve in such a capacity, or to the Superintendent.

Where appropriate, follow-up inquiries will be made to ensure that discrimination and/or harassment has not resumed and that those involved in the investigation have not suffered retaliation.

Finding that Harassment Did Not Occur

At any level/stage of investigation of alleged harassment, if a determination is made that harassment did not occur, the Compliance Officer will so notify the complainant, the alleged offender and the Superintendent of this determination. Such a finding does not preclude the complainant from filing an appeal pursuant to district policy or regulation and/or pursuing other legal avenues of recourse.

However, even if a determination is made that harassment did not occur, the Superintendent/designee reserves the right to initiate staff awareness and training, as applicable, to help ensure that the school community is not conducive to fostering harassment in the workplace.

In all cases, the Superintendent will inform the Board of Education of the results of each investigation involving a finding that harassment did not occur.

SUBJECT: NON-DISCRIMINATION AND ANTI-HARASSMENT IN THE SCHOOL DISTRICT *(continued)*

Additional Provisions

Regulations will be developed for reporting, investigating, and remediating allegations of discrimination and/or harassment.

In order to promote familiarity with issues pertaining to discrimination and harassment in the schools, and to help reduce incidents of prohibited conduct, the District will provide appropriate information and/or training to staff and students. As may be necessary, special training will be provided for individuals involved in the investigation of discrimination and/or harassment complaints.

A copy of this policy and its accompanying regulations will be available upon request and will be posted and/or published in appropriate locations and/or school publications.

This policy should not be read to abrogate other District policies and/or regulations or the *District Code of Conduct* prohibiting other forms of unlawful discrimination, harassment, and/or inappropriate behavior within this District. It is the intention of the District that all such policies and/or regulations be read consistently to provide protection from unlawful discrimination and harassment. However, different treatment of any individual which has a legitimate, legal, and nondiscriminatory reason shall not be considered a violation of District policy.

SUBJECT: BUDGET PLANNING AND DEVELOPMENT

Budget planning and development for the District will be an integral part of program planning so that the annual operating budget may effectively express and implement programs and activities of the School System. Budget planning will be a year-round process involving participation of District-level administrators, principals, directors, coordinators, teachers, and other personnel. The process of budget planning and development should allow for community input and contain numerous opportunities for public information and feedback.

The Superintendent will have overall responsibility for budget preparation, including the construction of and adherence to a budget calendar. Supervisors will develop and submit budget requests for their particular areas of responsibility after seeking the advice and suggestions of staff members.

Principals will develop and submit budget requests for their particular schools in conjunction with the advice and suggestions of staff members and their own professional judgment. Each school's budget request will be the principal's recommendation as to the most effective way to use available resources in achieving progress toward the approved educational objectives of the school. Program budgets and school budgets will reflect state and/or federal requirements, special sources of funding, and District objectives and priorities.

The Board will give consideration to budget requests, and will review allocations for appropriateness and for their consistency with the School System's educational priorities.

All budget documents for distribution to the public shall be in plain language and organized in a manner which best promotes public comprehension of the contents. Documents shall be complete and accurate and contain sufficient detail to adequately inform the public regarding such data as estimated revenues, proposed expenditures, transfers to other funds, fund balance information, and changes in such information from the prior's submitted budget.

In accordance with Commissioner's Regulations, the budget will be presented in three (3) components which are to be voted upon as one (1) proposition. The law prescribes the types of items to be included in each component and further prescribes that all relevant costs be included in the component.

- a) A program component which shall include, but need not be limited to, all program expenditures of the School District, including the salaries and benefits of teachers and any school administrators or supervisors who spend a majority of their time performing teaching duties, and all transportation operating expenses;

SUBJECT: BUDGET PLANNING AND DEVELOPMENT *(continued)*

- b) A capital component which shall include, but need not be limited to, all transportation capital, debt service, and lease expenditures; costs resulting from judgments and tax certiorari proceedings or the payment of awards from court judgments, administrative orders or settled or compromised claims; and all facilities costs of the School District, including facilities leases expenditures, the annual debt service and total debt for all facilities financed by bonds and notes of the School District, and the costs of construction, acquisition, reconstruction, rehabilitation or improvement of school buildings, provided that such budget shall include a rental, operations and maintenance section that includes base rent costs, total rent costs, operation and maintenance charges, cost per square foot for each facility leased by the District, and any and all expenditures associated with custodial salaries and benefits, service contracts, supplies, utilities, and maintenance and repairs of school facilities; and
- c) An administrative component which shall include, but need not be limited to, office and central administrative expenses, traveling expenses and salaries and benefits of all certified school administrators and supervisors who spend a majority of their time performing administrative or supervisory duties, any and all expenditures associated with the operation of the Office of the School Board, the Office of the Superintendent of Schools, General Administration, the School Business Office, consulting costs not directly related to direct student services and programs, planning and all other administrative activities.

Each component must be separately delineated in accordance with Commissioner's Regulations.

Additionally, the Board of Education shall append to the proposed budget the following documents:

- a) A detailed statement of the total compensation to be paid to the Superintendent of Schools, and any Assistant or Associate Superintendent of Schools in the ensuing school year, including a delineation of the salary, annualized cost of benefits and any in-kind or other form of remuneration;
- b) A list of all other school administrators and supervisors, if any, whose annual salary for the coming school year will be at or above that designated in law for such reporting purposes, with the title of their positions and annual salary identified;
- c) A School District Report Card, prepared pursuant to Commissioner's Regulations, which includes measures of the academic performance of the School District, on a school by school basis, and measures of the fiscal performance of the District (see subheading School District Report Card);

SUBJECT: BUDGET PLANNING AND DEVELOPMENT

- d) A Property Tax Report Card prepared in accordance with law and Commissioner's Regulations (see subheading "Property Tax Report Card").

Tax exemption impact report

The Board shall attest that unexpended surplus funds (i.e., operating funds in excess of the current school year budget, not including funds properly retained under other sections of law) have been applied in determining the amount of the school tax levy. Surplus funds shall mean any operating funds in excess of four percent (4%).

The proposed budget for the ensuing school year shall be reviewed by the Board of Education and publicly disseminated, in accordance with law, prior to its submission to District voters for approval.

District funds may be expended to inform the public regarding the annual budget and to present the annual budget to District voters; however, such funds shall not be utilized to promote either a favorable or negative opinion of the proposed budget.

School District Report Card

Each year the District shall supply data as required by the State Education Department (SED) and will receive a School District Report Card, sometimes referred to as a New York State Report Card. The Report Cards provide enrollment, demographic, attendance, suspension, dropout, teacher, assessment, accountability, graduation rate, post-graduation plan, career and technical education, and fiscal data for public and charter schools, districts and the State. The Report Cards are generated from the supplied data and are in a format dictated by SED. The School District Report Cards consist of three (3) parts:

- a) Accountability and Overview Report - shows District/school profile data, accountability statuses, data on accountability measures such as ELA, Math, and Science scores, and graduation rates.
- b) Comprehensive Information Report - shows non-accountability data such as annual Regents examination results and post-graduate plans of students completing high school.
- c) Fiscal Accountability Supplement - shows expenditures per pupil and some information about placement and classification of students with disabilities.

School District Report Cards are also available online at the SED website: <https://reportcards.nysed.gov/>

SUBJECT: BUDGET PLANNING AND DEVELOPMENT

Property Tax Report Card

Each year, the Board of Education shall prepare a Property Tax Report Card, pursuant to Commissioner's Regulations, and shall make it publicly available by transmitting it to local newspapers of general circulation, appending it to copies of the proposed budget made publicly available as required by law, making it available for distribution at the Annual Meeting, and otherwise disseminating it as required by the Commissioner.

The Property Tax Report Card shall include:

- a) The amount of total spending and total estimated school tax levy that would result from adoption of the proposed budget, and the percentage increase or decrease in total spending and total school tax levy from the School District budget for the preceding school year; and
- b) The projected enrollment growth for the school year for which the budget is prepared, and the percentage change in enrollment from the previous year; and
- c) The percentage increase in the average of the Consumer Price Indexes from January first of the prior school year to January first of the current school year as defined in Education Law; and
- d) The District's school tax levy limit calculation. The District will submit its school tax levy limit calculation to the Office of the State Comptroller, NYSED and the Office of Taxation and Finance by March 1 annually. If a voter override of the tax levy limit is necessary, the budget vote must be approved by sixty percent (60%) of the District's qualified voters present and voting.

A copy of the Property Tax Report Card prepared for the Annual District Meeting shall be submitted to the State Education Department in the manner prescribed by the Department by the end of the business day next following approval of the Property Tax Report Card by the Board of Education, but no later than twenty-four (24) days prior to the statewide uniform voting day (i.e., the third Tuesday in May).

The State Education Department shall compile such data for all school districts whose budgets are subject to a vote of the qualified voters, and shall make such compilation available electronically at least ten (10) days prior to the statewide uniform voting day.

Budget Notice

The School District Clerk shall mail a School Budget Notice to all qualified voters of the School District after the date of the Budget Hearing, but no later than six (6) days prior to the Annual Meeting and Election or Special District Meeting at which a school budget vote will occur. The School Budget Notice shall compare the percentage increase or decrease in total spending under the proposed budget over total spending under the School District budget adopted for the current school year, with the percentage increase or decrease in the Consumer Price Index from January first of the prior school year to January first of the current school year.

The Budget Notice shall include a description of how total spending and the tax levy resulting from the proposed budget would compare with a projected contingency budget, assuming that such contingency budget is adopted on the same day as the vote on the proposed budget. Such comparison shall be in total and by component (i.e., program, capital and administrative), and shall include a statement of the assumptions made in estimating the projected contingency budget.

Beginning with the budget notice for the 2020/2021 proposed budget, the District will also include in the notice:

- a)The school tax levy limit;
- b)The proposed school year tax levy (without permissible exclusions to the school tax levy limit);
- c)The total permissible exclusions; and
- d)The proposed school year tax levy (including permissible exclusions to the school tax levy limit).

The Notice shall also set forth the date, time and place of the school budget vote in the same manner as in the Notice of the Annual Meeting. The School Budget Notice shall be in a form prescribed by the Commissioner of Education.

SUBJECT: BUDGET ADOPTION

The Board of Education shall review the recommended budget of the Superintendent of Schools and shall seek public input and feedback regarding the recommended budget including, but not limited to, holding a public budget hearing not less than seven (7) nor more than fourteen (14) days prior to the Annual District Meeting and Election at which the budget vote is to occur. The Board may modify the recommended budget of the Superintendent prior to its submission to District voters. Final authorization of the proposed budget is dependent upon voter approval unless a contingency budget is adopted by the Board.

In the event the original proposed budget is not approved at the Annual District Meeting and Election, the Board may resubmit the original proposed budget or a revised budget for voter approval, or individual propositions may be placed before District voters, at a special meeting held at a later date. If the voters fail to approve the second budget submittal, or budget propositions(s), the Board shall adopt a contingency budget with a tax levy that is no greater than the prior year's levy.

The School District budget for any school year, or any part of such budget, or any proposition(s) involving the expenditure of money for that school year, shall not be submitted for a vote of the qualified District voters more than twice.

The School District budget, once adopted, becomes the basis for establishing the tax levy on real property within the District.

SUBJECT: CONTINGENCY BUDGET

The School District budget for any school year or any part of such budget, or any proposition involving the expenditure of money for such school year, shall not be submitted for a vote of the qualified voters of the District more than twice in any school year.

If the original proposed budget is not approved by District voters at the Annual District Meeting and Election, the Board has the option of either resubmitting the original or revised budget for voter approval at a special meeting held at a later date; or the Board may, at that point, adopt a contingency budget and levy a tax for teachers' salaries and ordinary contingent expenses as enumerated in law. If the Board decides to submit either the original or a revised budget to the voters for a second time, and the voters do not approve the second budget submittal, the Board shall adopt a contingency budget and the tax levy cannot exceed the total tax levy of the prior year (0% levy growth).

The administrative component of the contingency budget shall not comprise a greater percentage of the contingency budget exclusive of the capital component than the lesser of:

- a) The percentage the administrative component had comprised in the prior year budget exclusive of the capital component; or
- b) The percentage the administrative component had comprised in the last proposed defeated budget exclusive of the capital component.

Regulations will be developed enumerating a sample list of expenditures which have been determined, pursuant to law, to constitute ordinary contingent expenses. However, the Board reserves the right, in accordance with its legal responsibility, to designate other items as ordinary contingent expenses as deemed necessary to maintain the educational program of the District, preserve property, and assure the health and safety of students and staff.

SUBJECT: DISTRICT INVESTMENTS

Purpose and Safeguards

The investment program of the school district is authorized by the Board of Education. It is viewed as a critical ingredient of sound fiscal management, the purpose of which is to secure a maximum yield of interest revenues to supplement other school district revenues for the educational program of the school system. The district's investment program will be administered in such a way as to assure:

- a) The continual process of temporary investing of all fund balances and monies available to the District for investment purposes;
- b) The maintenance (revised following each cash transaction) of a yearly cash flow chart that will provide data to assist proper planning and decision-making regarding amount, duration and type of investments to the school district;
- c) The utilization of an open competitive system of bids and/or quotes to obtain maximum yield possible on all investments from both in-district and out-of-district financial institutions;
- d) That all vendors using school district funds provide a statement to the district of their collateral in the form of a list of the securities pledged at market value; and
- e) That all school district investments will be in compliance with Sections 1723-a and 2131 of the Education Law and other applicable laws.

In accordance with this policy, the District Treasurer or his/her designee is authorized to invest and/or deposit all funds, including proceeds of obligations and reserve funds, in time deposits, certificates of deposit, short-term government securities or other investment instruments permitted by law.

Delegation of Authority

The school district authorizes its Superintendent of Schools and Business Administrator to manage all activities associated with its investment program in such a manner as to accomplish all the objectives and the intents of this policy. These responsibilities will also include annual review and assessment of the district's investment program and filing a report and his/her recommendations annually with the Board of Education. The Superintendent and Business Administrator are further authorized to execute in the name of the Board of Education any and all documents relating to the investment program in a timely manner as well as to utilize reputable consultants regarding investment decisions when necessary. A quarterly progress report of investments will be given to the Board a minimum of four (4) times per year.

Upon said annual review with the Board of Education, it shall be discussed and determined by mutual consent and the Business Administrator as to any and all changes in the way of capitalizing on the District's investments. Changes may also be implemented if the Board of Education and the Business Administrator mutually agree that said change is needed.

SUBJECT: ACCEPTANCE OF GIFTS, GRANTS AND BEQUESTS TO THE SCHOOL DISTRICT

The Board may accept gifts, grants and/or bequests of money, real or personal property, as well as other merchandise which, in view of the Board, add to the overall welfare of the School District, provided that such acceptance is in accordance with existing laws and regulations. However, the Board is not required to accept any gift, grant or bequest and does so at its discretion, basing its judgment on the best interests of the District. Furthermore, the Board will not accept any gift, grant or bequest which constitutes a conflict of interest and/or gives an appearance of impropriety.

At the same time, the Board will safeguard the District, the staff and students from commercial exploitation, from special interest groups, and the like.

The Board will not accept any gifts or grants which will place encumbrances on future Boards, or result in unreasonable additional or hidden costs to the District.

The Board of Education will not formally consider the acceptance of gifts or grants until and unless it receives the offer in writing from the donor/grantor. Any such gifts or grants donated to the Board and accepted on behalf of the School District must be by official action and resolution passed by Board majority. The Board would prefer the gift or grant to be a general offer rather than a specific one. Consequently, the Board would suggest that the donor/grantor work first with the school administrators in determining the nature of the gift or grant prior to formal consideration for acceptance by the Board. However, the Board, in its discretion, may direct the Superintendent of Schools to apply such gift or grant for the benefit of a specific school or school program.

The Board is prohibited, in accordance with the New York State Constitution, from making gifts/charitable contributions with School District funds.

Gifts and/or grants of money to the District shall be annually accounted for under the General Fund bank designated by the Board of Education.

All gifts, grants and/or bequests shall become School District property. A letter of appreciation, signed by the President of the Board and the Superintendent, may be sent to a donor/grantor in recognition of his/her contribution to the School District.

The Board of Education recognizes that gift giving, especially during the holiday season, may be a common practice for many District employees. While the giving or exchanging of gifts may be acceptable among staff members, the Board strongly encourages District employees and students to show appreciation through written notes or greeting cards.

Additionally, all business contacts will be informed that gifts exceeding seventy-five dollars (\$75) to District employees will be returned or donated to charity.

If textbooks are no longer useful or usable, the procedures for disposal shall adhere to the following order of preference:

SUBJECT: PURCHASING

The District's purchasing activities will be part of the responsibilities of the Business Office, under the general supervision of the Purchasing Agent designated by the Board of Education. The purchasing process should enhance school operations and educational programs through the procurement of goods and services deemed necessary to meet District needs.

Competitive Bids and Quotations

As required by law, the Superintendent will supervise the Business Administrator as to follow normal bidding procedures in all cases where needed quantities of like items will total the maximum level allowed by law during the fiscal year, (similarly for public works-construction, repair, etc.) and in such other cases that seem to be to the financial advantage of the School District.

A bid bond may be required if considered advisable.

No bid for supplies shall be accepted that does not conform to specifications furnished unless specifications are waived by Board action. Contracts shall be awarded to the lowest responsible bidder who meets specifications. However, the Board may choose to reject any bid.

Rules shall be developed by the administrative team for the competitive purchasing of goods and services.

The Superintendent may authorize purchases within the approved budget without bidding if required by emergencies and are legally permitted.

The Superintendent, in conjunction with the Business Administrator, is authorized to enter into cooperative bidding for various needs of the School District.

Request for Proposal Process for the Independent Auditor

In accordance with law, no audit engagement shall be for a term longer than five (5) consecutive years. The District may, however, permit an independent auditor, including BOCES services, engaged under an existing contract for such services to submit a proposal for such services in response to a request for competitive proposals or be awarded a contract to provide such services under a request for proposal process.

Procurement of Goods and Services

The Board of Education recognizes its responsibility to ensure the development of procedures for the procurement of goods and services not required by law to be made pursuant to competitive bidding requirements. These goods and services must be procured in a manner so as to:

- a) Assure the prudent and economical use of public moneys in the best interest of the taxpayer;
- b) Facilitate the acquisition of goods and services of maximum quality at the lowest possible cost under the circumstances; and
- c) Guard against favoritism, improvidence, extravagance, fraud and corruption.

SUBJECT: PURCHASING *(continued)*

These procedures shall contain, at a minimum, provisions which:

- a) Prescribe a process for determining whether a procurement of goods and services is subject to competitive bidding and if it is not, documenting the basis for such determination;
- b) With certain exceptions (purchases pursuant to General Municipal Law, Article 5-A; State Finance Law, Section 162; State Correction Law, Section 184; or those circumstances or types of procurements set forth in (f) of this section), provide that alternative proposals or quotations for goods and services shall be secured by use of written request for proposals, written quotations, verbal quotations or any other method of procurement which furthers the purposes of General Municipal Law Section 104-b;
- c) Set forth when each method of procurement will be utilized;
- d) Require adequate documentation of actions taken with each method of procurement;
- e) Require justification and documentation of any contract awarded to other than the lowest responsible dollar offer, stating the reasons;
- f) Identify the individual or individuals responsible for purchasing and their respective titles. Such information shall be updated biennially.
- g) Incorporate the findings of the audit committee, internal auditor, and external audit reports.

Any unintentional failure to fully comply with these provisions shall not be grounds to void action taken or give rise to a cause of action against the District or any District employee.

The Board of Education shall review comments concerning the District's policies and procedures from those employees involved in the procurement process, the claims auditor and the audit reports. All policies and procedures regarding the procurement of goods and services shall be reviewed annually by the Board.

Best Value

Effective January 27, 2012, General Municipal Law (GML) Section 103 was amended to permit a school district or BOCES to award purchase contracts in excess of \$20,000 on the basis of "best value", rather than on the basis of the lowest responsible bid. The Board of Education must adopt a resolution at a public meeting authorizing the award of bids based on "best value." The Board of Education may also approve "best value" bid award recommendations on an individual bid basis at a scheduled public meeting. A best value award is one that optimizes quality, cost and efficiency, typically applies to complex services and technology contracts, and is quantifiable whenever possible.

SUBJECT: PURCHASING *(continued)*

"Piggybacking" Law - Exception to Competitive Bidding

On August 1, 2012, General Municipal Law (GML) Section 103 was amended to allow school districts to purchase certain goods and services (apparatus, materials, equipment and supplies) through the use of contracts let by the United States or any agency thereof, any state, and any county, political subdivision or district of any state. The amendment authorizes school districts and BOCES to "piggyback" on contracts let by outside governmental agencies in a manner that constitutes competitive bidding "consistent with state law."

This "piggybacking" is permitted on contracts issued by other governmental entities, provided that the original contract:

- a) Has been let by the United States or any agency thereof, any state (including New York State) or any other political subdivision or district therein;
- b) Was made available for use by other governmental entities and agreeable with the contract holder; and
- c) Was let in a manner that constitutes competitive bidding consistent with New York State law and is not in conflict with other New York State laws.

The "piggybacking" amendment and the "best value" amendment may not be combined to authorize a municipality to "piggyback" onto a cooperative contract which was awarded on the basis of "best value." In other words, while a school district or BOCES may authorize the award of contracts on the basis of "best value", it may not "piggyback" onto a purchasing contract awarded by another agency on the basis of "best value."

Alternative Formats for Instructional Materials

District Plan

The District will ensure that all instructional materials to be used in the schools of the District are available in a usable alternative format for each student with a disability, including students requiring Section 504 Accommodation Plans, in accordance with his or her educational needs and course selection, at the same time as such instructional materials are available to non-disabled students. The District Plan shall include those provisions mandated by Education Law and Commissioner's Regulations.

Preference in the purchase of instructional materials will be given to vendors who agree to provide materials in a usable alternative format (i.e., any medium or format, other than a traditional print textbook, for presentation of instructional materials that is needed as an accommodation for each student with a disability, including students requiring Section 504 Accommodation Plans, enrolled in the School District). Alternative formats include, but are not limited to, Braille, large print, open and closed captioned, audio, or an electronic file in an approved format as defined in Commissioner's Regulations.

SUBJECT: PURCHASING *(continued)*

As required by federal law and New York State Regulations, the District has adopted the National Instructional Materials Accessibility Standard (NIMAS) to ensure that curriculum materials are available in a usable alternative format for students with disabilities. Each school district has the option of participating in the National Instructional Materials Access Center (NIMAC). Whether a district does or does not participate in NIMAC, the district will be responsible to ensure that each student who requires instructional materials in an alternate format will receive it in a timely manner and in a format that meets NIMAS standards. The New York State Education Department (NYSED) recommends that school districts choose to participate in NIMAC, because this national effort to centralize the distribution of instructional materials in alternate formats will help guarantee timely provision of such materials to students.

For school districts, Boards of Cooperative Educational Services (BOCES), State-operated schools, State-supported schools and approved private schools that choose to participate in NIMAC, **contracts with publishers executed on and after December 3, 2006** for textbooks and other printed core materials must include a provision that requires the publisher to produce NIMAS files and send them to the NIMAC (this will not add any cost to the contract).

For more information regarding NIMAC including model contract language, Steps for Coordinating with NIMAC and an IDEA Part B Assurances Application, see website: <http://www.vesid.nysed.gov/specialed/publications/persprep/NIMAS.pdf>

Geographic Preference in Procuring Local Agricultural Products

Schools participating in Child Nutrition Programs such as the National School Lunch Program, School Breakfast Program and/or Special Milk Program are encouraged to purchase unprocessed locally grown and locally raised agricultural products. A school district may apply an optional geographic preference in the procurement of such products by defining the local area where this option will be applied. The intent of this preference is to supply wholesome unprocessed agricultural products that are fresh and delivered close to the source.

A geographic preference established for a specific area adds additional points or credits to bids received in response to a solicitation, but does not provide a set-aside for bidders located in a specific area, nor does it preclude a bidder from outside a specified geographic area from competing for and possibly being awarded a specific contract.

Computer Software Purchases

Software programs designated for use by students in conjunction with computers of the District shall meet the following criteria:

- a) A computer program which a student is required to use as a learning aid in a particular class; and
- b) Any content-based instructional materials in an electronic format that are aligned with State Standards which are accessed or delivered through the internet and based on a subscription model. Such electronic format materials may include a variety of media assets and learning tools including video, audio, images, teacher guides, and student access capabilities as such terms are defined in Commissioner's Regulations.

SUBJECT: PURCHASING *(continued)*

Environmentally Sensitive Cleaning and Maintenance Products

In accordance with Commissioner's Regulations, State Finance Law and Education Law, effective with the 2006-2007 school year, the District shall follow guidelines, specifications and sample lists when purchasing cleaning and maintenance products for use in its facilities. Such facilities include any building or facility used for instructional purposes and the surrounding grounds or other sites used for playgrounds, athletics or other instruction.

Environmentally sensitive cleaning and maintenance products are those which minimize adverse impacts on health and the environment. Such products reduce as much as possible exposures of children and school staff to potentially harmful chemicals and substances used in the cleaning and maintenance of school facilities. The District shall identify and procure environmentally sensitive cleaning and maintenance products which are available in the form, function and utility generally used. Coordinated procurement of such products as specified by the Office of General Services (OGS) may be done through central state purchasing contracts to ensure that the District can procure these products on a competitive basis.

The District shall notify their personnel of the availability of such guidelines, specifications and sample product lists.

Apparel and Sports Equipment Purchases

Competitive Bidding Purchases

The Board of Education will only accept bids from "responsible bidders." A determination that a bidder on a contract for the purchase of apparel or sports equipment is not a "responsible bidder" shall be based upon either or both of the following considerations:

- a) The labor standards applicable to the manufacture of the apparel, including but not limited to employee compensation, working conditions, employee rights to form unions, and the use of child labor; or
- b) The bidder's failure to provide information sufficient for the Board of Education to determine the labor standards applicable to the manufacture of the apparel or sports equipment.

Non-Competitive Bidding Purchases

The Board's internal policies and procedures governing procurement of apparel or sports equipment, where such procurement is not required to be made pursuant to competitive bidding requirements, shall prohibit the purchase of apparel or sports equipment from any vendor based upon either or both of the following considerations:

In addition, the board is required to award all contracts for public works in excess of thirty-five thousand dollars (\$35,000) to the lowest responsible bidder after advertising for public sealed bids.

SUBJECT: RESERVE FUNDS

The Board of Education recognizes that the maintenance of a fund balance is essential to the financial integrity of the District insofar as it helps mitigate current and future risks and assists in ensuring stable tax rates. Consistent with this understanding, the Board adopts the following standards and practices.

Reserve funds (essentially a legally authorized savings account designated for a specific purpose) are an important component in the District's financial planning for future projects, acquisitions and other lawful purposes. To this end, the District may establish and maintain reserve funds in accordance with New York State Laws, Commissioner's Regulations and the rules and/or opinions issued by the Office of the New York State Comptroller, as applicable. The District shall comply with the reporting requirements of Article 3 of the General Municipal Law of the State of New York and the Governmental Accounting Standards Board (GASB) issued GASB Statement Number 54, *Fund Balance Reporting and Governmental Fund Type Definitions*.

Any and all District reserve funds shall be properly established and maintained to promote the goals of creating an open, transparent and accountable use of public funds. The District may engage independent experts and professionals, including but not limited to, auditors, accountants and other financial and legal counsel, as necessary, to monitor all reserve fund activity and prepare any and all reports that the Board may require.

Periodic Review and Annual Report

The Board of Education will periodically review all reserve funds. The District will also prepare and submit an annual report of all reserve funds to the Board of Education. The annual report shall include the following information for each reserve fund:

- a) The type and description of the reserve fund;
- b) The date the reserve fund was established and the amount of each sum paid into the fund;
- c) The interest earned by the reserve fund;
- d) Capital gains or losses resulting from the sale of investments of the reserve fund;
- e) The total amount and date of each withdrawal from the reserve fund;
- f) The total assets of the reserve fund showing cash balance and a schedule of investments;
and
- g) An analysis of the projected needs for the reserve fund in the upcoming fiscal year and a recommendation regarding funding those projected needs.
- h) The District will maintain and update the Guiding Principles for Reserves, which includes the creation date of each reserve, purpose, funding methods, use of reserve, monitoring, anticipated funding needs and current balance. The document will be reviewed and updated on a yearly basis.

SUBJECT: RESERVE FUNDS

Unassigned Fund Balance

Minimum Unassigned Fund Balance

In order to maintain financial stability and protect against cash flow shortfalls, the Board of Education will strive to maintain an unassigned fund balance of at least 2% of the current year's budgeted expenses. In the event such balance falls below the 2% floor, the District will seek to replenish deficiencies through reducing expenses and/or increasing revenue.

Maximum Unassigned Fund Balance

In order to support normal operating costs and provide fiscal stability for the District, the Board of Education will also strive to ensure that the unassigned fund balance does not exceed 4% of the current year's budgeted expenditures. If it is anticipated that such balance will exceed the 4% ceiling, the Board of Education will evaluate current commitments and assignments to determine the final distribution of fund balance in any fiscal year. The District will ensure unexpended surplus funds are used to reduce taxpayer liability in conformance with Real Property Tax Law Section 1318.

The Board shall utilize the information in the annual report to make necessary decisions to adequately maintain and manage the District's reserve fund balances while mindful of its role and responsibility as a fiduciary of public funds.

The Superintendent shall develop any necessary and/or appropriate regulations to implement the terms of the Board's policy.

SUBJECT: ALLOCATION OF TITLE I, PART A FUNDS IN THE DISTRICT

Allocation of Funds

The District allocates the Title I, Part A funds it receives to District school buildings on the basis of the total number of students from low-income families in each eligible school attendance area or eligible school, as defined in law. Unless the District school building is participating in a school wide program, the District school building will only use Title I, Part A funds for programs that provide services to eligible children, as defined in law, identified as having the greatest need for special assistance.

The District will reserve from its allocation of Title I, Part A funds, such funds as are necessary to provide services comparable to those provided to students in District school buildings that receive Title I, Part A funds in order to serve:

- a) Homeless children and youths, including educationally related support services to children in shelters and other locations where children may live;
- b) Children in local institutions for neglected children; and
- c) If appropriate, children in local institutions for delinquent children, and neglected or delinquent children in community day programs.

Funds Will Supplement Not Supplant

The District will ensure that Title I, Part A funds only supplement, not supplant, the funds that would, in the absence of such federal funds, be made available from state and local sources for the education of students participating in programs assisted by Title I, Part A funds.

Allocation Methodology

The District has developed an allocation methodology that is consistent with Title I guidelines.

Audit Response

Periodically, the District receives audit reports from the External (Independent) Auditor and/or the Office of the New York State Comptroller. The Board will review all audit recommendations, in consultation with the Audit Committee, and respond appropriately. All Board members and officers, District employees and third party consultants are required to abide by the District's policies, administrative regulations and procedures in the conduct of their duties. Further, all applicable federal and/or state laws and regulations must be adhered to in the course of District operations and practices. In the event that the allegations of financial improprieties/fraud and/or wrongful conduct concern the investigating official, the report shall be made to the next level of supervisory authority. If the chain of supervisory command is not sufficient to ensure impartial, independent investigation, allegations of financial improprieties/fraud and/or wrongful conduct will be reported as applicable, to the Internal Auditor (if available), or the Independent (External) Auditor, or the School Attorney or the Board of Education. SUBJECT: MEAL CHARGE AND PROHIBITION AGAINST MEAL SHAMING

I. Purpose

The goal of the Southern Cayuga Central School District is to provide student access to nutritious no- or low-cost meals each school day and to ensure that a student whose parent/guardian has unpaid school meal charges is not shamed or treated differently than a student whose parent/guardian does not have unpaid meal charges.

Unpaid meal charges place a large financial burden on the district. The purpose of this policy is to insure compliance with federal requirements for the USDA Child Nutrition Program and, and to provide oversight and accountability for the collection of outstanding student meal balances to ensure that the student is not stigmatized, distressed or embarrassed.

The intent of this policy is to establish procedures to address unpaid meal charges throughout the Southern Cayuga Central School District in a way that does not stigmatize, distress or embarrass students. The provisions of this policy pertain to regular priced reimbursable school breakfast, lunch and snack meals only. Charging of items outside of the reimbursable meals (a la carte items, adult meals, etc.) is expressly prohibited.

II. Access to Meals

Free Meal Benefit Eligible students will be allowed to receive a free breakfast and lunch meal of their choice each day. A la carte items or other similar items must be paid/prepaid, including if students are getting only milk.

Reduced Meal Benefit Eligible students will be allowed to receive a breakfast of their choice for \$0.00 and lunch of their choice for \$0.00 each day. A la carte items or other similar items must be paid/prepaid, including if students are getting only milk.

Full Pay Students will pay for meals at the District's published paid meal rate each day. The meals offered to students will be reimbursable meals available to all students unless the student's parent or guardian has specifically provided written permission to the District to withhold a meal. A la carte items or other similar items must be paid/prepaid.

ONGOING STAFF TRAINING

- Staff will be trained annually and throughout the year as needed on the procedures for managing meal charges using the NYSED Webinar or the District's training program.
- Staff training includes ongoing eligibility certification for free or reduced-price meals.
- Staff training includes meal shaming policy regulations to all staff involved in program operations.

SUBJECT: MEAL CHARGE AND PROHIBITION AGAINST MEAL SHAMING

PARENT NOTIFICATION

- Parents/guardians will be notified that a student's account balance is exhausted and has accrued unpaid meal charges within seven days of the charge and then once every week thereafter.

PARENT OUTREACH

- Staff will communicate with parents/guardians with five or more unpaid meal charges to determine eligibility for free or reduced-price meals.
- Staff will make two documented attempts to reach out to parents/guardians to complete a meal application in addition to the application and instructions provided in the school enrollment packet.
- Staff will contact the parent/guardian to offer assistance with completion of meal application to determine if there are other issues within the household causing the child to have insufficient funds, offering any other assistance that is appropriate.

MINIMIZING STUDENT DISTRESS

- Staff will not publicly identify or stigmatize any student on the line for a meal or discuss any outstanding meal debt in the presence of any other students.
- Students with unpaid meal charges will not be required to wear a wristband or handstamp, or to do chores or work to pay for meals.
- Staff will not throw away a meal after it has been served because of the student's inability to pay for the meal or because of previous meal charges.
- Staff will not take any action directed at a pupil to collect unpaid school meal charges.
- Staff will deal directly with parents/guardians regarding unpaid meal charges.

SUBJECT: MEAL CHARGE AND PROHIBITION AGAINST MEAL SHAMING

ONGOING ELIGIBILITY CERTIFICATION

- Staff will conduct direct certification through the NYSSIS or using NYSED Roster Upload at least monthly to maximize free eligibility.
- Staff will provide parents/guardians with free and reduced-price application and instructions at the beginning of each school year in school enrollment packet.
- The District uses electronic meal application to provide an explanation of the process in the school enrollment packet and instructions on how to request a paper application at no cost.
- The District provides at least two additional free and reduced-price applications throughout the school year to families identified as owing meal charges.
- The District uses its administrative prerogative judiciously on a student's behalf, and only after using exhaustive efforts to obtain a completed application from the student's parent/guardian. The District will complete the application using only available information on family size and income that falls within approvable guidelines.
- The District coordinates with the foster, homeless, migrant, runaway coordinators to certify eligible students. School liaisons required for homeless, foster and migrant students will coordinate with the nutrition department to make sure these students receive free school meals, in accordance with federal law.

Students/Parents/Guardians may pay for meals in advance via www.myschoolbucks.com or with a check payable to *Southern Cayuga Central School Lunch Fund*. Further details are available on the District's webpage at www.southerncayuga.org. Funds should be maintained in accounts to minimize the possibility that a student may be without meal money on any given day. Any remaining funds for a particular student may be carried over to the next school year.

To obtain a refund for withdrawn, and graduating students; a written or e-mailed request for a refund of any money remaining in the student's account must be submitted. Students who are graduating at the end of the year will be given the option to transfer any remaining money to a sibling's account through a written request.

Unclaimed Funds must be requested within one school year. Unclaimed funds will then become the property of the *Southern Cayuga Central School Food Service Program*.

SUBJECT: SCHOOL SAFETY PLANS

The District considers the safety of its students and staff to be of the utmost importance and is keenly aware of the evolving nature of threats to schools. As such, it will address those threats accordingly through appropriate emergency response planning. The District-wide school safety plan and the building-level emergency response plan will be designed to prevent or minimize the effects of serious violent incidents and emergencies and to facilitate the coordination of schools and the District with local and county resources in the event of these incidents or emergencies.

These plans will be reviewed by the appropriate team on at least an annual basis and updated as needed by September 1. Specifically, the Board will make each District-wide school safety plan available for public comment at least 30 days prior to its adoption. The District-wide school safety plans may only be adopted by the Board after at least one public hearing that provides for the participation of school personnel, parents, students, and any other interested parties. Additionally, the District-wide school safety plan will designate the Superintendent or designee as the chief emergency officer responsible for coordinating communication between school staff and law enforcement and first responders, and for ensuring staff understanding of this plan. Similarly, the Superintendent will be responsible for ensuring the completion and yearly updating of building-level emergency response plans.

*Although the District has a single school building, in accordance with relevant law and regulation, it will develop separate district-wide and building-level plans as described above. The District may appeal to the Commissioner of Education in order to develop a single comprehensive plan.

District-Wide School Safety Plan

District-wide school safety plan means a comprehensive, multi-hazard school safety plan that covers all school buildings of the District, addresses crisis intervention, emergency response and management at the District level, and has the contents as prescribed in Education Law and Commissioner's regulations.

The District-wide team will include, but not be limited to, representatives of the Board, **student, teacher, administrator, and parent organizations, school safety personnel, and other school personnel.

The plan will further address, among other items as set forth in Education Law and Commissioner's regulations, how the District will respond to implied or direct threats of violence by students, teachers, other school personnel as well as visitors to the school, including threats by students against themselves (e.g. suicide).

(continued)

SUBJECT: SCHOOL SAFETY PLANS *(continued)*

Building-Level Emergency Response Plan

Building-level emergency response plan means a plan that addresses crisis intervention, emergency response and management at the building level and has the contents as prescribed in Education Law and Commissioner's regulations. As part of this plan, the District will define the chain of command in a manner consistent with the National Incident Management System (NIMS)/Incident Command System (ICS).

The building-level emergency response plan will be developed by the building-level emergency response team. The building-level emergency response team is a building-specific team appointed by the building principal, in accordance with regulations or guidelines prescribed by the Board. The building-level team will include, but not be limited to, representatives of teacher, administrator, and parent organizations, school safety personnel and other school personnel, community members, law enforcement officials, fire officials, or other emergency response agencies, and any other representatives the Board deems appropriate.

Training Requirement

The District will submit certification to the New York State Education Department that all District and school staff have received annual training on the emergency response plan, and that this training included components on violence prevention and mental health. New employees hired after the start of the school year will receive training within 30 days of hire, or as part of the District's existing new hire training program, whichever is sooner.

Non-Instructional/Business Operations**SUBJECT: FIRE AND EMERGENCY DRILLS, BOMB THREATS, AND BUS
EMERGENCY DRILLS****Fire and Emergency Drills**

The administration of each school building will instruct and train students on appropriate emergency responses, through fire and emergency drills, in the event of a sudden emergency.

Fire and emergency drills will be held at least 12 times in each school year; eight of these will be evacuation drills and will be completed by December 31. Four of these eight required drills will be through use of the fire escapes on buildings where fire escapes are provided or identified secondary exits, and the other four drills will be lock-down drills. Drills will be conducted at different times of the school day. Students will also be instructed in the procedures to be followed in the event that a fire occurs during the regular school lunch period or assembly, however, this additional instruction may be waived if a drill is held during the regular lunch period or assembly.

Summer School

At least two additional drills will be held during summer school in buildings where summer school is held, and one of these drills will be held during the first week of summer school.

After-School Programs, Events, or Performances

The building principal or designee will require those in charge of after-school programs, events, or performances attended by any individuals unfamiliar with that school building, to announce at the beginning of these programs the procedures to be followed in the event of an emergency.

Bomb ThreatsSchool Bomb Threats

A bomb threat, even if later determined to be a hoax, is a criminal act. No bomb threat should be treated as a hoax when it is first received. Upon receiving any bomb threat, the school has an obligation and responsibility to ensure the safety and protection of the students and other occupants of the school. This obligation takes precedence over a search for a suspect object. Prudent action is dependent upon known information about the bomb threat-location, if any; time of detonation; etc. Specific procedures as to appropriate responses as a result of a bomb threat can be located in the building-level emergency response plan, as required by relevant law and regulation.

Police Notification and Investigation

Appropriate law enforcement agencies must be notified by the building administrator or designee of any bomb threat as soon as possible after receiving the threat. Law enforcement officials will contact, as the situation requires, fire and/or county emergency coordinators according to the county emergency plan.

Implementation

The Superintendent or designee will develop written procedures to implement the terms of this policy. Additionally, these procedures will be incorporated in the District-wide school safety plan and the building-level emergency response plan, with provisions to provide written information to all staff and students regarding emergency procedures by October 1 of each school year, an annual drill to test the emergency response procedures under each of its building-level emergency response plans; and the annual review of the District-wide and building-level emergency response plans, along with updates as necessary, by September 1, as mandated by law or regulation.

(continued)

Non-Instructional/Business Operations**SUBJECT: FIRE AND EMERGENCY DRILLS, BOMB THREATS, AND BUS EMERGENCY DRILLS** *(continued)***Bus Emergency Drills**

No drills will be conducted when buses are on routes.

Students who ordinarily walk to school will also be included in the drills. Students attending public and nonpublic schools who do not participate in regularly scheduled drills will also be provided drills on school buses, or as an alternative, will be provided classroom instruction covering the content of these drills.

Each drill will include practice and instruction in the location, use, and operation of the emergency door, fire extinguishers, first-aid equipment, and windows as a means of escape in the event of fire or accident. Similarly, students will be instructed on all topics mandated by relevant sections of the Education Law and Commissioner's regulations, including, but not limited to, the following:

Instruction on Use of Seat Belts

When students are transported on school buses equipped with seat safety belts, the District will ensure that all students who are transported on any school bus owned, leased, or contracted for by the District will receive instruction on the use of seat safety belts. This instruction will be provided at least three times each year to both public and nonpublic school students who are so transported and will include, but not be limited to:

The Southern Cayuga Central School District shall provide and maintain on-site in each *instructional school facility* functional cardiac automated external defibrillator (AED) equipment as defined in Public Health Law Section 3000-b for use during emergencies. Each such facility shall have sufficient automated external defibrillator equipment available to ensure ready and appropriate access for use during emergencies in quantities and types as deemed by the Commissioner of Education, in consultation with the Commissioner of Health. Determination of the quantity and placement of AEDs must be made with consideration of at least the factors enumerated in Commissioner's Regulations. *An instructional school facility means a building or other facility maintained by the School District where instruction is provided to students pursuant to its curriculum.*

Whenever an *instructional School District facility* is used for a school-sponsored or school-approved curricular or extracurricular event or activity and whenever a *school-sponsored athletic contest* is held at any location, the public school officials and administrators responsible for such school facility or athletic contest shall ensure that AED equipment is provided on-site and that there is present during such event, activity or contest at least one staff person who is trained in accordance with Public Health Law in the operation and use of an AED. *School-sponsored or school-approved curricular or extracurricular events or activities means events or activities of the School District that are, respectively, associated with its instructional curriculum or otherwise offered to its students. A school-sponsored athletic contest means an extra class intramural athletic activity of instruction, practice and competition for students in grades 4 through 12 consistent with Commissioner's Regulations Section 135.4.*

Where a *school-sponsored competitive athletic event* is held at a site other than a School District facility, School District officials shall assure that AED equipment is provided on-site by the sponsoring or host district and that at least one staff person who is trained, in accordance with Public Health Law, in the operation and use of the AED is present during such athletic event. *A school-sponsored competitive athletic event means an extra class interscholastic athletic activity of instruction, practice and competition for students in grades 7 through 12 consistent with Commissioner's Regulations Section 135.4.*

**SUBJECT: CARDIAC AUTOMATED EXTERNAL DEFIBRILLATORS (AEDs) IN
PUBLIC SCHOOL FACILITIES *(continued)***

Therefore, it is the policy of our Southern Cayuga Central School District to provide proper training requirements for District AED users, to ensure the immediate calling of 911 and/or the community equivalent ambulance dispatch entity whenever the AED is used, to ensure ready identification of the location of the AED units as enumerated in the District's Public Access Defibrillation Collaborative Agreement.

The District will provide for regular maintenance and checkout procedures of the AED unit(s) which meet or exceed manufacturer's recommendations. Appropriate documentation will be maintained in accordance with law and/or regulation. Further, the District will participate in the required Quality Improvement Program as determined by the Regional Emergency Medical Services Council.

Pursuant to Public Health Law Sections 3000-a and 3000-b, the School District (as a public access defibrillation provider), or any employee or other agent of the School District who, in accordance with the provisions of law, voluntarily and without expectation of monetary compensation renders emergency medical or first aid treatment using an AED to a person who is unconscious, ill or injured, shall not be liable for damages for injury or death unless caused by gross negligence.

**SUBJECT: USE OF SURVEILLANCE CAMERAS IN THE SCHOOL DISTRICT AND ON
SCHOOL BUSES**

It is the Board of Education's responsibility to ensure the safety of the District's students, staff, facilities and property. While the Board of Education recognizes the importance of privacy, it has authorized the use of surveillance cameras on District property, including in school buildings, school facilities, as well as on school buses, when necessary. These surveillance cameras will help to assist the Board in maintaining the overall safety and welfare of the District's students, staff, property and visitors, as well as to deter theft, violence and other criminal activities.

Further, surveillance cameras will only be placed in public or common areas, such as stairwells, hallways, cafeterias, parking lots or playgrounds, and not in private areas such as locker rooms, bathrooms or other areas in which individuals have a reasonable expectation of privacy.

Disciplinary Proceedings

Audio and video recordings or footage from District surveillance cameras may be used in student or employee disciplinary proceedings, as appropriate.

Signage/Notification

The District will place signage at entrances to the school campus or at major entrances into school buildings notifying students, staff as well as any visitors of the District's use of surveillance cameras. Students and staff will also receive additional notification, as deemed appropriate by the Superintendent, regarding the use of its surveillance cameras through means such as publication in the District calendar, employee handbook, and/or the student handbook.

Maintenance of Video Recordings

Any video surveillance recording in the schools, on school buses, or on school property, on tape, CD, or digitally, will be the sole property of the District and stored in its original form and in a secure location to avoid tampering and also to ensure its confidentiality in accordance with relevant law and regulations.

In addition, to the extent that any video images create student or personnel records, the District will comply with all applicable state and federal laws related to record retention, record maintenance and record disclosure, including the Family Educational Rights and Privacy Act ("FERPA").

SUBJECT: BUS SCHEDULING AND ROUTING

Bus routes are authorized by the Board of Education per the recommendation of the Transportation Supervisor.

Transportation services shall be provided to meet the needs of the students of the District within specified limits and areas established by the Board of Education.

Eligibility Requirements

All students, including UPK students, will be eligible for transportation to and from District schools and others in accordance with law. Because of safety concerns that are relevant to our District, SCCS exceeds the state law recommendations by bussing all resident students to the District's schools.

Limitations

Regular bus routes within the District will be established so, in general, a student spends no more than 90 minutes one way on a bus from the time of loading to the time of discharge with the understanding that the time on the bus one way will be kept as close to 75 minutes or less per run. Extenuating circumstances may lead to trips beyond these limitations. Students who ride regular bus runs and transfer to other bus runs for transfer to private, parochial or other public schools may also exceed these limitations. Bus runs outside the District may also lead to trips beyond the limitations.

District Maps

District maps with locations of each student are maintained in the Transportation Department.

SUBJECT: TRANSPORTATION OF STUDENTS

Requests for Transportation to and from Non-Public Schools

The parent/guardian and/or person in parental relation of a parochial or private school child residing in the School District who desires that the child be transported to a parochial or private school outside of the School District during the next school year should submit a written request to the Board of Education no later than April 1 of the preceding year, or within thirty (30) days of moving into the District. No late request of a parent/guardian and/or person in parental relation shall be denied where a reasonable explanation is provided for the delay.

Transportation services provided to public school pupils will be offered equally to all resident private and parochial school children in like circumstances. All resident children going to private, public and parochial schools between one half mile and 15 miles will be transported. Transportation will be provided beyond the 15-mile limit if the school district has transported to that school one of the three preceding years and a centralized pickup point is established located not more than 15 miles from the non-public school. Students may be provided transportation other than as provided above with voter approval. Mileage is measured from the pupil's home to the school he or she is legally attending with a school vehicle and recorded in the Transportation Office.

If bus routes that are established for students attending non-public schools within the required 15 miles pass households of students outside of the 15 miles, pick-up and drop-off accommodations will be allowed. If the routes change, the rules for transportation outside of the 15 miles will apply and past practice will not bind the District.

Transportation of Students with Disabilities

Students with disabilities in the District shall be transported up to fifty (50) miles (one way) from their home to the appropriate special service or program, unless the Commissioner certifies that no appropriate non-residential special service or program is available within fifty (50) miles. The Commissioner may then establish transportation arrangements.

Drivers will not enter houses or schools for the purpose of picking up or discharging these pupils. It is expected that parents will be at the home and trained instructional or non-instructional staff members at the school will be available to assist the children into the school. Bus attendants will be utilized where deemed necessary by the Business Administrator.

Transportation of Non-Resident Students

The District shall not extend its bus routes outside of the District to pick up non-resident students.

SUBJECT: TRANSPORTATION OF STUDENTS *(continued)*

Transportation to School Sponsored Events

Where the District has provided transportation to students enrolled in the District to a school-sponsored field trip, extra-curricular activity or any other similar event, it shall provide transportation back to either the point of departure or to the appropriate school in the District unless the parent or legal guardian of a student participating in such event has provided the District with written notice, consistent with District policy, authorizing an alternative form of return transportation for such student or unless intervening circumstances make such transportation impractical. In cases where intervening circumstances make transportation of a student back to the point of departure or to the appropriate school in the District impractical, a representative of the School District shall remain with the student until such student's parent or legal guardian has been contacted and informed of the intervening circumstances which make such transportation impractical; and the student has been delivered to his/her parent or legal guardian.

Post-Secondary Transportation

The District will continue to encourage secondary students to pursue courses in neighboring post-secondary schools. However, transportation to these schools will not be the responsibility of the School District.

Transportation on Saturdays, Sundays, Holidays or Summer Recess

Transportation shall be provided on Saturdays, Sundays and/or holidays for resident, District public school pupils who are under the supervision of certified instructional staff members from school to sponsored activities, and returned to school. (No home to school transportation.)

Transportation to private or parochial schools and/or schools for pupils with disabilities on these days shall be provided only as required by law.

Transportation shall not be provided during the summer recess months unless specifically authorized by the Board of Education.

Transportation to and from Day Care Locations

Definition: Babysitter or day care center location - A babysitter or day care center is a location where the student(s) are cared for on a regular basis when school is in session.

Parents/guardians and/or persons in parental relation may request transportation of their children to or from the residence of a babysitter or day care center if the following conditions are met.

(continued)

SUBJECT: TRANSPORTATION OF STUDENTS *(continued)*

The babysitter or day care center is:

- a) within the Southern Cayuga Central School District;
- b) meeting the criteria of mileage restrictions as set forth in the transportation policy;
- c) verified as indicated on the application as the babysitter or day care center attended by the child.

The deadline for the request is August 15.

Extenuating Circumstances

When truly extenuating circumstances can be documented, parents/guardians and/or persons in parental relation must reapply for transportation to the new babysitter or day care center following the procedure outlined above. The same eligibility requirements will be in force. Upon approval, the transportation department will begin services as soon as possible.

No one other than the above-mentioned driver may drive a school-owned vehicle having a pupil capacity of greater than 15 passengers.

School vehicles having capacities of less than 16 passengers may be driven by regular bus drivers or employees appointed as occasional bus drivers, as well as certified members of the instructional staff or volunteer drivers, appointed by the Board of Education; however, the latter may not drive on regularly scheduled routes.

SUBJECT: SCHOOL BUS SAFETY PROGRAM

The safe transportation of students to and from school is of primary concern in the administration of the school bus program. All state laws and regulations pertaining to the safe use of school buses shall be observed by drivers, students and school personnel.

To assure the safety and security of students boarding or exiting school buses on school property, it shall be unlawful for a driver of a vehicle to pass a stopped school bus when the red bus signal is in operation.

The Transportation Supervisor, in cooperation with the principals, has the responsibility of developing and publishing safety rules to be followed by drivers and passengers, including rules of student conduct. In order to ensure maximum safety to those riding school buses, it is necessary that students and drivers cooperate in this effort. There is no substitute for training to develop safe habits in pedestrian and vehicular traffic.

All buses and other vehicles owned and operated by the School District will have frequent safety inspections and will be serviced regularly. The Transportation Supervisor will maintain a comprehensive record of all maintenance performed on each vehicle.

Every bus driver is required to report promptly any school bus accident involving death, injury, or property damage. All accidents, regardless of damage involved, must be reported at once to the Transportation Supervisor.

Seat Belts

Legislation passed by the New York State Legislature in August, 1986, provides that all school buses manufactured after July 1, 1987, be equipped with seat belts for student use. All school district buses manufactured after July 1, 1987, are presently equipped with seat belts. Beginning in September 2012, all students will be required to wear seat belts for all transportation to and from school and school-related activities.

Car Seats

All UPK students age four or younger and/or lighter than 40 lbs. must be restrained in a federally approved car seat for all transportation to and from school and school-related activities.

Bus Stops

Authorized bus stops will be located at convenient intervals in places where pupils may be loaded and unloaded, may cross highways and may await the arrival of buses with the utmost safety allowed by road conditions. Generally, no students will be required to cross the following more heavily traveled highways where line of sight may cause a problem: Route 38, Route 34B, Route 34, Route 90.

When possible, all loading and unloading along the aforementioned highways will be accomplished at the student's residence side of the street where line of sight is limited.

(continued)

SUBJECT: SCHOOL BUS SAFETY PROGRAM *(continued)*

Dangerous Intersections

Because of the poor visibility, speed limit and steep grades of Route 90 just west of Genoa, buses will not cross Route 90 going in either direction on Indian Field Road. In addition, no bus may make a left-hand turn at the intersection.

Buses headed south on Route 13 in Ithaca will not turn right onto Buffalo Street.

Bus Stop Policy

The Board of Education retains its prerogative to determine which roads in the school district shall be used for transportation routes. The bus driver retains the prerogative of using discretion in continuing a route when safety factors are a consideration. Notwithstanding the above, bus stops will be located in accordance with the following criteria.

- a) Designated Bus Stops – In the case of adjacent properties along a highway or road (not within a village or town) normally traveled by a bus in the course of its route, stops shall be combined where the distance between stops does not exceed 600 feet for students in grades 5-12 and 300 feet for students in K-4. All students outside the village properties will have portal-to-portal pick-up and delivery January 1 through March 15.
- b) Village Properties – Within the central areas of any village, town or densely populated area, designated bus stops may be determined where the walking distance does not exceed one half of a mile. When intersecting roads are on the bus route, the corner of such intersecting roads will be the bus stop.
- c) Spurs – The Superintendent of Schools will have discretion on bus stops on spurs. A spur is defined as a portion of a bus route in a situation where the bus proceeds a short distance on a second road, turns around and returns to the original road.
- d) Riding Different Bus – A bus shall not be expected to deviate from its scheduled route when children who do not ordinarily ride that route do so and the location of their stop is not on the route of that particular bus. In this instance, children, with the consent of the parent/guardian and/or person in parental relation, will be discharged at the closest location of their stop while on the scheduled route.
- e) Students with Disabilities – Students with temporary disabilities may, with the approval of the Superintendent of Schools, receive portal-to-portal service. Students with disabilities, as determined by the Committee on Special Education, will receive portal-to-portal service.

Exceptions can be made to the above by the Superintendent of Schools in the interest of safety.

(continued)

SUBJECT: SCHOOL BUS SAFETY PROGRAM *(continued)*

Side Roads

Transportation will not be provided:

- a) on side roads that are not maintained by the highway department;
- b) beyond:
 - 1. Baylor's (#3990) driveway going east on Mather's Road, in winter conditions;
 - 2. Evan's (#806) driveway going west on Little Gully Road;
 - 3. DeVaul's (#3527) driveway going east on Ensenore Road;
- c) when deemed unsafe by the Superintendent of Schools.

Private Roads

Transportation will not be provided on highways that have not been dedicated and/or maintained by town, county and/or state highway departments

Turnarounds

Turnarounds will not be established unless adequate space is available and this space is properly maintained by town, county and/or state highway departments.

Exceptions can be made to the above by the Superintendent of Schools in the interest of safety.

**SUBJECT: DRUG AND ALCOHOL TESTING FOR SCHOOL BUS DRIVERS AND
OTHER SAFETY-SENSITIVE EMPLOYEES**

In accordance with federal regulations, employees in safety-sensitive positions as defined in regulations, including school bus drivers who are required to have and use a commercial drivers license (CDL), are now subject to random testing for alcohol, marijuana, cocaine, amphetamines, opiates (including heroin), and phencyclidine (PCP). The District shall adhere to federal law and regulations requiring the implementation of a drug and alcohol testing program for such employees in safety-sensitive positions.

The District shall either establish and manage its own program, by contract, or through a consortium for the provision of alcohol and drug testing of employees in safety-sensitive positions. Safety-sensitive employees (SSE), including school bus drivers and occasional drivers who drive a vehicle which is designed to transport passengers (including the driver), shall be subject to this requirement.

Federal regulations require that the District test school bus drivers and other SSEs for alcohol and drugs at the following times:

- a) Drug testing will be conducted after an offer to hire, but before actually performing safety-sensitive functions for the first time. Such pre-employment testing will also be required when employees transfer to a safety-sensitive position.
- b) Safety-sensitive employees are also subject to a random drug and/or alcohol test on an unannounced basis just before, during or just after performance of safety-sensitive functions.
- c) In addition, testing will be ordered if a trained supervisor has a "reasonable suspicion" that an employee has engaged in prohibited use of drugs and/or alcohol.
- d) There will also be post-accident testing conducted after accidents on employees whose performance could have contributed to the accidents.
- e) Finally, return-to-duty and follow-up testing will be conducted when an individual who has violated the prohibited alcohol and/or drug conduct standards returns to performing safety-sensitive duties. Follow-up tests are unannounced and at least six (6) tests must be conducted in the first twelve (12) months after an employee returns to duty. Follow-up testing may be extended for up to sixty (60) months following return-to-duty.

All employee drug and alcohol testing will be kept confidential and shall only be revealed without the driver's consent to the employer, a substance abuse professional, drug testing laboratory, medical review officer and any other individual designated by law.

(continued)

**SUBJECT: DRUG AND ALCOHOL TESTING FOR SCHOOL BUS DRIVERS AND
OTHER SAFETY-SENSITIVE EMPLOYEES *(continued)***

The following alcohol and controlled substance-related activities are prohibited by the Federal Highway Administration's drug use and alcohol misuse rules for drivers of commercial motor vehicles and other SSEs:

- a) Reporting for duty or remaining on duty to perform safety-sensitive functions while having an alcohol concentration of 0.04 or greater.
- b) Being on duty or operating a commercial motor vehicle (CMV) while the driver possesses alcohol, unless the alcohol is manifested and transported as part of a shipment. This includes the possession of medicines containing alcohol (prescription or over-the-counter), unless the packaging seal is unbroken.
- c) Using alcohol while performing safety-sensitive functions.
- d) Using alcohol four (4) hours or less before duty.

SUBJECT: SAFE AND HEALTHY WORK ENVIRONMENT

The Southern Cayuga Central School District strives to provide a safe and healthy work environment by identifying risks and minimizing hazards to its employees, the community and the environment. This will be accomplished through compliance with regulations, commitment of resources, ongoing training and employee involvement. Management provides the necessary leadership and commitment to ensure that the resources are available to develop, operate and maintain the health, safety and environmental program to achieve our objectives. Southern Cayuga Central School District employees are responsible for identifying health, safety and environmental concerns and in participating in solutions to these concerns.

SCCS BOE adopted September 27, 2011, New Policy

SUBJECT: IDENTIFICATION BADGES

The Southern Cayuga Central School District is committed to providing a safe and secure environment for our students and employees. The district will issue Identification (ID) Badges to all full-time and part-time employees. The identification badge serves the dual purpose of allowing access to secured areas as well as readily identifying school district employees and other authorized personnel. In addition, the identification badges will provide measured protection against unauthorized personnel and intruders from entering district buildings.

Employees and Temporary Staff

Identification Badges will be issued by the district office administrator to all existing and new employees. The badges will include the employee's name and photo, together with building and/or district information. Badges shall be worn during the school day and when advising or chaperoning school-sponsored activities.

Long-term substitute teachers and student teachers who are assigned to district buildings for an extended period of time may be issued a regular ID badge by the district office. Short-term substitute teachers, other temporary employees and contract staff will be required to sign in each time they enter a district building. A non-picture ID badge (visitor or other temporary badge) will be issued to staff members in this category and it will be their responsibility to return the badge upon leaving the building each day.

The ID badge is the property of the School District and may only be used by the individual to whom it was issued. Employees may not loan their ID badge to anyone for any reason. Upon separation from employment, employees are required to return the ID badge.

Visitors

Visitors, including approved volunteers and vendors, will wear a "Visitor" identification badge after signing in and gaining permission to be on the premises during school hours. The badge must be worn in a highly visible manner while in district buildings and shall be surrendered when exiting the building.

Administrative regulations shall be developed to implement the terms of this policy.

NEW POLICY SCCS BOE adopted February 24, 2014

SUBJECT: CODE OF ETHICS FOR ALL DISTRICT PERSONNEL

General Provisions

Officers and employees of the Southern Cayuga Central School District hold their positions to serve and benefit the public, and not to obtain unwarranted personal or private gain in the exercise of their official powers and duties. The Board of Education recognizes that, in furtherance of this fundamental principle, there is a need for clear and reasonable standards of ethical conduct. This policy establishes those standards.

The provisions of this policy are intended to supplement Article 18 of General Municipal Law Sections and any other law relating to ethical conduct of District officers and employees, and should not be construed to conflict with those authorities.

Standards of Conduct

The following rules and standards of conduct apply to all officers, including Board members, and employees of the Southern Cayuga Central School District.

Gifts

No person may directly or indirectly solicit, accept or receive any gift having a value of *\$75 or more under circumstances in which it could reasonably be inferred that the gift was intended or expected to influence the individual in the performance of his/her official duties or was intended as a reward for any official action on the part of the individual. This prohibition applies to any gift, including money, services, loan, travel, entertainment, hospitality, thing or promise or any other form.

Confidential Information

No person may disclose confidential information acquired by him/her in the course of his/her official duties or use this information to further his or her personal interests.

Conflicts of Interest

Except as permitted by law, no person may have an interest in any contract with the District when he/she, individually, or as a member of the Board, has the power or duty to negotiate, prepare, authorize or approve the contract or authorize or approve payment under the contract; audit bills or claims under the contract; or appoint an officer or employee who has any of these powers or duties.

Likewise, unless permitted by law, no chief fiscal officer, treasurer or his/her deputy or employee, may have an interest in a bank or trust company designated as a depository, paying agent, registration agent or for investment of funds of the District.

SUBJECT: CODE OF ETHICS FOR BOARD MEMBERS AND ALL DISTRICT PERSONNEL *(continued)*

"Interest," as used in this policy, means a direct or indirect pecuniary or material benefit accruing to a District officer or employee as the result of a contract with the District. A District officer or employee will be considered to have an interest in the contract of his/her spouse, minor children and dependents, except a contract of employment with the District; a firm, partnership or association of which he/she is a member or employee; a corporation of which he/she is an officer, director or employee; and a corporation any stock of which is owned or controlled directly or indirectly by him/her.

The provisions of the preceding three paragraphs should not be construed to preclude the payment of lawful compensation and necessary expenses of any District officer or employee in one or more positions of public employment, the holding of which is not prohibited by law.

Representing Others in Matters Before the District

No person may receive, or enter into any agreement, express or implied, for compensation for services rendered in relation to any matter before the District. Likewise, no one may receive, or enter into any agreement, express or implied, for compensation for services rendered in relation to any matter before the District, where the individual's compensation is contingent upon any action by the District with respect to the matter.

Disclosure of Interest in Contracts and Resolutions

Any District officer or employee who has, will have, or later acquires an interest in or whose spouse has, will have or later acquires an interest in any actual or proposed contract, purchase agreement, lease agreement or other agreement, including oral agreements, with the District must publicly disclose the nature and extent of that interest in writing. The disclosure must be made when the officer or employee first acquires knowledge of the actual or prospective interest, and must be filed with the person's immediate supervisor and the Board of Education. Any written disclosure will be made part of and included in the official minutes of the relevant Board meeting.

Investments in Conflict with Official Duties

No person may invest or hold any investment directly or indirectly in any financial, business, commercial or other private transaction, that creates a conflict with his/her official duties, or that would otherwise impair his/her independence of judgment in the exercise or performance of his/her official powers or duties.

**SUBJECT: CODE OF ETHICS FOR BOARD MEMBERS AND ALL DISTRICT
PERSONNEL** *(continued)*

Private Employment

No person may engage in, solicit, negotiate for, or promise to accept private employment or render services for private interests when that employment or service creates a conflict with or impairs the proper discharge of his/her official duties.

Future Employment

No person may, after the termination of service or employment with the District, appear before the District in relation to any case, proceeding or application in which he/she personally participated during the period of his/her service or employment or which was under his or her active consideration.

Notice of Code of Ethics and General Municipal Law Sections 800-809

The Superintendent will ensure that a copy of this code of ethics is distributed to every District officer and employee, and that a copy of General Municipal Law Sections 800-809 is posted conspicuously in each District building. The failure to distribute this code of ethics or to post General Municipal Law Sections 800-809 will have no effect on either the duty of District officers and employees to comply with their provisions or the ability of the District or other relevant authorities to enforce them.

SUBJECT: SEXUAL HARASSMENT OF DISTRICT PERSONNEL

The Board of Education affirms its commitment to provide an environment free from sex-based discrimination and sexual harassment, including sexual violence and intimidation. The Board, therefore, prohibits all forms of sexual harassment against District personnel by employees, school volunteers, students, and non-employees, such as contractors and vendors, which occur on school grounds or at school-sponsored events, programs, or activities, including those that take place at locations off school premises.

Sexual Harassment

Unwelcome sexual advances, requests for sexual favors and other verbal or physical conduct of a sexual nature constitutes harassment on the basis of sex when:

- a) Submission of such conduct is made, either explicitly or implicitly, a term or condition of an individual's employment;
- b) Submission to or rejection of such conduct by an individual is used as a basis for employment decisions affecting such individuals; or
- c) Such conduct has the purpose or effect of unreasonably interfering with an individual's work performance or creating an intimidating, hostile or offensive work environment.

Sexual harassment includes, but is not limited to, sexual violence. For the purpose of this policy, sexual violence refers to physical sexual acts perpetrated against a person's will or where a person is incapable of giving consent. Sexual violence includes rape, sexual assault, sexual battery, and sexual coercion.

Sexual harassment can originate from a person of either sex against a person of the opposite or same sex, and from students, supervisors, co-workers or third parties such as visitors and school volunteers.

Prohibited Conduct

Sexual harassment can be verbal, non-verbal, or physical. Examples of such conduct may include, but are not limited to, the following:

- a) Verbal abuse or ridicule, including innuendoes, stories and jokes that are sexual in nature and/or gender-related. This might include inappropriate sex-oriented comments on appearance, including dress or physical features.
- b) Direct or indirect threats or bribes for unwanted sexual activity.
- c) Asking or commenting about a person's sexual activities.

SUBJECT: SEXUAL HARASSMENT OF DISTRICT PERSONNEL *(continued)*

- d) Unwelcome and unwanted physical contact of a sexual nature including, but not limited to, physical acts such as assault, impeding or blocking movement, offensive touching, or any physical interference with normal work or movement.
- e) Displaying or distributing pornographic or other sexually explicit materials such as magazines, pictures, internet material, cartoons, etc.
- f) The use of profanity and/or other obscenities that are sexually suggestive or degrading in nature.
- g) Unwelcome staring, leering, or gesturing which is sexually suggestive in nature.
- h) Unwelcome and/or offensive public displays of sexual/physical affection.
- i) Clothing that reflects sexually obscene and/or sexually explicit messages, slogans, or pictures.
- j) Engaging in sexual conduct with an individual who is unable to consent due to his/her age, use of drugs or alcohol, intellectual disability, or other disability.
- k) Any other unwelcome and unwanted sexually oriented and/or gender-based behavior which is sexually demeaning, belittling, intimidating, or perpetrates sexual stereotypes and attitudes.

Investigation of Complaints and Grievances

In order for the Board to enforce this policy, and to take corrective measures as may be necessary, it is essential that any employee who believes he/she has been a victim of sexual harassment in the work environment, as well as any other person who is aware of and/or who has knowledge of or witnesses any possible occurrence of sexual harassment, immediately report such alleged harassment to the District's designated Civil Rights Compliance Officer. In the event that the Civil Rights Compliance Officer is the alleged offender, the report will be directed to another Civil Rights Compliance Officer, if the District has designated an additional individual to serve in such capacity, or to the Superintendent.

The School District will act to promptly, thoroughly, and equitably investigate all complaints, whether verbal or written, of sexual harassment, and will promptly take appropriate action to protect individuals from further harassment. All such complaints will be handled in a manner consistent with the District's policies, procedures, and/or regulations regarding the investigation of discrimination and harassment complaints, including Policy #3420 -- Non-Discrimination and Anti-Harassment in the School District; and Administrative Regulation #3420R -- Non-Discrimination and Anti-Harassment in the School District.

Complaints of retaliation may be directed to the Civil Rights Compliance Officer. In the event the Civil Rights Compliance Officer is the alleged offender, the report will be directed to another Civil Rights Compliance Officer, if the District has designated another individual to serve in such a capacity, or to the Superintendent.

SCCS BOE reviewed; no revision; February 14, 2011
Adopted: 6/7/04 Southern Cayuga CSD Policy Book

SUBJECT: EVALUATION OF PERSONNEL

The Southern Cayuga Central School District is committed to supporting the development of effective teachers and administrators. To this end, the District shall provide procedures for the evaluation of all professional staff. District plans for Annual Professional Performance Review (APPR) of teachers and Principals shall be developed in accordance with applicable laws, Commissioner's Regulations, and Rules of the Board of Regents.

The primary purposes of these evaluations are:

- a) To encourage and promote improved performance;
- b) To guide professional development efforts; and
- c) To provide a basis for evaluative judgments by applicable school officials.

APPR Ratings

For those teachers and Principals subject to Education Law 3012-c, the Annual Professional Performance Review (APPR) will result in a single composite effectiveness score and final quality rating of "highly effective," "effective," "developing," or "ineffective." The composite score will be determined as follows:

- a) 20% - student growth on state assessments or other comparable measures of student growth (increases to 25% upon implementation of a value-added growth model);
- b) 20% - locally selected measures of student growth or achievement that are determined to be rigorous and comparable across classrooms as defined by the Commissioner (decreases to 15% upon implementation of a value-added growth model); and
- c) 60% - other measures of teacher/Principal effectiveness consistent with standards prescribed by the Commissioner in regulation.

The ratings scale based on composite scores has been established as follows:

- a) Highly Effective = composite effectiveness score of 91-100
- b) Effective = composite effectiveness score of 75-90
- c) Developing = composite effectiveness score of 65-74
- d) Ineffective = composite effectiveness score of 0-64

(continued)

SUBJECT: EVALUATION OF PERSONNEL (continued)

If a teacher or Principal is rated "developing" or "ineffective," the School District will develop and implement a teacher or Principal improvement plan (TIP or PIP). Tenured teachers and Principals with a pattern of ineffective teaching or performance, defined as two consecutive annual "ineffective" ratings, may be charged with incompetence and considered for termination through an expedited hearing process.

The School District will ensure that all evaluators are appropriately trained consistent with standards prescribed by the Commissioner and that an appeals procedure is locally developed.

Disclosure of APPR Data

Consistent with Chapter 68 of the Laws of 2012, which amends Education Law 3012-c, the Commissioner is required to disclose professional performance review data for teachers and Principals on the New York State Education Department (NYSED) website and in any other manner to make such data widely available to the public. However, the release of such aggregate data may not include personally identifiable information for any teacher or Principal. Such public disclosure of final quality ratings and composite effectiveness scores will be suitable for research, analysis and comparison of APPR data for teachers and Principals across the state.

Upon request, the District will release to parents/legal guardians the final quality ratings and composite effectiveness scores for teachers and Principals to which their student is currently assigned. The District's obligation to disclose this information is limited to those teachers and Building Principals subject to Education Law 3012-c. The District will provide conspicuous notice to parents/guardians and/or persons in parental relation of their right to obtain such information and the methods by which the data can be obtained. Upon request, parents will receive an oral or written explanation of the composite effectiveness scoring ranges for final quality ratings and be offered the opportunity to understand such scores in the context of teacher evaluation and student performance. When a request for this information is received, reasonable efforts will be made to verify that it is a bona fide request by a parent/guardian and/or person in parental relation entitled to review the data.

Annual professional performance reviews of individual teachers and Principals shall not be subject to disclosure under the Freedom of Information Law (FOIL).

SUBJECT: HEALTH EXAMINATIONS

All employees are subject to a physical at the discretion of the Superintendent and/or Board of Education.

Any employee absent three (3) or more consecutive working days on account of illness or accident may be required either to submit a written statement from his/her personal physician stating the diagnosis, prognosis and date of return to duty, or to have a physical examination by the school physician before returning to work. Statements by personal physicians are reviewable by the school physician, with the final determination made by the chief school officer.

Bus drivers' physicals will be done annually, before starting work, but not prior to sixty (60) days before the start of school, or per mandated rules for CDL bus drivers with an "s" endorsement. Staff supervisors will arrange for a DOT 649F physical through the school physician.

(SCHOOL PERSONNEL)**

The Southern Cayuga Board of Education recognizes its responsibility to promote the health, welfare and safety of students, staff and others on school grounds and at school-sponsored activities. Research shows that smoking and use of all other tobacco products is hazardous to health and impacts students' attendance and learning. Therefore, the Board of Education supports the elimination of use, distribution or sale of all forms of tobacco products by students, staff and visitors on school grounds and properties at all times.

The Board of Education will not permit the consumption, sharing and/or selling, use and/or possession of illegal drugs, counterfeit and designer drugs, tobacco and all tobacco products or alcoholic beverages, electronic cigarette, vapor cigarette or any smoking device, electronic or otherwise in the workplace or when the effects of such drugs may impair an employee's job performance. The inappropriate use of prescription and over-the-counter drugs shall also be disallowed. It is unlawful for SCCS employees to use tobacco or tobacco products on school grounds or at any school sponsored activity.

The District will advise employees that it is unlawful to manufacture, distribute, dispense, possess or use a controlled substance in the workplace. Advisement will further state that disciplinary action from a minimum of a warning and, up to and including, termination of employment* will be taken against employees who are determined in violation of this prohibition.

On an ongoing basis, the District will make available to employees information regarding:

- a) The dangers of drug abuse in the workplace;
- b) Our policy of maintaining a drug-free workplace;
- c) Information regarding drug counseling, rehabilitation, and employee assistance programs (should one become available).

A copy of this policy or an administrative memo regarding the requirements of this policy shall be included in all staff handbooks and/or distributed to employees.

SUBJECT: PROFESSIONAL GROWTH/STAFF DEVELOPMENT

It is the policy of the District that attention be given to in-service, pre-service, and other staff development programs which are believed to be of benefit to the School District and its students. The Superintendent, in consultation with the appropriate administrative staff and/or teacher committees, is directed to arrange in-service programs and other staff development opportunities which will provide for the selection of subjects pertinent to the curriculum in the schools, to build from these subjects those topics or courses for in-service or staff development which will help employees acquire new methods of performing their job responsibilities or help staff improve on those techniques which are already being used in the schools, with the objective of improving professional competencies.

It is recommended that administration develop meaningful in-service and/or staff development programs which will achieve the following:

- a) Contribute to the instructional program of the schools;
- b) Contribute to improved education for students;
- c) Achieve state mandates;
- d) Enhance the professional competencies and/or instructional abilities of staff members.

The Board of Education, therefore, encourages all employees to improve their competencies beyond that which they may obtain through the regular performance of their assigned duties. Opportunities should be provided for:

- a) Planned in-service programs, courses, seminars, and workshops offered both within the School System and outside the District.
- b) Visits to other classrooms and schools, as well as attendance at professional meetings, for the purpose of improving instruction and/or educational services.
- c) Orientation/re-orientation of staff members to program and/or organizational changes as well as District expectations.

Attendance at such professional development programs must be directly linked to the duties and responsibilities comprising the job description of the employee. Consequently, employees are encouraged to participate in the planning of staff development programs designed to meet their specific needs.

Members of the staff are also encouraged to continue their formal education as well as to attend their respective work-related workshops, conferences and meetings.

SUBJECT: PROFESSIONAL GROWTH/STAFF DEVELOPMENT *(continued)*

Funds for participating at such conferences, conventions, and other similar professional development programs will be budgeted for by the Board of Education on an annual basis. Reimbursement to District staff for all actual and necessary registration fees, expenses of travel, meals and lodging, and all necessary tuition fees incurred in connection with attendance at conferences and the like will be in accordance with established regulations for conference attendance and expense reimbursement.

The Superintendent of Schools or his/her designee has authority to approve release time and expenses for staff members' attendance at professional training conferences, study councils, in-service courses, workshops, summer study grants, school visitations, professional organizations and the like within budgetary constraints.

A conference request form/course approval form must be submitted by the employee and approved by the designated administrator prior to the employee's attendance at such conference or other professional development program.

SUBJECT: FINGERPRINTING OF PROSPECTIVE SCHOOL EMPLOYEES

Unless otherwise authorized in accordance with law and regulation, the District shall not employ or utilize a prospective school employee, as defined below, unless such prospective school employee has been granted a "full" clearance for employment by the State Education Department (SED). The School District shall require a prospective school employee who is not in the SED criminal history file to be fingerprinted for purposes of a criminal history record check by authorized personnel of the designated fingerprinting entity. For purposes of this provision of law, the term "criminal history record" shall mean a record of all convictions of crimes and any pending criminal charges maintained on an individual by the Division of Criminal Justice Services (DCJS) and the Federal Bureau of Investigation (FBI).

Prior to initiating the fingerprinting process, the District shall furnish the applicant with written instructions addressing the fingerprinting requirements and the applicant's right to obtain, review and seek correction of his/her criminal history information.

Where the prospective school employee is already in the SED criminal history file, the District shall request the clearance for employment in a manner prescribed by SED. Furthermore, the District shall notify SED, in a manner prescribed by the Department, of a prospective school employee who has commenced employment with or began providing services for the District, the date of the commencement of such employment or service, and the position held by such individual. Similarly, the District shall notify SED, in a manner prescribed by the Department, of a fingerprinted employee who has been separated from employment with the District or ceased providing services for the School District, and the date of such separation from employment or cessation of services. All criminal history records processed by DCJS and the FBI and sent to the Commissioner of Education are confidential. The records may not be published or in any way disclosed to persons other than the Commissioner unless otherwise authorized by law.

Unless otherwise exempted pursuant to law, the applicant shall be responsible for the payment of fees to SED for a criminal history record check. However, if approved by Board resolution, the District may authorize the payment of such fees on behalf of prospective employees. The Board is also authorized to waive the payment of such fees in cases of unreasonable financial hardship to the applicant or his/her family. If the Board decides to waive payment of the fees for the prospective employee, payment of the fees becomes the District's responsibility.

Who Must Be Fingerprinted

All "prospective school employees" of the School District must be fingerprinted. For purposes of this policy and the applicable provisions in law and Commissioner's Regulations, "prospective school employee" shall mean any individual who will reasonably be expected by the School District to provide services which involve direct contact, meaning in person, face-to-face communication or interaction, with students under the age of twenty-one (21) and who is either:

- a) Seeking a compensated position with the District and is not currently employed by the District or a student not currently enrolled in the instructional program of a grade level in the School District; or
- b) An employee of a provider of contracted services to the School District who is to be placed within the District; or
- c) A worker who is to be placed within the District under a public assistance employment program pursuant to Title 9-B of Article 5 of the Social Services Law, directly or through

contract.

(continued)

SUBJECT: FINGERPRINTING OF PROSPECTIVE SCHOOL EMPLOYEES *(continued)*

Individuals Who Are Specifically Excluded

Individuals excluded from a criminal history record check/fingerprinting pursuant to this provision of law and regulation are those individuals who:

- a) Are seeking a position as a school bus driver or school bus attendant and are cleared for employment pursuant to the Vehicle and Traffic Law; or
- b) Have provided services to the District in the previous school year either in a compensated position, or as an employee of a provider of contracted services to the District, or as a worker placed within the School District under a public assistance employment program pursuant to Title 9-B of Article 5 of the Social Services Law directly or through contract; or
- c) Will reasonably be expected by the School District to provide services for the District on no more than five (5) days in the school year in which services are to be performed, provided that the District provides in-person supervision of such individual by one (1) or more employees of the District while that individual is providing such services. Individuals providing such time-limited and supervised services may include but shall not be limited to artists, guest lecturers and speakers, and sports officials.

Any prospective employee who previously has been fingerprinted to obtain certification, and whose fingerprints remain on file with the Division of Criminal Justice Services (DCJS), will not be required to be fingerprinted again for purposes of a criminal history record check.

Removal from the SED Criminal History File

Where individuals have been separated from employment at the School District and have not become employed in this District or another school district, BOCES or charter school within twelve (12) months of such separation, SED shall notify DCJS of such separation for the purpose of destroying the fingerprints of that individual. Further, upon request of such individual, SED shall notify DCJS prior to the expiration of such twelve-month period for the purpose of destroying his/her fingerprints. Such individuals shall be removed from the SED criminal history file.

Emergency Conditional Appointments

Upon the recommendation of the Superintendent of Schools, the Board may make an emergency conditional appointment when an unforeseen emergency vacancy has occurred.

Emergency conditional appointment may commence prior to notification from the Commissioner of Education on conditional clearance but shall terminate twenty (20) business days from the date such appointment commences or when the District is notified by the Commissioner that conditional clearance is either granted or denied, whichever occurs earlier; however, if conditional clearance is granted, the appointment shall continue as a conditional appointment.

Prior to the commencement of such appointment, the District must obtain a signed statement for emergency conditional appointment from the prospective employee indicating whether, to the best of his/her knowledge, the prospective employee has a pending criminal charge or criminal conviction in any jurisdiction.

(continued)

SUBJECT: FINGERPRINTING OF PROSPECTIVE SCHOOL EMPLOYEES *(continued)*

An unforeseen emergency vacancy shall be defined as:

- a) A vacancy that occurred less than ten (10) business days before the start of any school session including summer school, or during any school session including summer school, without sufficient notice to allow for clearance or conditional clearance (however, this ten (10) business day timeframe provision shall not apply if the Board of Education finds that the School District has been unable to fill the vacancy despite good faith efforts to fill the vacancy in a manner that would have allowed sufficient time for full clearance or conditional clearance); and
- b) When no other qualified person is available to fill the vacancy temporarily; and
- c) When the emergency conditional appointment is necessary to maintain services which the District is legally required to provide or services necessary to protect the health, education or safety of students or staff.

Safety of Students

The District will develop internal building and/or program procedures to help ensure the safety of students who have contact with an employee holding emergency conditional appointment. Such procedures will address the safety of students in the classroom, students attending off-campus activities under the supervision of the School District, and students participating in extracurricular and/or co-curricular activities (including sports and athletic activities).

Safety procedures to be addressed include, but are not limited to, the following: supervision of the employee holding emergency conditional appointment as determined appropriate by the applicable building/program administrator; and periodic visitations by the building/program administrator to the classroom, program and/or activity assigned to the employee holding emergency conditional appointment.

SUBJECT: PROBATION AND TENURE**Probation**

Certified staff members will be appointed to a probationary period by a majority vote of the Board upon recommendation of the Superintendent.

Teachers, all other members of the teaching staff, administrators, directors, supervisors, principals, and all other members of the supervisory staff, except associate, assistant, and other superintendents, will be appointed to a probationary period of four years. The probationary period will not exceed three years for teachers previously appointed to tenure in this or another school district or BOCES within the state, provided that the teacher was not dismissed from the prior district or BOCES and met the required annual professional performance review (APPR) rating in his/her final year of service there. Additionally, up to two years of service as a regular substitute teacher may be applied toward probationary service. (This is sometimes referred to as Jarema Credit.)

During the probationary period, a staff member will be given assistance in adjusting to the new position, but the essential qualifications for acceptable performance will be assumed because the staff member attained the required certification or license.

A staff member's appointment may be discontinued at any time during his/her probationary period upon the recommendation of the Superintendent and by majority vote of the Board. Any person not recommended for tenure appointment will be notified in writing by the Superintendent no later than 60 days before his/her probationary period expires.

Tenure

The Board will follow all applicable laws and regulations regarding tenure.

At the expiration of the probationary period or within six months prior, the Superintendent will make a written report to the Board recommending for appointment to tenure 1) those non-teaching certified staff members who successfully completed their probationary period in the District, and 2) teachers and principals who have been found competent, efficient, and satisfactory, and who have received the APPR rating of effective or highly effective in at least three of the preceding four years. If a teacher or principal receive an APPR rating of ineffective in their final probationary year, the Board may not award tenure, but may extend that teacher's or principal's probationary time by an additional year. The teacher or principal may be eligible for immediate tenure if he/she successfully appeals the ineffective rating. The Board may then—by a majority vote—appoint to tenure any or all of the persons recommended by the Superintendent.

When the initial probationary period expires, a teacher or principal will remain on probationary status until the end of the school year in which he/she received APPR ratings of effective or highly effective. The Board may also grant tenure contingent upon a teacher's or principal's receipt of a minimum APPR rating in the final year of the probationary period.

(continued)

SUBJECT: PROBATION AND TENURE *(continued)***Resolutions Making Appointments**

Each Board resolution making a probationary appointment or an appointment on tenure will specify:

- a) The name of the appointee;
- b) The tenure area or areas in which the professional will devote a substantial portion of his/her time;
- c) The date probationary service or service on tenure commences in each area;
- d) The expiration date of the appointment, if made on a probationary basis. For appointments of classroom teachers and principals, the resolution must state that:
 - 1. To receive tenure, the individual must receive composite or overall APPR ratings of effective or highly effective in at least three of four preceding years; and
 - 2. If the teacher or principal receive an ineffective composite or overall APPR rating in their final year of probation, they will not be eligible for tenure at that time; and
- e) The certification status of the appointee in reference to the position to which the individual is appointed.

SUBJECT: STAFF USE OF COMPUTERIZED INFORMATION RESOURCES

The Board of Education will provide staff with access to various computerized information resources through the District's computer system (DCS hereafter) consisting of software, hardware, computer networks, wireless networks/access and electronic communication systems. This may include access to electronic mail, so-called "on-line services" and the "Internet." It may also include the opportunity for staff to have independent access to the DCS from their home or other remote locations, and/or to access the DCS from their personal devices. All use of the DCS and the wireless network, including independent use off school premises and use on personal devices, shall be subject to this policy and accompanying regulations.

The Board encourages staff to make use of the DCS to explore educational topics, conduct research and contact others in the educational world. The Board anticipates that staff access to various computerized information resources will both expedite and enhance the performance of tasks associated with their positions and assignments. Toward that end, the Board directs the Superintendent or his/her designee(s) to provide staff with training in the proper and effective use of the DCS.

Staff use of the DCS is conditioned upon written agreement by the staff member that use of the DCS will conform to the requirements of this policy and any regulations adopted to insure acceptable use of the DCS. All such agreements shall be kept on file in the District office.

Generally, the same standards of acceptable staff conduct which apply to any aspect of job performance shall apply to use of the DCS. Employees are expected to communicate in a professional manner consistent with applicable District policies and regulations governing the behavior of school staff. Electronic mail and tele-communications are not to be utilized to share confidential information about students or other employees.

Access to confidential data is a privilege afforded to District employees in the performance of their duties. Safeguarding this data is a District responsibility that the Board of Education takes very seriously. Consequently, District employment does not automatically guarantee the initial or ongoing ability to use mobile/personal devices to access the DCS and the information it may contain.

This policy does not attempt to articulate all required and/or acceptable uses of the DCS; nor is it the intention of this policy to define all inappropriate usage. Administrative regulations will further define general guidelines of appropriate staff conduct and use as well as proscribed behavior.

District staff shall also adhere to the laws, policies and rules governing computers including, but not limited to, copyright laws, rights of software publishers, license agreements, and rights of privacy protected by federal and state law.

Staff members who engage in unacceptable use may lose access to the DCS and may be subject to further discipline under the law and in accordance with applicable collective bargaining agreements. Legal action may be initiated against a staff member who willfully, maliciously or unlawfully damages or destroys property of the District.

SUBJECT: STAFF USE OF COMPUTERIZED INFORMATION RESOURCES *(continued)*

Social Media Use by Employees

The School District recognizes the value of teacher and professional staff inquiry, investigation and communication using new technology tools to enhance student learning experiences. The School District also realizes its obligations to teach and ensure responsible and safe use of these new technologies. Social media, including social networking sites, have great potential to connect people around the globe and enhance communication. Therefore, the Board of Education encourages the use of District approved social media tools and the exploration of new and emerging technologies to supplement the range of communication and educational services.

For purposes of this Policy, the definition of public, social media networks or Social Networking Sites (SNS) are defined to include: websites, web logs (blogs), wikis, social networks, online forums, virtual worlds, video sites and any other social media generally available to the school district community which do not fall within the District's electronic technology network (e.g. Facebook, MYSpace, Twitter, LinkedIn, Flickr, Vine, Instagram, SnapChat, blog sites, etc). The definition of District approved password-protected social media tools are those that fall within the District's electronic technology network or which the District has approved for educational use. Within these internal forums, the District can limit public access. For those sites which do not fall into the District's electronic network, all Child Internet Protection Act regulations apply.

The use of social media (whether public or internal) can generally be defined as Official District Use, Professional/Instructional Use and Personal Use. The definitions, uses and responsibilities will be further initiated in Administrative Regulation. The School District takes no position on an employee's decision to participate in the use of social media or SNS for personal use on personal time. However, personal use of these media during District time or on District-owned equipment is discouraged. In addition, employees are encouraged to maintain the highest levels of professionalism when communicating, whether using District devices or their own personal devices, in their professional capacity as educators. They have a responsibility to address inappropriate behavior or activity on these networks, including requirements for mandated reporting and compliance with all applicable District Policies and Regulations.

SUBJECT: STAFF USE OF COMPUTERIZED INFORMATION RESOURCES

Confidentiality, Private Information and Privacy Rights

Confidential and/or private data, including but not limited to, protected student records, employee personal identifying information, and District assessment data, shall only be loaded, stored or transferred to District-owned devices which have encryption and/or password protection. This restriction, designed to ensure data security, encompasses all computers and devices within the DCS, any mobile devices, including flash or key drives, and any devices that access the DCS from remote locations. Staff will not use email to transmit confidential files in order to work at home or another location. Staff will not use cloud-based storage services (such as Dropbox, GoogleDrive, SkyDrive, etc.) for confidential files.

Staff will not leave any devices unattended with confidential information visible. All devices are required to be locked down while the staff member steps away from the device, and settings enabled to freeze and lock after a set period of inactivity.

Staff data files and electronic storage areas shall remain District property, subject to District control and inspection. The computer coordinator may access all such files and communications to insure system integrity and that users are complying with requirements of this policy and accompanying regulations. Staff should **NOT** expect that information stored on the DCS will be private.

Implementation

Administrative regulations will be developed to implement the terms of this policy, addressing general parameters of acceptable staff conduct as well as prohibited activities so as to provide appropriate guidelines for employee use of the DCS.

SUBJECT: FAMILY AND MEDICAL LEAVE ACT

The Board of Education, in accordance with the Family and Medical Leave Act of 1993 (FMLA), gives "eligible" employees of the District the right to take unpaid sick/vacation leave, which, if used, will be simultaneously used during the leave of absence, for a period of up to twelve (12) workweeks in a twelve-month period as determined by the District. The District will compute the twelve-month period according to the following time frame: a "rolling" twelve-month period will be used that is measured backward from the date an employee uses any FMLA leave.

Employees are "eligible" if they have been employed by the District for at least twelve (12) months and for at least 1,250 hours of service during the previous twelve-month period. Full-time teachers are deemed to meet the 1,250 hour test. The law covers both full-time and part-time employees.

The entitlement to leave for the birth or placement of a child shall expire at the end of the twelve (12) month period beginning on the date of such birth or placement.

Qualified employees may be granted leave for one (1) or more of the following reasons:

- a) The birth of a child and care for the child;
- b) Adoption of a child and care for the child;
- c) The placement with the employee of a child from foster care;
- d) To care for a spouse, minor child or parent who has a serious health condition as defined by the FMLA;
- e) To care for an adult child who is incapable of self-care due to a disability (regardless of date of the onset of disability) and has a "serious health condition" as defined by the FMLA; and/or
- f) A serious health condition of the employee, as defined by the FMLA, that prevents the employee from performing his/her job.

A "serious health condition" is defined as an illness, injury, impairment or physical or mental condition that involves inpatient care or continuing treatment by a health care provider that renders the person incapacitated for more than three (3) consecutive calendar days. Furthermore, the first visit to a health care provider for an employee claiming a "serious health condition" under FMLA must occur within seven (7) days of the aforementioned incapacity with the second required visit occurring within thirty (30) days of the incapacitating event. In order for an employee to claim the need for continuous treatment under FMLA for a chronic serious health condition, the condition must require a minimum of two (2) visits per year to a healthcare provider, continue over an extended period of time, and may cause episodic rather than a continuing period of incapacity. A "serious health condition" is also defined as any period of incapacity related to pregnancy or for prenatal care.

SUBJECT: FAMILY AND MEDICAL LEAVE ACT *(continued)***Military Family Leave Entitlements**Military Caregiver Leave

An eligible employee who is the spouse, son, daughter, parent, or next of kin (defined as the nearest blood relative) is entitled to up to twenty-six (26) weeks of leave in a single twelve (12) month period to care for a military member who is:

- a) Recovering from a service-connected serious illness or injury sustained while on active duty; or
- b) Recovering from a serious illness or injury that existed prior to the service member's active duty and was aggravated while on active duty; or
- c) A veteran who has a qualifying injury or illness from service within the last five (5) years and aggravates that illness or injury.

This military caregiver leave is available during a single twelve (12) month period during which an eligible employee is entitled to a combined total of twenty-six (26) weeks of all types of FMLA leave. Military Caregiver Leave may be combined with other forms of FMLA-related leave providing a combined total of twenty-six (26) weeks of possible leave for any single twelve (12) month period; however, the other form of FMLA leave when combined cannot exceed twelve (12) of the twenty-six (26) weeks of combined leave. Military Caregiver Leave has a set "clock" for calculating the twelve (12) month period for when FMLA leave begins and tolling starts at the first day of leave taken.

The term "military member" means:

- a) A member of the Regular Armed Forces (including a member of the National Guard or Reserves) who is undergoing medical treatment, recuperation, or therapy, is otherwise in outpatient status, or is otherwise on the temporary disability retired list, for a serious injury or illness; or
- b) A veteran (discharged or released under condition other than dishonorable) who is undergoing medical treatment, recuperation, or therapy, for a serious injury or illness and who was a member of the Armed Forces (including a member of the National Guard or Reserves) at any time during the period of five (5) years preceding the date on which the veteran undergoes that medical treatment, recuperation or therapy.

"Qualifying Exigency" Leave/Call to Active Duty

An "eligible" employee is entitled to FMLA leave because of "a qualifying exigency" arising out of circumstances where the spouse, son, daughter, or parent of the employee is serving in the Regular Armed Forces or either the National Guard or the Reserves and is on active duty during a war or national emergency called for by the President of the United States or Congress, or has been notified of an impending call to active duty status, in support of a contingency operation. There is no "qualifying exigency" unless the military member is or is about to be deployed to a foreign country.

SUBJECT: FAMILY AND MEDICAL LEAVE ACT *(continued)*

A "qualifying exigency" related to families of the Army National Guard of the United States, Army Reserve, Navy Reserve, Marine Corps Reserve, Air National Guard of the United States, Air Force Reserve and Coast Guard Reserve personnel on (or called to) active duty to take FMLA protected leave to manage their affairs is defined as any one of the following reasons:

- a) Short-notice deployment;
- b) Military events and related activities;
- c) Childcare and school activities;
- d) Parental care leave;
- e) Financial and legal arrangements;
- f) Counseling;
- g) Rest and recuperation (for up to fifteen [15] calendar days);
- h) Post-deployment activities; and
- i) Any additional activities where the employer and employee agree to the leave.

In any case in which the necessity for leave due to a qualifying exigency is foreseeable, the employee shall provide such notice to the employer as is reasonable and practicable. This military-related leave is for up to twelve (12) weeks during a single twelve (12) month period. Leave may be taken intermittently or on a reduced leave schedule.

Implementation/Benefits/Medical Certification

At the Board of Education's or employee's option, certain types of paid leave may be substituted for unpaid leave. Employees must use any available paid leave and such paid leave will count toward the 12 week maximum leave.

An employee on FMLA leave is also entitled to have health benefits maintained while on leave. If an employee was paying all or part of the premium payments prior to leave, the employee will continue to pay his/her share during the leave period.

In most instances, an employee has a right to return to the same position or an equivalent position with equivalent pay, benefits and working conditions at the conclusion of the leave.

SUBJECT: FAMILY AND MEDICAL LEAVE ACT *(continued)*

The Board of Education has a right to thirty (30) days advance notice from the employee where practicable. In addition, the Board may require an employee to submit certification from a health care provider to substantiate that the leave is due to the serious health condition of the employee or the employee's immediate family member. Failure to comply with these requirements may result in the denial of FMLA leave. Under no circumstance should the employee's direct supervisor contact any health care provider regarding the employee's condition; all contact in this manner must be made by a health care provider (employed by the employer), a human resource professional, a leave administrator or a management official. The Board may also require that an employee present a certification of fitness to return to work when the absence was caused by the employee's serious health condition. The Board of Education has the right to deny restoration to employment if the employee does not furnish the certificate of fitness. If the medical certification requested by the employer is found to be deficient, the employee has seven (7) days to provide corrected materials to cure any deficiency prior to any action being taken.

A notice which explains the FMLA's provisions and provides information concerning the procedures for filing complaints of violations of the FMLA shall be posted in each school building.

Administration is directed to develop regulations to implement this policy, informing employees of their rights and responsibilities under the FMLA.

Special Provisions for School District Employees

An instructional employee is an employee whose principal function is to teach and instruct students in a class, a small group, or an individual setting (e.g., teachers, coaches, driving instructors, special education assistants, etc.). Teaching assistants and aides who do not have instruction as the principal function of their job are not considered an "instructional employee."

Leave Taken by Instructional Employees Near the End of the Instructional Year

There are also special requirements for instructional employees taking leave and the leave's relation to the end of the term. If the instructional employee is taking leave more than five (5) weeks prior to the end of the term, the District may require that the employee take the leave until the end of the term if the leave lasts more than three (3) weeks and the employee was scheduled to return prior to three (3) weeks before the end of the term.

If the instructional employee is taking leave less than five (5) weeks prior to the end of the term for any of the following FMLA-related reasons except qualifying exigency, the District may require that the employee remain out for the rest of the term if the leave lasts more than two (2) weeks and the employee would return to work during that two (2) week period at the end of the instructional term.

SUBJECT: FAMILY AND MEDICAL LEAVE ACT *(continued)*

If the instructional employee begins taking leave during the three (3) weeks prior to the end of the term for any reason except qualifying exigency, the District may require that the employee continue leave until the end of the term if the leave is scheduled to last more than five (5) working days.

Any additional time that is required by the employer due to the timing of the end of the school year, will not be charged against the employee as FMLA leave because it was the employer who requested that the leave extend until the end of the term.

FMLA Notice

A notice which explains the FMLA's provisions and provides information concerning the procedures for filing complaints of violations of the FMLA shall be posted in each school building and responsibilities shall be either placed in the employee handbook of the employer or furnished to each new employee upon hire.

Administration shall provide information to employees regarding their rights and responsibilities under the FMLA.

Adopted: 6/7/04 Southern Cayuga CSD Policy Book

SUBJECT: TELECOMMUTING AND REMOTE WORK

I. POLICY STATEMENT

It is the philosophy of the Southern Cayuga Central School District that the services it provides are best accomplished when employees work onsite. However, telecommuting and remote work may pose advantages for both the district and its employees, including relief of on-campus space constraints, cost reduction, environmental sustainability, and crisis response. Telecommuting is not an entitlement or SCCS-wide benefit. Telecommuting or remote work is typically a voluntary work arrangement determined by employees' supervisors and the Superintendent in which eligible employees fulfill their job responsibilities at a site other than their onsite work location during regularly scheduled work hours for an indefinite or finite period. In addition, telecommuting and remote work can be instituted during crisis situations, including, but not limited to pandemics. This policy covers approved telecommuting and remote work arrangements. Any portion of this policy may be waived by the Superintendent in a particular or unique emergency situation. The SCCS Board of Education will be notified of the emergency and any waivers.

II. POLICY

SCCS considers telecommuting or remote work to be a viable alternative work arrangement in cases where the individual employee, the job, and the supervisor are well suited to such an arrangement. Not all employees and positions are suitable for telecommuting or remote work. Suitability for telecommuting or remote work is based upon the individual employee as well as the employee's position and is to be determined by the employee's supervisor and Superintendent and approved per this policy. Informal telecommuting or remote work arrangements, such as working on the road during business travel, are not intended to be covered by this policy.

Formal telecommuting or remote work arrangements must be approved in writing by the SCCS Superintendent. Employees are expected to work their normal work schedule, unless they receive the Superintendent's prior approval to adjust their schedule. Employees are expected to remain productive and responsive during their scheduled work hours.

- Employees are expected to maintain a presence with their department while working remotely. Presence may be maintained by using appropriate technology, including but not limited to a computer, email, messaging application, video conferencing, instant messaging, Google sheets, and/or text messaging. The employee is expected to maintain the same response times as if they were at their regular school work location and will make themselves available to attend scheduled work meetings as required and/or requested.
- Employees are prohibited from engaging in other employment or volunteer work during their regular work hours when telecommuting or working remotely.
- Employees need to have a working telephone or cell phone at their remote location.
- Employees are expected to arrange for child/dependent care as necessary for the hours in which the employee works from home. Personal tasks and errands should only be performed during the employee's scheduled breaks and lunches.

SUBJECT: TELECOMMUTING AND REMOTE WORK

- SCCS is not responsible for operating costs of any personal equipment (including, but not limited to, computers, personal devices, cellular or standard telephones), home maintenance of personal equipment, or any other incidental costs (utility provider costs, telephone costs or for any supply costs used in the home) associated with the use of an employee's alternative work arrangement, except as otherwise authorized by another SCCS policy.

A. PROCEDURES

1. An employee who desires to telecommute or to have a remote work arrangement must submit a written proposal to their supervisor.
2. Once requested, the supervisor and employee shall meet to discuss the proposal.
3. The supervisor and Superintendent or designee shall then determine if the telecommuting request is denied or granted.
4. If approved, the employee shall be required to submit a written acknowledgement of the rules and guidelines pertaining to Telecommuting and Remote Work.
5. In an emergency situation an employee may be assigned remote work by the superintendent.

B. RULES AND GUIDELINES

1. JOB RESPONSIBILITIES

- The employee's job responsibilities shall be reviewed to determine if their position is appropriate for a telecommuting or remote work arrangement.
- Examples of jobs that may be suitable for telecommuting or remote work arrangements include those that have minimal face-to-face interaction, heavy data entry tasks, or specific objectives and performance standards that can be measured.
- Examples of jobs that may not be suitable for telecommuting or remote work arrangements include those that require frequent face-to-face interaction, onsite customer support or access to onsite confidential documents.

2. DEPARTMENTS AND EMPLOYEE SUITABILITY

- The district administration shall mean the Superintendent and/or any designated department head, supervisor, principal, or other person with supervisory responsibility.
- The district administration will examine the needs of the department, including frequency of meetings, department goals and projects, other departments' schedules, and space constraints.
- The district administration will assess the performance of the employee to ensure that the employee is in good standing and to determine if the employee's work habits display the traits customarily recognized as appropriate for successful telecommuters, such as reliability, responsiveness, and the ability to work independently.

SUBJECT: TELECOMMUTING AND REMOTE WORK

C. SCHEDULE

- The employee and the district administration will discuss and agree upon the number of telecommuting or remote days allowed each week, the work hours and schedule that the employee will customarily maintain, and the manner and frequency of regular communication (i.e. via phone, video conferencing, and/or in person, etc.) with the supervisor and others in the department, vendors, etc.
- Telecommuters or remote workers must be as accessible as their onsite counterparts during their regular work schedule, regardless of work location. Telecommuters may be required to work at their onsite location for meetings, events, and other situations deemed necessary by their supervisors.
- Telecommuters or remote workers may be required, at any time, to commute to their onsite work location. This is considered commute time, and telecommuters are not eligible to receive reimbursement for this travel.
- Telecommuters or remote workers may be required to forfeit use of personal offices or workstations at their onsite work location to maximize utilization of office space.
- Email and voicemail must be monitored, read/listened to, and responded to multiple times each day.
- Telecommuters or remote workers must be available on a daily basis to supervisors and, where applicable, to parents and students, as if they were working onsite.

D. EQUIPMENT

- The district administration will assess the alternate work location, including workspace design and equipment needs. The district administration will determine the appropriate equipment needs for each telecommuting or remote work arrangement at the alternate work location on a case-by-case basis. The district administration reserves the right to make determinations as to appropriate equipment, subject to change at any time.
- When district equipment is used at alternate work locations, telecommuters or remote workers must exercise reasonable care for the equipment and should take appropriate action to protect the items from damage or theft. Telecommuters or remote workers may be held liable for damage caused by negligence. District equipment should be used for business purposes only and will be maintained by the district.
- Compliance with district technology and acceptable use policies is required.

SUBJECT: TELECOMMUTING AND REMOTE WORK

E. ALTERNATE WORK LOCATION

- Telecommuters or remote workers must establish an appropriate work environment within their alternate location for work purposes. SCCS is not responsible for costs associated with setup of telecommuters' alternate office spaces, such as remodeling, furniture or lighting, nor for repairs or modifications to alternate office spaces.
- Telecommuters or remote workers should not hold business visits or in-person meetings at their alternate work location unless approved by their supervisor.
- Telecommuters or remote workers must take all precautions necessary to secure privileged information in their alternate work location and prevent unauthorized access to any SCCS system.
- Employees are solely responsible for the configuration of and all the expenses and services associated with remote workspace.
- Telecommuters and remote workers are responsible for notifying their employer of any injuries sustained while at their alternate work location and in conjunction with their regular work duties.

F. OTHER

- Telecommuters and remote workers' employment terms and conditions are not affected by changing to or from a telecommuting schedule.
- Telecommuting or remote working is not a replacement for dependent care.
- Telecommuters and remote workers are solely responsible for the tax and legal implications of the use of their alternate work location for business purposes and are solely responsible for any IRS, state, and local government regulations and restrictions.
- The availability of telecommuting or remote work as a flexible work arrangement for SCCS employees will be reviewed periodically by the SCCS and can be modified or discontinued by SCCS at any time.
- Telecommuters and remote workers are expected to carry out the same work duties while working at their onsite location.
- Hourly employees shall not work in excess of forty (40) hours per week without the prior approval of their supervisor.
- Telecommuters and remote workers are responsible for compliance with all other SCCS policies including compliance with Education Law Article 2D compliance and the protection of protected student information.

SUBJECT: COMPREHENSIVE STUDENT ATTENDANCE

Statement of Overall Objectives

The District is an active partner with students and parents/guardians and/or persons in parental relation in the task of ensuring that all students meet or exceed the New York State Learning Standards. The District recognizes that consistent school attendance, academic success, and school completion have a positive correlation, and therefore has developed, and, if necessary, will revise a Comprehensive Student Attendance Policy to meet the following objectives:

- a) To increase school completion for all students;
- b) To raise student achievement and close gaps in student performance;
- c) To identify attendance patterns to design attendance improvement efforts;
- d) To know the whereabouts of every student for safety and other reasons;
- e) To verify that individual students are complying with education laws relating to compulsory attendance;
- f) To determine the District's average daily attendance for state aid purposes.

Compulsory Attendance

Education Law in the State of New York requires all children between the ages of 6 and 16 to be in attendance whenever school is in session. The school year runs from July 1 through June 30. Students who turn 16 after July 1 must attend school until the last day of the school year in which they turn 16.

Description of Strategies to Meet Objectives

The District will:

- a) Create and maintain a positive school building culture by fostering a positive physical and psychological environment where the presence of strong adult role models encourages respectful and nurturing interactions between adults and students. This positive school culture is aimed at encouraging a high level of student bonding to the school, which in turn should lead to increased attendance.
- b) Develop a Comprehensive Student Attendance Policy based upon the recommendations of a multifaceted District Policy Development Team that includes representation from the Board, administrators, teachers, students, parents/guardians and/or persons in parental relation, and the community. The District will hold at least one public hearing prior to the adoption of this collaboratively developed Comprehensive Student Attendance Policy.

SUBJECT: COMPREHENSIVE STUDENT ATTENDANCE

- c) Maintain accurate recordkeeping via a Register of Attendance to record attendance, absence, tardiness, or early departure of each student.
- d) Utilize data analysis systems for tracking individual student attendance and individual and group trends in student attendance problems.

Determination of Excused and Unexcused Absences, Tardiness, and Early Departures

Based upon our District's education and community needs, values, and priorities, the District has determined that absences, tardiness and early departures (ATED) will be considered excused or unexcused according to the following standards. Excessive absenteeism will adversely affect student achievement.

A written excuse, signed by a parent/guardian and/or person in parental relation should be presented by the student when returning to school following each absence, indicating the reason for the absence.

Excused ATEDs are defined as absences, tardiness and early departures from class or school due to:

- a) personal illness*
- b) death in the family
- c) school closure
- d) school sponsored extra-curricular activities
- e) religious observance
- f) quarantine
- g) required court appearances
- h) attendance at health clinics, with doctor's note
- i) approved college visits
- j) approved cooperative work programs
- k) military obligations
- l) exceptional circumstances as approved by the Board of Education
- m) road test

Unexcused: An absence, tardiness, or early departure is considered unexcused if the reason for the lack of attendance does not fall into the above categories; examples of unexcused absence include:

- a) personal illness*
- b) family vacation
- c) hunting
- d) babysitting
- e) haircut
- f) oversleeping

* Grades Pre-K to 6

* Grades 7-12

*an excused absence requires a note from the parent or a doctor
an excused absence requires a doctor's note, as coursework is credit bearing toward graduation requirements*

SUBJECT: COMPREHENSIVE STUDENT ATTENDANCE

Attendance Deficiencies, which may result in disciplinary procedures

Tardiness (late) to class

Junior and Senior High School students are allowed three minutes passing time between class periods. A student who is not in the classroom when the bell rings at the beginning of the period is tardy. Classes will be started on time, making punctuality imperative. A student who is tardy to class loses valuable information and disrupts classroom procedure.

Tardiness (late) to school

Students are expected to be punctual to school and class at all times. Students who arrive at school after the start of the school day must sign in at the appropriate school office. At the elementary school level, a parent/guardian and/or person in parental relation must accompany their child to the appropriate office to sign their child in. A note must be submitted from a parent/guardian and/or person in parental relation, explaining the reason.

Excessive tardiness will not be tolerated. Parents/guardians and/or persons in parental relation will be contacted when students are late for unexcused reasons. If the problem becomes chronic, students will be subject to disciplinary action ranging from loss of privilege to detention and suspension.

Class Cuts

A class "cut" is defined as being in school but failing to:

- a) report for an assigned class (including scheduled academic intervention sessions)
- b) report to study hall or lunch

The penalties for cutting a class range from a warning to suspension. A grade of zero for any quiz, test or graded event held during that class period may be assigned.

Truancy

Any school age child who is not excused, and is absent from school without the permission of the parent/guardian and/or person in parental relation, will be considered truant. Students who are truant will be subject to disciplinary action.

Student Attendance Recordkeeping/Data Collection

Attendance will be taken daily for students in grades PreK-2 and during each class period for grades 3-12.

The record of each student's presence, absence, tardiness, and early departure will be kept in a register of attendance in a manner consistent with Commissioner's regulations. An absence, tardiness or early departure will be entered as "excused" or "unexcused" along with the District code for the reason.

SUBJECT: COMPREHENSIVE STUDENT ATTENDANCE

Attendance will be taken and recorded in accordance with the following:

- a) For students in non-departmentalized pre-kindergarten through grade 2 (i.e., self-contained classrooms and supervised group movement to other scheduled school activities such as physical education in the gym, assembly, etc.), the student's presence or absence will be recorded after the taking of attendance once per school day. For purposes of APPR and Teacher-Student Data Linkages (TSDL), classroom attendance for all students in grades K through 12 must be recorded on a subject by subject basis for Teacher of Record Determinations.
- b) For students in grades 3 through 12 or in departmentalized schools at any grade level (i.e., students pass individually to different classes throughout the day), each student's presence or absence will be recorded after the taking of attendance in each period of scheduled instruction.
- c) Any absence for a school day or portion thereof will be recorded as excused or unexcused in accordance with the standards articulated in this policy.
- d) In the event that a student at any instructional level from grades K through 12 arrives late for, or departs early from, scheduled instruction, the tardiness or early departure will be recorded as excused or unexcused in accordance with the standards articulated in this policy.

No student may leave the building for any reason other than assigned classes or upon permission from the office. Unauthorized leaves will result in disciplinary action.

If a student is injured or feels ill, the student must report to the nurse. If the nurse is not available, he/she should report to the office. Students who leave school without permission from the appropriate school personnel will be counted as an unexcused dismissal.

If a student must be excused from part of the school day, the parent/guardian and/or person in parental relation must provide a written request that their child will give to the school office upon arrival to school.

The request should specify:

- a) name
- b) date
- c) time to be excused
- d) destination
- e) reason for leaving
- f) means of travel from school
- g) a telephone number will be requested, by which the above information may be confirmed (parent/guardian and/or person in parental relation, doctor, dentist, etc.)

SUBJECT: COMPREHENSIVE STUDENT ATTENDANCE

Please make appointments, if at all possible, on school holidays or after school hours. Students being excused from school for part of the school day must wait in their classroom until a parent/guardian and/or person in parental relation arrives to pick them up, at which time they will be called to the office to sign out.

A record will be kept of each scheduled day of instruction during which the school is closed for all or part of the day because of extraordinary circumstances including adverse weather conditions, impairment of heating facilities, insufficiency of water supply, shortage of fuel, destruction of or damage to a school building, or other cause as may be found satisfactory to the Commissioner of Education.

Attendance records will also indicate the date when a student withdraws from enrollment or is dropped from enrollment in accordance with Education Law Section 3202(1-a).

At the conclusion of each class period or school day, all attendance information will be compiled and provided to the designated school personnel who are responsible for attendance. The nature of the absence, tardiness, or early departure will be coded on a student's record in accordance with the established District or building procedures.

The nature of an ATED shall be coded on a student's records. The following categories will be used:

- a) Excused Absence
- b) Unexcused Absence
- c) Truant
- d) Suspended tutored
- e) Suspended not tutored
- f) In-School Suspension
- g) Educational Event
- h) Tardy
- i) Early Dismissal
- j) Unexcused Dismissal

Student ATED data shall be available to and should be reviewed by the school nurse, principal and guidance counselors in an expeditious manner.

Attendance data will be analyzed periodically to identify patterns or trends in student absences.

Continuous monitoring will be conducted to identify students who are absent, tardy or leave class or school early. Parents/guardians and/or persons in parental relation of students who are not in regular school attendance will be contacted by phone. If not reached, they will be contacted in writing.

SUBJECT: COMPREHENSIVE STUDENT ATTENDANCE

Attendance/Grade Policy

The Board of Education recognizes an important relationship between class attendance and student performance. Consequently, each marking period a student's final grade may be based on classroom participation as well as student's performance on homework, tests, papers, projects, etc.

Students are expected to attend all scheduled classes. Consistent with the importance of classroom participation, unexcused ATEDs will affect a student's class participation grade for the marking period. Each school may have further grading policy regulations.

Student Attendance and Course Credit

The District believes that classroom participation is related to and affects a student's performance and grasp of the subject matter and, as such, is properly reflected in a student's final grade. For purposes of this policy, classroom participation means that a student is in class and prepared to work.

Consequently, for each marking period a certain percentage of a student's final grade will be based on classroom participation as well as the student's performance on homework, tests, papers, projects, etc. as determined by the building administrator and/or classroom teacher.

Students are expected to attend all scheduled classes. Consistent with the importance of classroom participation, unexcused student absences, tardiness, and early departures will affect a student's grade, including credit for classroom participation, for the marking period.

At the junior/senior high school level, any student with more than 30 absences in a full-year course may not receive credit for the course. However, students with properly excused absences, tardiness, and early departures for which the student has performed any assigned make-up work, assignments, and/or tests will not be counted as an absence for the purpose of determining the student's eligibility for course credit. District procedures will specify how student tardiness and early departures will be calculated and factored into the District's minimum attendance standard.

Should a student exceed the 30-day absence threshold, the attendance recovery program will need to be completed.

Transfer students and students re-enrolling after having dropped out will be expected to attend a prorated minimum number of the scheduled class meetings during their time of enrollment.

Students will be considered in attendance if the student is:

- a) Physically present in the classroom or working under the direction of the classroom teacher during the class scheduled meeting time; or
- b) Working pursuant to an approved independent study program; or
- c) Receiving approved alternative instruction.

Students who are absent from class due to their participation in a school sponsored activity are to arrange with their teachers to make up any work missed in a timely manner as determined by the student's teacher. Attendance at school sponsored events where instruction is substantially equivalent to the instruction which was missed will be counted as the equivalent of regular attendance in class.

SUBJECT: COMPREHENSIVE STUDENT ATTENDANCE

Upon returning to school following a properly excused absence, tardiness, or early departure, it will be the responsibility of the student to consult with his or her teacher(s) regarding arrangements to make up missed work, assignments, and/or tests in accordance with the time schedule specified by the teacher.

To ensure that parents/guardians and/or persons in parental relation and students are informed of the District's policy regarding minimum attendance and course credit, and the implementation of specific intervention strategies to be employed prior to the denial of course credit to the student for insufficient attendance, the following guidelines will be followed:

- a) Copies of the District's Comprehensive Student Attendance Policy will be available to parents/guardians and/or persons in parental relation and provided to students at the beginning of each school year or at the time of enrollment in the District.
- b) School newsletters and publications will include periodic reminders of the components of the District's Comprehensive Student Attendance Policy. Copies of the Attendance Policy will also be included in parent/guardian and/or person in parental relation or student handbooks or posted on the District website.
- c) At periodic intervals, a designated staff member(s) will notify, by telephone, the parent/guardian and/or person in parental relation of the student's absence, tardiness, or early departure and explain the relationship of the student's attendance to his or her ability to receive course credit. If the parent/guardian and/or person in parental relation cannot be reached by telephone, a letter will be sent detailing this information.
- d) A designated staff member will review the District's Attendance Policy with students who have excessive and/or unexcused absences, tardiness, or early departures. Further, appropriate student support services within the District, as well as the possible collaboration or referral to community support services and agencies, will be implemented prior to the denial of course credit for insufficient attendance by the student.

Notice of Students who are Absent, Tardy, or Depart Early Without Proper Excuse

A designated staff member will notify by letter after attendance thresholds are met to the parent/guardian and/or person in parental relation to a student who is absent, tardy or departs early without proper excuse. The staff member will explain the District's Comprehensive Student Attendance Policy, the District's or building level intervention procedures, and, if appropriate, the relationship between student attendance and course credit.

If deemed necessary by appropriate school officials, or if requested by the parent/guardian and/or person in parental relation, a school conference will be scheduled between the parent/guardian and/or person in parental relation and appropriate staff members to address the student's attendance. The student may also be requested to attend this conference to address appropriate intervention strategies that best meet the needs of the student.

SUBJECT: COMPREHENSIVE STUDENT ATTENDANCE

Disciplinary Consequences

Excessive unexcused absences, tardiness, and early departures will result in disciplinary sanctions as described in the District's *Code of Conduct*. Consequences may include, but are not limited to, in-school suspension, detention, and denial of participation in interscholastic and extracurricular activities. Parents/guardians and/or persons in parental relation will be notified by designated District personnel at periodic intervals to discuss their child's absences, tardiness or early departures and the importance of class attendance and appropriate interventions. Individual buildings and grade levels will address procedures to implement the notification process to the parent/guardian and/or person in parental relation.

Appeal Process

A parent/guardian and/or person in parental relation may request a building level review of his or her child's attendance record.

Building Review of Attendance Records

The building principal will work in conjunction with the building attendance clerk and other designated staff in reviewing attendance records at the end of each term. This review is conducted to identify individual and group attendance patterns and to initiate appropriate action to address the problem of unexcused absences, tardiness, and early departures.

Annual Review by the Board

The Board will annually review the building level student attendance records and if those records show a decline in student attendance, the Board will make any revisions to the Policy and plan deemed necessary to improve student attendance.

SUBJECT: ENTITLEMENT TO ATTEND -- AGE AND RESIDENCY

Entitlement to Attend

All persons residing within the District who are between the ages of five (5) years and twenty-one (21) years and who have not obtained a high school diploma are entitled to enroll in the District.

A student who becomes six (6) years of age on or before the first of December in any school year shall be required to attend full-time instruction from the first day that the District schools are in session in September of such school year, and a student who becomes six (6) years of age after the first of December in any school year shall be required to attend full-time instruction from the first day of session in the following September. Each student shall be required to remain in attendance until the last day of session in the school year in which the student becomes sixteen (16) years of age. **Additionally, any student from sixteen (16) to seventeen (17) years of age who is not employed will be required to attend full-time instruction until the end of the school year in which such student turns seventeen (17) years of age.*

Evidence of a prospective student's age and residency must be presented in such form as is permitted by state and federal law and regulation.

Determination of Student Residency

"Residence," for purposes of this policy, is established by a child's physical presence as an inhabitant within the District and his/her intent to reside in the District.

A child's residence is presumed to be that of his/her parents or legal guardians. Where a child's parents live apart, the child can have only one legal residence. In cases where parents have joint custody, the child's time is essentially divided between two (2) households, and both parents assume responsibility for the child, the decision regarding the child's residency lies ultimately with the family. Where parents claim joint custody, but do not produce proof of the child's time being divided between both households, residency will be determined on the basis of the child's physical presence and intent to remain within the District.

The presumption that a child resides with his/her parents or legal guardians may be rebutted upon demonstration that custody of such child has been totally and permanently transferred to another individual. The District will not acknowledge living arrangements with persons other than a child's parents or legal guardians which are made for the sole purpose of taking advantage of the District's schools.

The presumption that a child resides with his/her parents or legal guardians may also be rebutted upon demonstration that such child is an emancipated minor. To establish emancipation, a minor may submit documentation of his/her means of support, proof of residency and an explanation of the circumstances surrounding the student's emancipation, including a description of the student's relationship with his/her parents or persons in parental relation.

Undocumented Children

The District is mindful that undocumented children are entitled to attend the District's schools, provided they meet the age and residency requirements established by state law. Consequently, the District will not request or require on any enrollment or registration form, in any meeting, or in any other form of communication, any documentation and/or information regarding or tending to reveal the immigration status of a child, a child's parent(s) or the person(s) in parental relation. In the event the District is required to collect such information, the District will do so after the child has been enrolled. In no instance will such information be required as a condition of enrollment or continued attendance.

Children of Activated Reserve Military Personnel

Students temporarily residing outside the boundaries of the District, due to relocation necessitated by the call to active military duty of the student's parent or person in parental relation, will be allowed to attend the public school that they attended prior to the relocation. However, the District is not required to provide transportation between a temporary residence located outside the District and the school the child attends.

SUBJECT: EDUCATION OF HOMELESS CHILDREN AND YOUTH**IDENTIFICATION OF STUDENTS IN TEMPORARY HOUSING**

Under the McKinney-Vento Act, it is the obligation of all districts to affirmatively identify all students in temporary housing. Therefore, it is the policy of this local educational agency ("LEA") the Southern Cayuga Central School District, to determine whether there are students in temporary housing within the LEA by using an enrollment/residency questionnaire to determine the nighttime residence of all newly enrolled students and all students whose address changes. Not all students in temporary housing can be identified through social service agencies or shelters, as children may be sharing the housing of other persons, such as family or friends, due to loss of housing, economic hardship, or other similar reason. For this reason, the Southern Cayuga Central School District uses an enrollment form/residency questionnaire that asks for a description of the current living arrangements of the child or youth in order to determine whether the child or youth meets the definition of a homeless child under the McKinney-Vento Homeless Education Assistance Act (42 U.S.C. § 11434a(2)) ("McKinney-Vento") and New York Education Law § 3209(1)(a).

DEFINITION OF HOMELESS CHILD AND UNACCOMPANIED YOUTH

Pursuant to McKinney-Vento Act, a homeless child is defined as:

- (1) a child who lacks a fixed, regular, and adequate nighttime residence, including a child or youth who is:
 - (i) sharing the housing of other persons due to loss of housing, economic hardship or similar reason (sometimes referred to as "doubled-up");
 - (ii) living in motels, hotels, trailer parks, or camping grounds due to the lack of alternative adequate accommodations;
 - (iii) abandoned in hospitals;
 - (iv) awaiting foster care placement; or
 - (v) a migratory child who qualifies as homeless because he or she is living in circumstances described above; or
- (2) a child or youth who has a primary nighttime location that is:
 - (i) a supervised publicly or privately operated shelter designed to provide temporary living accommodations including, but not limited to, shelters operated or approved by the state or local department of social services, and residential programs for runaway and homeless youth; or
 - (ii) a public or private place not designed for, or ordinarily used as, a regular sleeping accommodation for human beings, including a child or youth who is living in a car, park, public space, abandoned building, substandard housing, bus or train stations or similar setting.

An unaccompanied youth is defined as a homeless youth who is not in the physical custody of a parent or guardian.

DUTIES OF THE MANDATED MCKINNEY-VENTO LIAISON

Every LEA, regardless of whether it receives a McKinney-Vento subgrant, is required to designate a local liaison for homeless children and youth ("McKinney-Vento liaison"). The McKinney-Vento liaison for the Southern Cayuga Central School District serves as one of the primary contacts between families experiencing homelessness and school staff, district personnel, shelter workers, and other service providers. The McKinney-Vento liaison coordinates services to ensure that homeless children and youth enroll in school and have the opportunity to succeed.

SUBJECT: EDUCATION OF HOMELESS CHILDREN AND YOUTH

The McKinney-Vento liaison must ensure that:

- Students in temporary housing are identified by school personnel and through coordination activities with other entities and agencies;
- Students in temporary housing enroll in, and have full and equal opportunity to succeed in, the schools of the Southern Cayuga Central School District;
- Students in temporary housing and their families receive educational services for which they are eligible, including Head Start, Even Start, and preschool programs administered by the LEA, and referrals to health, mental health, dental, and other appropriate services;
- Parents or guardians of students in temporary housing are informed of the educational and related opportunities available to their children and are provided with meaningful opportunities to participate in the education of their children;
- Parents and guardians of students in temporary housing, and unaccompanied youth, are fully informed of all transportation services, including transportation to and from the school district of origin and are assisted in accessing transportation services;
- Disputes regarding school selection, enrollment and/or transportation are mediated in accordance with the requirements of McKinney-Vento;
- Assistance in commencing an appeal pursuant to Education Law §310 of a final determination regarding enrollment, school selection and/or transportation is provided to the students in temporary housing's parent or guardian or the unaccompanied youth in accordance with the provisions of 8 NYCRR §100.2(x)(7)(iii);
- Public notice of the educational rights of students in temporary housing is posted in locations where such students receive services, such as schools, shelters, and soup kitchens;
- A record is maintained of all appeals of enrollment, school selection and transportation; and
- School personnel, service providers and advocates working with students in temporary housing are informed of the duties of the McKinney-Vento liaison.

SCHOOL OF ORIGIN

The McKinney-Vento Act defines school of origin as “the school that the child or youth attended when permanently housed or the school in which the child or youth last enrolled.”

THE DESIGNATOR HAS RIGHT TO CHOOSE THE SCHOOL DISTRICT THE STUDENT IN TEMPORARY HOUSING WILL ATTEND

The Southern Cayuga Central School District understands that the “designator” decides which school district a student in temporary housing will attend. A designator is:

- the parent or person in parental relation (guardian) to a student in temporary housing; or
- the student in temporary housing, together with the McKinney-Vento liaison, in the case of an unaccompanied youth; or
- the director of a residential program for runaway and homeless youth, in consultation with the student in temporary housing, where such student is living in such program.

SUBJECT: EDUCATION OF HOMELESS CHILDREN AND YOUTH

The designator has the right to designate one of the following as the school district within which a student in temporary housing shall be entitled to attend upon instruction:

- **School district of current location** - the public school district within the State of New York in which the hotel, motel, shelter or other temporary housing arrangement of a student in temporary housing or the residential program for runaway and homeless youth is located;
- **School district of origin** - the public school district within the State of New York in which the student in temporary housing was attending a public school on a tuition-free basis or was entitled to attend when circumstances arose that caused such child to become homeless. If the school district of origin is designated, the student in temporary housing is entitled to return to the school building where previously enrolled;
- **School district participating in a regional placement plan** - a regional placement plan is a comprehensive regional approach to the provision of educational placements for homeless children, which must be approved by the Commissioner of Education.

Please note: Students who have designated the district of current location and move to another temporary housing location outside of such district, or to a different attendance zone or community school district within such district, shall be entitled to continue the prior designation to enable the student to remain in the same school building for the duration of homelessness and through the end of the school year in which the student becomes permanently housed. The student may be able to remain in the same district for one additional year, if the year constitutes the student's terminal year in such building.

DESIGNATION/STAC 202 FORM

The Southern Cayuga Central School District will identify all students in temporary housing, and a designation form will be completed by the designator for all such students and any other student who claims homelessness. Designations must be made on the STAC 202 form provided by the Commissioner.

- The appropriate designator must complete the designation form. The Southern Cayuga Central School District makes designation forms available to a student in temporary housing who seeks admission to school or to the parent or person in parental relation who seeks to enroll such child in school.
- Where a parent or person in parental relation or a child who is neither placed in a temporary housing facility by the local department of social services nor housed in a residential program for runaway homeless youth, designates the Southern Cayuga Central School District as the school district of current location, the Southern Cayuga CSD will forward to the New York State Education Department (the "Department") a completed designation form and a statement of the basis for its determination that the child is a homeless child entitled to attend the schools of the district.
-
- **UPON RECEIPT OF THE DESIGNATION/STAC 202 FORM**
-
- Upon identification of a child who is homeless and/or receipt of a completed designation form, the Southern Cayuga Central School District will:

SUBJECT: EDUCATION OF HOMELESS CHILDREN AND YOUTH

- immediately review the designation form to assure that it has been completed and admit the student in temporary housing even if the child or youth is unable to produce records (This provision is applicable only to certain school districts in Westchester County.) normally required for enrollment, such as previous academic records, medical records, immunization records, proof of residency or other documentation;
- provide the child with access to all of the Southern Cayuga Central School District's programs, activities and services to the same extent as they are provided to resident students;
- immediately contact the school district where the child's records are located in order to obtain a copy of such records and coordinate the transmittal of records for students with disabilities pursuant to section 200.4(e)(8)(iii) of the Commissioner's regulations;
- immediately refer the parent or guardian of the student in temporary housing to the McKinney-Vento liaison who must assist in obtaining necessary immunizations or immunization or medical records if the child or youth needs to obtain immunizations or immunization or medical records;
- forward the STAC 202 form to the Commissioner and the school district of origin, where applicable. In all cases, the Southern Cayuga Central School District will give a copy of the completed STAC 202 to the designator and keep a copy of the STAC 202 form for the LEA's records.

UPON RECEIPT OF A REQUEST FOR RECORDS

Within five days of receipt of a request for school records from a new school, the Southern Cayuga Central School District will forward, in a manner consistent with state and federal law, a complete copy of the student in temporary housing's records, including, but not limited to, proof of age, academic records, evaluations, immunization records, and guardianship papers, if applicable.

TUITION REIMBURSEMENT

The Southern Cayuga Central School District is eligible to request reimbursement from the Department for the direct costs of educational services to students in temporary housing that are not otherwise reimbursed under special federal programs, when:

- the district is either the school district of current location or a school district participating in a regional placement plan,
- the district is designated as the school district of attendance, and
- the school district of origin for the student in temporary housing is within New York State.

All claims for reimbursement will be made on the STAC 202 form prescribed by the Commissioner of the State Education Department.

TRANSPORTATION RESPONSIBILITIES

SUBJECT: EDUCATION OF HOMELESS CHILDREN AND YOUTH

- To the extent funds are provided for such purpose, the Office of Children and Family Services (“OCFS”) provides transportation for each student in temporary housing who lives in a residential program for runaway youth and homeless youth located outside of the designated school district. The social services district or OCFS may also contract with the Southern Cayuga Central School District or with our local board of cooperative educational services (“BOCES”) to provide such transportation. If the runaway and homeless youth shelter is not capable of transporting or contracting for transportation, the Southern Cayuga Central School District will provide transportation and will seek reimbursement. The costs for transportation will be reimbursed by the State Education Department with the submission of a Runaway and Homeless Youth Act Transportation Program Form. Where the Southern Cayuga Central School District provides transportation for a student living in an Runaway and Homeless Youth (“RHY”) facility, the LEA will promptly request reimbursement using the Runaway and Homeless Youth Act Transportation Form which is available from the Homeless Education Program Office (518-473-0295) and online at www.nysteachs.org
- The Southern Cayuga Central School District will transport any student in temporary housing where it is the designated district of attendance and the student in temporary housing is not entitled to receive transportation from the Department of Social Services or OCFS.
- When the Southern Cayuga Central School District is designated as the school district of current location for a student in temporary housing, Southern Cayuga CSD will provide transportation on the same basis as it is provided to resident students.
- If the student in temporary housing designates the Southern Cayuga Central School District as the school district of origin or a district participating in a regional placement plan, transportation will not exceed 50 miles each way, unless the Commissioner of the State Education Department determines that it is in the best interest of the child.
- The Southern Cayuga Central School District shall delay for 30 days the implementation of a final determination to decline to transport a student in temporary housing or unaccompanied youth.

DISPUTE RESOLUTION PROCESS

The Southern Cayuga Central School District has established the following procedures for the prompt resolution of disputes regarding school selection or enrollment of a homeless child or youth:

- The Southern Cayuga Central School District will provide a written explanation, including a statement regarding the right to appeal, to the parent or guardian of a student in temporary housing, or to an unaccompanied youth if Southern Cayuga CSD declines to either enroll and/or transport such child or youth to the school of origin or a school requested by the parent or guardian or unaccompanied youth.
- The Southern Cayuga Central School District will delay for 30 days the implementation of a final determination to decline to either enroll in and/or transport the student in temporary housing to the school of origin or a school requested by the parent or guardian or unaccompanied youth.

SUBJECT: EDUCATION OF HOMELESS CHILDREN AND YOUTH

- If the parent or guardian of a student in temporary housing or unaccompanied youth commences an appeal to the Commissioner with a stay application within 30 days of such final determination, the student will be permitted to continue to attend the school he or she is enrolled in at the time of the appeal and/or receive transportation to that school until the Commissioner renders a decision on the stay application.
- If the Commissioner grants the stay request and issues a stay order requiring continued enrollment and/or transportation, the student in temporary housing can continue attending the school and/or receiving transportation until the Commissioner issues an appeal decision. However, if the Commissioner denies the stay request, the student in temporary housing can be asked to leave the school and/or discontinue transportation immediately.
- If the Commissioner sustains the appeal and issues a decision requiring continued enrollment and/or transportation, student can continue attending the school at issue and/or receiving transportation. However, if the Commissioner dismisses the appeal, the student can be asked to leave the school and/or discontinue transportation immediately.

The liaison must also make such correspondence available to the parent or guardian or unaccompanied youth.
- The McKinney-Vento liaison must maintain a record of all appeals of enrollment, school selection, and transportation determinations.

COORDINATION

- The Southern Cayuga Central School District will coordinate the provision of services described above with local social services agencies and other agencies or programs providing services to students in temporary housing and their families, including services and programs funded under the Runaway and Homeless Youth Act.
- The Southern Cayuga Central School District will coordinate with other school districts on inter-district issues, such as transportation or transfer of school records.
- The Southern Cayuga Central School District will coordinate implementation of the above provision of services with the requirements of the Individuals with Disabilities Education Act (IDEA) for students with disabilities.

COORDINATION WITH TITLE I (For districts that receive Title I Funds)

The Southern Cayuga Central School District acknowledges that students in temporary housing are eligible for services under Title I, Part A, whether or not they live in a Title I school attendance area or meet the academic requirements required of other children. The Southern Cayuga Central School District will ensure that:

- Title I, Part A funds are set aside as are necessary to provide students in temporary housing who do not attend participating schools with services comparable to those provided to children in Title I, Part A funded schools, including providing educationally related support services to children in shelters and other locations where students in temporary housing may live.
- The Southern Cayuga Central School District, receiving Title I, Part A funds, will include in its local plan a description of how the plan is coordinated with McKinney-Vento.
- The local plan will describe services provided to students in temporary housing.

SUBJECT: EDUCATION OF HOMELESS CHILDREN AND YOUTH

- If the Southern Cayuga CSD reports that there are no students in temporary housing or unaccompanied youth in non-Title I schools, the LEA will describe the efforts it made to identify students in temporary housing and unaccompanied youth. Such efforts will include contacting the local department of social services or OCFS to verify that there are no students in temporary housing in the LEA.

The Southern Cayuga Central School District will also document that its enrollment form/ residency questionnaire asks about the living arrangements of the child or unaccompanied youth, including asking if he or she is living in a shelter; with relatives or others due to loss of housing or economic hardship; in an abandoned apartment/building; in a motel/hotel, camping ground, car, train/bus station or other similar situation due to the lack of alternative, adequate housing; or awaiting an OCFS permanent foster care placement. Documentation of the LEA's efforts to identify students in temporary housing will be maintained on file and a copy of the LEA's enrollment form/residency questionnaire which asks the above questions will also be kept on file.

REPORTING

The Southern Cayuga Central School District will collect and transmit to the Commissioner, at such time and in such manner as the Commissioner may require, reports containing such information as the Commissioner determines is necessary, including the numbers of homeless students, their grade, and their nighttime residence.

ACCESS TO FREE MEALS (only for districts participating in the federal free/reduced meal program)

The Southern Cayuga Central School District will provide free meals to all children identified as homeless. They do not have to complete a free or reduced-price meal application. When the McKinney-Vento liaison or a shelter director provides a child's name to the Southern Cayuga CSD's school food service office, free school meals will commence immediately.

Questions about this policy or the protections available to students in temporary housing can be directed to the McKinney-Vento Liaison. (SCCS 315-364-7111 or 315-364-8711)

Questions can also be directed to NYS-TEACHS at (800) 388-2014.

NOTES

In addition to using the residency questionnaire, the Southern Cayuga Central School District will also contact our local department of social services

(http://www.health.state.ny.us/health_care/medicaid/ldss.htm) to identify students in temporary housing, as well as the local runaway and homeless youth shelter

(http://www.ocfs.state.ny.us/main/youth/runaway_homeless_services.pdf) and any other shelters located within the LEA boundaries to ensure all students in temporary housing are properly identified and served.

The terms "homeless child" and "student in temporary housing" are used interchangeably throughout this policy.

The terms "LEA" and "school district" are used interchangeably throughout this policy.

SUBJECT: NON-RESIDENT STUDENTS

Definition of Resident and Non-Resident Student

Resident Student:

A resident student is one who is living within the Southern Cayuga Central School District. Generally, a student's legal school district residence is presumed to be that of his/her parents/guardians and/or persons in parental relation.

Non-Resident Student:

A non-resident student is defined as one whose residence is outside of the Southern Cayuga Central School District. A non-resident student is not a homeless student.

The Southern Cayuga Central School District Board of Education recognizes that its primary responsibility is to provide the best possible educational opportunities for the children who are legal district residents and who are of legal age to attend school.

A non-resident student may not be accepted for enrollment in programs or services offered by the Southern Cayuga Central Schools

Change in Status During School Year

If the student is eligible to graduate at the end of the current school year, he/she may remain until the end of the school year.

Bona Fide Foreign Exchange Students

Students residing with families within the boundaries of the School District must provide proof that they are participating in a recognized foreign exchange student program to attend District schools.

Transportation

Parents/guardians and/or persons in parental relation of students who are non-residents are required to provide their own transportation to the closest stop on a bus run or a mutually arranged stop within the District. The District will not transport students outside of District boundaries. No transportation fee will be charged from previously established pick-up points as long as the district incurs no additional staffing or transportation expense.

SUBJECT: EDUCATIONAL SERVICES FOR MARRIED/PREGNANT STUDENTS

Married Students

The Board of Education will comply with state law in reference to married students attending school.

Pregnant Students

SCCS educates according to the laws governing compulsory school attendance. The law further requires that a school district provide for this instruction for pregnant students and also to provide for home instruction for those students of legal age who are unable to profit from instruction in school.

In view of the above, administrative regulations will be developed to implement the terms of this policy to provide instruction as required by the New York State Education Law for students who become pregnant. The Superintendent, or his/her designee, is directed to consult with the school physician and the student's personal physician in determining the form of instruction.

The form of instruction may be any of the following or a combination of the following:

- a) Remain in school with provisions for special instruction, scheduling, and counseling where needed.
- b) Receive home instruction.

SUBJECT: SCHOOL CENSUS

With the exception of the cities of New York, Buffalo and Rochester, as well as small city school districts, all other school districts are authorized, rather than obligated, to take a census of all children from birth to eighteen (18) years of age. SCCS has chosen not to conduct a bi-annual door-to-door census beginning in 2011.

The census must indicate the names of all children between birth and eighteen (18) years of age, and of children with disabilities between birth and twenty-one (21) years of age; their respective residences by street and number; the day of the month and the year of their birth; the names of the persons in parental relation to them; such information relating to physical or mental disabilities, to illiteracy, to employment and to the enforcement of the law relating to child labor and compulsory education as the State Education Department and the Board of Education shall require; and also such further information as the Board shall require.

On written request and in such form as prescribed by the Commissioner of Education, the Board shall provide to the Commissioner a report containing the names, ages and addresses of those children who are blind or deaf and those children having serious physical or mental disabilities. Additionally, such report shall further indicate whether such children are being educated within the public schools of the District or, if they are not, where such education is being furnished to them.

Parents/guardians and/or persons in parental relation to those children within the prescribed census age ranges are to make such reports as the Board of Education shall require, including, but not limited to, providing two (2) weeks before the child reaches compulsory school age, the name of the child; the child's residence; the name of the parent/guardian and/or person or persons in parental relation to the child; the name and location of the school to which the child shall have been or shall be sent as a student; and such other information as required by law or as the Board may require.

A parent/guardian and/or person in parental relation or other person having under his/her control or charge a child between birth and eighteen (18) years of age who withholds or refuses to give information in his/her possession relating to such census data as required by law pertaining to the child; or, in the alternative, gives false information in relation to such census data, shall be liable to and punished by a fine or imprisonment as established by law.

GRADUATION OPTION/EARLY GRADUATION/ACCELERATED PROGRAMS

To graduate from Southern Cayuga Central School District, a student must complete or may exceed the requirements set forth in Part 100 of the Commissioner's Regulations (22 credit minimum). The Board of Education reserves the right to establish requirements for graduation which exceed the minimum standards as defined by the New York State Regents. SCCS students entering grade nine in September of 2008 will be required to earn a minimum of 26 course credits for graduation, taking at least 6 ½ credits per year except when a modified plan is approved by the principal.

Pathways to Graduation

Students must pass the required number of Regents examinations or approved alternative exams and meet any further graduation requirements; these requirements may include passing an approved pathways assessment, other assessment, or an additional exam that measure an equivalent level of knowledge and skill. Students who fail certain Regents examinations may appeal the result in accordance with Commissioner's regulations.

Early Graduation

A student may be eligible for early graduation (fewer than eight semesters) if the student completes all requirements for graduation, excluding physical education. The District will consult with appropriate personnel, the student, and persons in parental relation, and consider factors such as the student's grades, performance in school, future plans, and benefits to graduation early in making its decision.

Accelerated Programs

Eighth Grade Acceleration for Diploma Credits

Eighth grade students may take appropriate high school courses. The Superintendent or designee will determine whether an eighth grade student is eligible to take high school courses using criteria that examines each student's readiness. By the end of seventh grade, accelerated students must receive instruction designed to facilitate their attainment of the state intermediate learning standards in each subject area in which they are accelerated.

Dual Credit for College Courses

Students who have demonstrated intellectual and social maturity may choose to matriculate at any one of the colleges that have a cooperative agreement with the District. Students who wish to enroll in college-level coursework must meet all academic, grade level, and coursework requirements. These opportunities may include early admission to college, collegiate-level work offered in the high school, or other means of providing advanced work. The administration will review and approve any college courses before they are taken during the school day. *The Board may pay a portion of tuition and other related costs for those high school students enrolled in college courses.*

GRADUATION OPTION/EARLY GRADUATION/ACCELERATED PROGRAMS

Online Coursework

The District may offer students the ability to complete general education and diploma requirements for a specific subject through online instruction or blended coursework that combines online and classroom-based instruction.

To receive credit for online coursework, students must successfully complete an online or blended course and demonstrate mastery of the learning outcomes for the subject by passing the Regents exam or other assessment in the subject area.

SUBJECT: DIPLOMA AND/OR CREDENTIAL OPTIONS FOR STUDENTS WITH DISABILITIES

The District is committed to ensuring that students with disabilities are provided appropriate opportunities to earn a Regents or Local Diploma or other exiting Commencement Credential in accordance with the Commissioner's Regulations. To this end, graduation and transition plans shall take into account the various pathways available to these students.

Career Development and Occupational Studies (CDOS) Commencement Credential

The Career Development and Occupational Studies (CDOS) Commencement Credential may be earned by a student with a disability to document his or her preparation for entry-level employment after high school. This credential can be awarded in conjunction with a Regents or Local Diploma, or may be issued by itself.

When awarding the CDOS Commencement Credential using *option one*, the student shall demonstrate evidence of the following requirements, which shall be verified by the District:

- a) The student has a developed, annually reviewed and, as appropriate, revised Career Plan to assure the student is actively engaged in career exploration;
- b) The student has demonstrated commencement level knowledge and skills of the CDOS learning standards. To evidence this level of knowledge and skill, a student must demonstrate: career development, integrated learning and universal foundation skills. In addition a student may also, but is not required to, demonstrate additional career skills by completing a career-specific major;
- c) The student has successfully completed at least two (2) units of study (216 hours) in Career and Technical Education (CTE) courses, including a minimum of 54 hours of documented school supervised work-based learning experiences, which may, but is not required to, be completed in conjunction with the CTE courses; and
- d) Within one year prior to a student's exit from school, at least one Employability Profile must be completed by designated school staff or other individuals knowledgeable about the student's employment skills and experiences.

A student's CTE courses and supervised work-based learning experiences must be documented on his or her transcript and the Career Plan and Employability Profile must be placed in a student's permanent record. The State Education Department (SED) has provided models of the Career Plan and Employability Profile forms as well as charts of work-based learning programs and nationally-recognized work-readiness credentials, located at:

<http://www.p12.nysed.gov/specialed/publications/CDOScredential-memo-613.htm>

Instead of the above (a-d) requirements, a District may utilize *option two* by awarding a CDOS Commencement Credential to a student who has completed a nationally-recognized work-readiness program or certification. Districts cannot exclusively offer option two and must still provide opportunities for students to fulfill the CDOS Commencement Credential through option one's requirements.

Skills and Achievement (SA) Commencement Credential

To issue the Skills and Achievement (SA) Commencement Credential, the District must ensure that the student:

**SUBJECT: DIPLOMA AND/OR CREDENTIAL OPTIONS FOR STUDENTS WITH
DISABILITIES**

- a) Meets the definition of a student with a severe disability;
- b) Has been recommended by the Committee of Special Education (CSE) to take the New York State Alternative Assessment (NYSAA) for students with severe disabilities;
- c) Has been given appropriate opportunities to participate in community experiences and development of employment and other instructional activities to prepare the student for post-secondary living, learning and employment; and
- d) Has been issued a summary of the student's academic achievement and functional performance. A model summary form developed by SED is located at:
<http://www.p12.nysed.gov/specialed/publications/SACC-SESform-att2.htm>

Awarding the SA or CDOS Commencement Credentials

The SA and CDOS Commencement Credentials may be issued at any time after such student has attended school for at least twelve (12) years, or at the end of the school year in which the student turns twenty one (21) years old. When a student is under twenty-one (21) and is issued SA Commencement Credential or the CDOS Commencement Credential *without* the Regents or Local Diploma, the credential award must be accompanied by a written statement of assurance. This statement must indicate that the student remains eligible to attend the public school within the District, without payment of tuition, until the student has either earned a diploma or until he/she turns twenty-one (21), whichever occurs first.

The CDOS and SA Commencement Credentials must be similar in form to the diplomas issued by the District, except that they shall not use the term "diploma" on them. The SA Commencement Credential must contain a clear annotation that it is based on alternate academic achievement standards. The CDOS Commencement Credential shall indicate that it has been endorsed by the New York State Board of Regents as a certificate of readiness for entry-level employment.

SUBJECT: SENIOR HONORS

Beginning in the 2011/12 school year, the Southern Cayuga Central School District will reinstate the practice of identifying a valedictorian and salutatorian of the graduating class. Southern Cayuga Central School District will also continue to give formal public recognition to all seniors with a 90 percent average (without rounding) as "Honor" graduates and all seniors with a 95 percent average (without rounding) as graduating with "High Honor."

In most cases, averages and class rank will be calculated based on seven semesters of completed work. Due to our belief in a philosophy which encourages students to advance at their optimum pace, three year graduate averages will be calculated based on five semesters of completed work. Averages for students studying abroad will be calculated based on five or six semesters, whichever is applicable.

Students entering Southern Cayuga from another school district will be eligible to compete for honors without regard to date of entry.

Averages and class rank will be calculated according to the present Southern Cayuga Central School District Administrative Guidelines – Averaging/Ranking.

The Board will offer to the entire Senior Class the opportunity to speak at graduation. Two speakers will be selected by a review committee.

SUBJECT: STUDENT RECORDS: ACCESS AND CHALLENGE**Student Records**

The Southern Cayuga Central School District shall comply with the provisions of the "Family Educational Rights and Privacy Act of 1974." Under its provisions, "parents/guardians and non-custodial parent(s), whose rights are not limited by court order or formal agreement, of a student under eighteen (18), or a student who is eighteen (18) years of age or older or who is attending an institution of post-secondary education, have a right to inspect and review any and all official records, files, and data, including all material that is incorporated into each student's cumulative record folder and intended for school use or to be available to parties outside the school or School System and specifically including, but not necessarily limited to, identifying data; academic work completed; level of achievement (grades, standardized achievement test scores); attendance data; scores on standardized intelligence, aptitude, and psychological tests; interest inventory results; health data; family background information; teacher or counselor ratings and observations; and verified reports of serious or recurrent behavior patterns."

Access to Student Records

The Board directs that administrative regulations and procedures be formulated to comply with the provisions of federal law relating to the availability of student records. The purpose of such regulations and procedures shall be to make available to the parents/guardians and/or persons in parental relation of students and non-custodial parent(s) whose rights are not limited by court order or formal agreement, or students who are eighteen (18) years of age or older or who are attending an institution of post-secondary education, student records, and files on students, and to insure the confidentiality of such records with respect to third parties.

Challenge to Student Records

Parents/guardians and/or persons in parental relation of a student under the age of eighteen (18), or a student who is eighteen (18) years of age or older or who is attending an institution of post-secondary education, shall have an opportunity for a hearing to challenge the content of the school records, to insure that the records are not inaccurate, misleading, or otherwise in violation of the privacy or other rights of students, and to provide an opportunity for the correction or deletion of any such inaccurate, misleading, or otherwise inappropriate data contained therein.

SUBJECT: RIGHTS OF NON-CUSTODIAL PARENTS

The Board is mindful that various arrangements exist for the care and custody of children residing in the District. The District attempts to maintain current family information to help ensure student safety, proper communication with parents, and appropriate educational programming. Parents who are divorced, legally separated, or otherwise live apart should supply the District with relevant information and documentation, including custody orders, regarding who is responsible for the custody and care of their child, and who is permitted to make educational decisions for that child.

A non-custodial parent's participation in his or her child's education will be governed by the terms of any custody order. As a general matter, however, the District encourages non-custodial parents to participate in their child's education. Unless prohibited from doing so by a court order, non-custodial parents may request information about their child, inspect and review their child's records in accordance with the Family Educational Rights and Privacy Act (FERPA) and District policy, and otherwise remain interested in their child's education.

The District will not release students to a non-custodial parent without the custodial parent's consent. It is the parent's responsibility to inform the District if and when the child may be released to individuals other than the custodial parent in a form acceptable to the District.

SUBJECT: STUDENT DIRECTORY INFORMATION

The District shall publish an annual public notice informing parents/guardians and/or persons in parental relation or eligible students of their right to refuse the release of student directory information and indicating a time period for their response. Following such public notice and a reasonable response period, the District may release such information to an outside group without individual consent.

The Family Education Rights and Privacy Act (FERPA) defines student directory information as the following: name; address; telephone listing; date and place of birth, enrollment status (e.g. undergraduate or graduate, full time or part time); major field of study; grade level; participation in officially recognized activities and sports; weight and height (if members of athletic teams); dates of attendance; honors, degrees and awards received; electronic mail address; photograph; and the name of the educational agency or institution most recently previously attended by the student.

SUBJECT: MILITARY RECRUITERS' ACCESS TO SECONDARY SCHOOL STUDENTS AND INFORMATION ON STUDENTS

In compliance with the Elementary and Secondary Education Act of 1965, as amended by the No Child Left Behind Act of 2001 (NCLB); and the National Defense Authorization Act, and in accordance with the Family Educational Rights and Privacy Act (FERPA), the School District shall comply with a request by a military recruiter for secondary students' names, addresses, and telephone listings, **unless a parent/guardian and/or person in parental relation has "opted out" of providing such information.**

Further, in compliance with the NCLB, the District shall give military recruiters the same access to secondary school students as they provide to postsecondary institutions or to prospective employers.

Under FERPA, the School District must provide notice to parents/guardians and/or persons in parental relation of the types of student information that it releases publicly. This type of information, commonly referred to as "directory information," which is released by the District includes -- but is not limited to -- such items as students' names, addresses, and telephone listings. The notice must include an explanation of a parent's/guardian's and/or persons in parental relation right to request that the information not be disclosed without prior written parental consent; and further requires that parents/guardians and/or persons in parental relation be notified that the School District routinely discloses students' names, addresses and telephone listings to military recruiters upon request, subject to a parent's/guardian's and/or persons in parental relation request not to disclose such information without written parental consent.

A single notice provided through a mailing, student handbook, or other method that is reasonably calculated to inform parents/guardians and/or persons in parental relation of the above information is sufficient to satisfy the parental notification requirements of both FERPA and the NCLB. The notification shall advise the parent/guardian and/or person in parental relation of how to opt out of the public, non-consensual disclosure of directory information and the method and timeline within which to do so.

If a parent/guardian and/or person in parental relation opts out of providing directory information (or any subset of such information) to third parties, the opt-out relating to their child's name, address, or telephone listing applies to request for military recruiters as well. For example, if the opt-out states that telephone numbers will not be disclosed to the public, the District may not disclose telephone numbers to military recruiters.

The Superintendent/designee shall ensure that appropriate notification is provided to parents/guardians and/or persons in parental relation informing them of their right to opt-out of the release of designated directory information without prior written parental consent.

SUBJECT: STUDENT DATA BREACHES

A student data breach is defined as any instance in which there is an unauthorized release of or access to personally identifiable information (PII) or other protected information of students not suitable for public release.

School districts have a legal responsibility to protect the privacy of education data, including personally identifiable information (PII) of its students. The Family Education Rights and Privacy Act of 1974, commonly known as FERPA, protects the privacy of student education records. Although FERPA does not include specific data breach notification requirements, it does protect the confidentiality of education records and requires districts to record each incident of data disclosure in accordance with 34 CFR 99.32 (a)(1). In addition, under state law, direct notification of parents/guardians and/or persons in parental relation and/or affected students may be warranted depending on the type of data compromised, such as student social security numbers and/or other identifying information that could lead to identity theft.

The District has implemented privacy and security measures designed to protect student data stored in its student data management systems. These measures include reviewing information systems and data to identify where personally identifiable information is stored and used; monitoring data systems to detect potential breaches; and conducting privacy and security awareness training for appropriate staff. In the event of an alleged breach, the District will promptly take steps to validate the breach, mitigate any loss or damage and notify law enforcement if necessary.

The Superintendent will develop and implement regulations for prevention, response and notification regarding student data breaches.

Requests by parents/guardians to inspect such surveys are to be submitted to, in writing, to the building principal at least 10 days prior to the administration or distribution of any survey. Further, the District shall grant a request by the parent/guardian for reasonable access to such survey within a reasonable period of time after the request is received by the District.

Requests shall be submitted by parents/guardians and/or persons in parental relation, in writing, to the building principal. The term "instructional material" means instructional content that is provided to a student, regardless of its format, including printed or representational materials, audiovisual materials, and materials in electronic or digital formats (such as materials accessible through the Internet). The term does not include academic tests or academic assessments.

- d) The administration of physical examinations or screenings that the School District may administer to a student.

Further, this law does not apply to any physical examination or screening that is permitted or required by State law, including physical examinations or screenings that are permitted without parental notification.

In the implementation of this provision regarding the administration of physical examinations or screenings that the school may administer to the student, the School District incorporates by reference Board policies that address student health services, as applicable, including but not limited to policies regarding the administration of medication, immunization of students, and student physicals.

- e) Unless mandated/authorized in accordance with Federal or State law and/or regulation, it is policy of the Board of Education, to **not permit** the collection, disclosure or use of personal information (the term "*personal information*" is defined as individually identifiable information including a student's or parent/guardian's and/or persons in parental relation's first and last name; home address; telephone number or Social Security number) collected from students for the purpose of marketing or for selling that information (or otherwise providing that information to others for that purpose), *unless otherwise exempted pursuant to law as noted below*. Questions regarding the collection, disclosure or use of personal information collected from students for such marketing purposes may be referred to the school attorney as deemed necessary by the Superintendent/designee.

This law is not intended to preempt applicable provisions of State law that require parental/guardian and/or persons in parental relation notification.

These requirements **do not apply** to the collection, disclosure or use of personal information collected from students for the exclusive purpose of developing, evaluating or providing educational products or services for, or to, students or educational institutions, such as the following:

At a minimum, the District shall provide such notice at least annually, at the beginning of the school year, and within a reasonable period of time after any substantive change in this policy.

Further, in the notification, the District shall offer an opportunity for parents/guardians and/or persons in parental relation to opt their child out of participation in the following activities:

Notification of Specific Events

In the notification, the School District shall directly notify parents/guardians and/or persons in parental relation, at least annually at the beginning of the school year, of the specific or approximate dates during the school year when the above activities are scheduled or expected to be scheduled.

General Provisions

The requirements of PPRA do not apply to a survey administered to a student in accordance with the Individuals with Disabilities Education Act (IDEA). Further, PPRA does not supersede any of the requirements of FERPA.

SUBJECT: SCHOOL CONDUCT AND DISCIPLINE

The Board of Education acknowledges its responsibility to protect the educational climate of the District and to promote responsible student behavior. Accordingly, the Board delegates to the Superintendent the responsibility for assuring the implementation of a *Code of Conduct for the Maintenance of Order on School Property*, including school functions, which shall govern the conduct of students as well as teachers, other school personnel and visitors. The Board shall further provide for the enforcement of such Code of Conduct. The District Code of Conduct shall be developed in collaboration with student, teacher, administrator and parent organizations, school safety personnel and other personnel and shall incorporate, at a minimum, those components addressed in law and enumerated in Policy #3410 -- *Code of Conduct on School Property*. Specific components may vary as appropriate to student age, building levels, and educational needs.

In accordance with the *Code of Conduct on School Property*, areas addressing student conduct and behavior will further utilize the following strategies in promoting acceptable student behavior:

- a) A bill of rights and responsibilities of students that focuses upon positive student behavior, and is publicized and explained to all students on an annual basis;
- b) A Code of Conduct for student behavior setting forth prohibited student conduct and the range of penalties that may be imposed for violation of such Code, that is publicized and disseminated to all students and parents/guardians and/or persons in parental relation on an annual basis pursuant to law;
- c) Strategies and procedures for the maintenance and enforcement of public order on school property that shall govern the conduct of all persons on school premises, in accordance with Section 2801 of the Education Law and accepted principles of due process of law;
- d) Procedures within each building to involve student service personnel, administrators, teachers, parents/guardians and/or persons in parental relation and students in the early identification and resolution of discipline problems. For students identified as having disabilities, procedures are included for determining when a student's conduct shall constitute a reason for referral to the Committee on Special Education for review and modification, if appropriate, of the student's individualized education program;
- e) Alternative educational programs appropriate to individual student needs;
- f) Disciplinary measures for violation of the school policies developed in accordance with subparagraphs b) and c) of this paragraph. Such measures shall be appropriate to the seriousness of the offense and, where applicable, to the previous disciplinary record of the student. Any suspension from attendance upon instruction may be imposed only in accordance with Section 3214 of the Education Law; and
- a) Guidelines and programs for in-service education for all District staff to ensure effective implementation of school policy on school conduct and discipline.

SUBJECT: LOSS OR DESTRUCTION OF DISTRICT PROPERTY OR RESOURCES

The District is authorized to seek restitution, through civil action when necessary, from the parent/guardian and/or persons in parental relation of an unemancipated student over the age of ten (10) and under the age of eighteen (18) where such student:

- a) Has willfully, maliciously or unlawfully damaged, defaced or destroyed real or personal property in the care, custody and/or ownership of the District; or
- b) Has knowingly entered or remained in a District building, and wrongfully taken, obtained or withheld personal property owned or maintained by the District.

In instances where the District has sought and obtained a judgment from a court of competent jurisdiction, parent/guardian and/or persons in parental relation liability for civil damages shall not exceed five thousand dollars (\$5,000). Under certain circumstances, prior to the entering of a judgment in the sum total of five hundred dollars (\$500) or more, a court may consider the parent's/guardian's and/or persons in parental relation's financial inability to pay any portion or all of the amount of damages which are in excess of five hundred dollars (\$500), and enter a judgment in an amount within the financial capacity of the parent/guardian and/or persons in parental relation. However, no such judgment shall be entered for an amount which is less than five hundred dollars (\$500).

False Reporting of an Incident and/or Placing a False Bomb

A School District is also authorized to seek restitution, as described in law, from a parent/guardian and/or persons in parental relation of an unemancipated student over the age of ten (10) and under the age of eighteen (18) where such student:

- a) Has falsely reported an incident; or
- b) Has placed a false bomb as defined in the New York State Penal Law.

Damages for falsely reporting an incident or placing a false bomb shall mean the funds reasonably expended by the School District in responding to such false report of an incident or false bomb, less the amount of any funds which have been or will be recovered from any other source as enumerated in law.

In seeking restitution, the School District shall file with the court, district attorney and defense counsel an affidavit stating that the funds reasonably expended for which restitution is being sought have not been and will not be recovered from any other source or in any other civil or criminal proceeding, except as provided for pursuant to General Obligations Law Section 3-112.

SUBJECT: STUDENT DRESS CODE

The responsibility for the dress and appearance of students shall rest with individual students and parents/guardians and/or persons in parental relation. They have the right to determine how the student shall dress, provided that such attire does not interfere with the operation of the school or infringe upon the general health, safety and welfare of District students or employees. Student dress and appearance must be in accordance with the District Code of Conduct. The administration is authorized to take action in instances where individual dress does not meet these stated requirements.

While the school administration may require students participating in physical education classes to wear certain types of clothing such as sneakers, socks, shorts and tee shirts, they may not prescribe a specific brand which students must wear.

This policy does not mean that student, faculty or parent groups may not recommend appropriate dress for school or special occasions. It means that a student shall not be prevented from attending school or a school function, or otherwise be discriminated against, so long as his/her dress and appearance meet the above requirements.

SUBJECT: SUSPENSION OF STUDENTS

The Superintendent and/or the principal may suspend the following students from required attendance upon instruction:

- a) A student who is insubordinate or disorderly; or
- b) A student who is violent or disruptive; or
- c) A student whose conduct otherwise endangers the safety, morals, health or welfare of others.

When a student has been suspended and is of compulsory attendance age, immediate steps shall be taken to provide alternative instruction which is of an equivalent nature to that provided in the student's regularly scheduled classes.

Suspension: Five Days or Less

The Superintendent and/or the principal of the school where the student attends shall have the power to suspend a student for a period not to exceed five (5) school days. In the absence of the principal, the designated "Acting Principal" may then suspend a student for a period of five (5) school days or less.

When the Superintendent or the principal (the "suspending authority") proposes to suspend a student for five (5) school days or less, the suspending authority shall provide the student with **notice** of the charged misconduct. If the student denies the misconduct, the suspending authority shall provide an **explanation** of the basis for the suspension.

When suspension of a student for period of five (5) school days or less is proposed, administration shall also immediately notify the parent/guardian and/or person in parental relation in writing that the student *may be* suspended from school.

Written notice shall be provided by personal delivery, express mail delivery, or equivalent means reasonably calculated to assure receipt of such notice within twenty-four (24) hours of the decision to propose suspension at the last known address or addresses of the parents/guardians and/or persons in parental relation. Where possible, notification shall also be provided by telephone if the school has been provided with a telephone number(s) for the purpose of contacting parents/guardians and/or persons in parental relation.

(continued)

SUBJECT: SUSPENSION OF STUDENTS *(continued)*

The notice shall provide a description of the incident(s) for which suspension is proposed and shall inform the student and the parent/guardian and/or person in parental relation of their right to request an immediate informal conference with the principal in accordance with the provisions of Education Law Section 3214(3)(b). Both the notice and the informal conference shall be in the dominant language or mode of communication used by the parents/guardians and/or persons in parental relation. At the informal conference, the student and/or parent/guardian and/or person in parental relation shall be authorized to present the student's version of the event and to ask questions of the complaining witnesses.

The notice and opportunity for informal conference shall take place **prior to** suspension of the student unless the student's presence in the school poses a continuing danger to persons or property or an ongoing threat of disruption to the academic process, in which case the notice and opportunity for an informal conference shall take place as soon after the suspension as is reasonably practical.

Teachers shall immediately report or refer a violent student to the principal or Superintendent for a violation of the *District's Code of Conduct* and a minimum suspension period.

Suspension: More Than Five School Days

In situations where the Superintendent determines that a suspension in excess of five (5) school days may be warranted, the student and parent/guardian and/or person in parental relation, upon reasonable notice, shall have had an opportunity for a fair hearing. At the hearing, the student shall have the right of representation by counsel, with the right to question witnesses against him/her, and the right to present witnesses and other evidence on his/her behalf.

Where the basis for the suspension is, in whole or in part, the possession on school grounds or school property by the student of any firearm, rifle, shotgun, dagger, dangerous knife, dirk, razor, stiletto or any of the weapons, instruments or appliances specified in Penal Law Section 265.01, the hearing officer or Superintendent shall not be barred from considering the admissibility of such weapon, instrument or appliance as evidence, notwithstanding a determination by a court in a criminal or juvenile delinquency proceeding that the recovery of such weapon, instrument or appliance was the result of an unlawful search or seizure.

(continued)

SUBJECT: SUSPENSION OF STUDENTS *(continued)*

Minimum Periods of Suspension

Pursuant to law, Commissioner's Regulations and the *District's Code of Conduct*, minimum periods of suspension shall be provided for the following prohibited conduct, subject to the requirements of federal and state law and regulations:

- a) Consistent with the federal Gun-Free Schools Act, any student who is determined to have brought a weapon to school shall be suspended for a period of not less than one (1) calendar year. However, the Superintendent has the authority to modify this suspension requirement on a case-by-case basis.
- b) A minimum suspension period for students who repeatedly are substantially disruptive of the educational process or substantially interfere with the teacher's authority over the classroom, provided that the suspending authority may reduce such period on a case-by-case basis to be consistent with any other state and federal law. The definition of "repeatedly is substantially disruptive of the educational process or substantially interferes with the teacher's authority" shall be determined in accordance with the Regulations of the Commissioner.
- c) A minimum suspension period for acts that would qualify the student to be defined as a violent student pursuant to Education Law Section 3214(2-a)(a), provided that the suspending authority may reduce such period on a case-by-case basis to be consistent with any other state and federal law.

Suspension of Students with Disabilities

Generally, should a student with a disability infringe upon the established rules of the schools, disciplinary action shall be in accordance with procedures set forth in the *District's Code of Conduct* and in conjunction with applicable law and the determination of the Committee on Special Education (CSE).

If suspension or removal from the current educational placement constitutes a disciplinary change in placement because it is for more than ten (10) consecutive school days or constitutes a pattern because the suspensions cumulate to more than ten school days in a school year, the Committee on Special Education shall conduct a review of the relationship between the child's disability and the behavior subject to the disciplinary action.

(continued)

SUBJECT: SUSPENSION OF STUDENTS *(continued)*

If it is determined, as a result of this review, that the student's behavior is not a manifestation of his/her disability, the relevant disciplinary procedures applicable to students without disabilities may be applied to the student in the same manner in which they would be applied to students without disabilities, subject to the right of the parent/guardian and/or person in parental relation to request a hearing objecting to the manifestation determination and the District's obligation to provide a free, appropriate public education to such student.

Additionally, the District may seek an order from a hearing officer for a change in placement of a student with a disability to an appropriate interim alternative educational setting for up to forty-five (45) days if the District establishes, in accordance with law, that such student is substantially likely to injure himself/herself or others.

If it is determined that the student's behavior is a manifestation of his/her disability, the student may not be removed from the current placement unless in accordance with law. The student shall be referred to the CSE for program modification.

Suspension From BOCES

The BOCES principal may suspend School District students from BOCES classes for a period not to exceed five (5) school days when student behavior warrants such action.

In-School Suspension

In-school suspension will be used as a lesser discipline to avoid an out-of-school suspension. The student shall be considered present for attendance purposes. The program is used to keep each student current with his/her class work while attempting to reinforce acceptable behavior, attitudes and personal interaction.

BOCES Activities

BOCES activities, like field trips and other activities outside the building itself, are considered an extension of the school program. Therefore, an infraction handled at BOCES is to be considered as an act within the School District itself.

A student who is ineligible to attend a District school on a given day may also be ineligible to attend BOCES classes. The decision rests with the Superintendent or his/her designee.

(continued)

SUBJECT: SUSPENSION OF STUDENTS *(continued)*

Exhaustion of Administrative Remedies

If a parent/guardian and/or person in parental relation wishes to appeal the decision of the building principal and/or Superintendent to suspend a student from school, regardless of the length of the student's suspension, the parent/guardian and/or person in parental relation must appeal to the Board of Education prior to commencing an appeal to the Commissioner of Education.

SUBJECT: STUDENT USE OF COMPUTERIZED INFORMATION RESOURCES

We are pleased to offer students of the schools access to the district computer network for internet and email for classroom use. Students will have access to the internet through passive parent/guardian and/or person in parental relation consent unless otherwise requested.

Access to the internet will enable students to explore thousands of libraries, databases and bulletin boards while exchanging messages with the internet users throughout the world. Families should be warned that some material accessible via the internet may contain items that are illegal, defamatory, inaccurate or potentially offensive to some people. Our intent is to make internet access available to further educational goals and objectives. While we utilize filtering software, students may still find ways to access inappropriate materials. We believe that the benefits to students from access to the internet, in the form of information resources and opportunities for collaboration, exceed any disadvantages. But ultimately, parents/guardians and/or persons in parental relation of minors are responsible for setting and conveying the standards that their children should follow when using media and information sources.

Students are responsible for good behavior on school computer networks, just as they are in a classroom or a school hallway. Communication on the network is often public in nature. General school rules for behavior and communications apply.

The network is provided for students to conduct research and communicate with others for educational purposes. Access to network services is given to students who agree to act in a considerate and responsible manner. Within reason, freedom of speech and access to information will be honored. It is important to remember that access is a privilege, not a right, and inappropriate use will result in a cancellation of that privilege.

Network storage areas may be treated like school lockers. Network administrators may review files and communications to maintain system integrity and ensure that users are using the system responsibly. Users should not expect that files stored on district servers will always be private. Furthermore, school staff has the right, at all times, to view material students are accessing or have transmitted.

During school, teachers of younger students will guide them toward appropriate materials. Outside of school, families bear the same responsibility for such guidance as they exercise with information sources such as television, movies, radio and other potentially offensive media.

(continued)

SUBJECT: STUDENT USE OF COMPUTERIZED INFORMATION RESOURCES
(continued)

As outlined in the District Discipline Policy, the following behaviors are prohibited:

- a) Sending or displaying offensive messages or pictures;
- b) Using obscene language;
- c) Harassing, insulting or attacking others;
- d) Damaging computers, computer systems or computer networks;
- e) Violating copyright laws;
- f) Using another's password;
- g) Trespassing in another's folders, work or files;
- h) Intentionally wasting limited resources;
- i) Employing the network for commercial purposes;
- j) Personal electronic messaging that is not part of a regular class project (this includes email, chat rooms and instant message);
- k) Any communication that may be a criminal act.

By logging in to the District's Network, all users agree to abide by the rules and regulations set forth in this policy.

Violations will result in a loss of access as well as other possible disciplinary or legal actions

SUBJECT: LOCKERS

Students are not permitted to attach obscene posters or pictures to their lockers (inside or outside). They are also not to write on the inside or outside of their lockers nor to attach any other items to the locker deemed inappropriate by the principal.

Locks will be provided by the school and it is strongly recommended that lockers be secured at all times. The district will not be held liable for materials stolen out of a student's locker.

Lockers are considered school property and are provided for the convenience and use of students. As school property, school staff have the right to access said property

SUBJECT: ALCOHOL, TOBACCO, DRUGS AND OTHER SUBSTANCES (STUDENTS)

The Board of Education recognizes that the illegal use of drugs, alcohol and/or tobacco is a serious problem with legal, physical, emotional and social implications for the entire community. Therefore, the consumption, sharing and/or selling, use and/or possession of alcoholic beverages, tobacco products, illegal drugs, counterfeit and designer drugs, or paraphernalia for the use of such drugs is prohibited at any school-sponsored event or on school property at all times. The inappropriate use of prescription and over-the-counter drugs shall also be disallowed. Persons shall be banned from entering school grounds or school-sponsored events when exhibiting behavioral, personal or physical characteristics indicative of having used or consumed alcohol or other substances.

Through the collaborative efforts of staff, students, parents/guardians and/or persons in parental relation and the community as a whole, a comprehensive program shall be developed addressing alcohol, tobacco, drugs and other substances to include the following elements:

Primary Prevention

Preventing or delaying alcohol, tobacco, drugs and other substance use/abuse by students shall be the major focus of a comprehensive K through 12 program in which proactive measures of prevention and early intervention are emphasized. This program shall include:

- a) A sequential K through 12 curriculum based on recognized principles of effectiveness that is developed and incorporated into the total educational process. This curriculum shall be concerned with education and prevention in all areas of alcohol, tobacco, drugs and other substances uses/abuse;
- b) Information will be provided to school personnel and parents/guardians and/or persons in parental relation to reinforce the components of the policy through in-service and community education programs with up-to-date factual information and materials.
- c) An effort to provide positive alternatives to alcohol, tobacco, drugs and other substances use/abuse through the promotion of drug/tobacco/alcohol-free special events, service projects and extracurricular activities that will develop and support a positive peer influence.

Intervention

School-based intervention services are made available to all students, grades K through 12, and provided by prevention professionals who are appropriately trained in this area. The purpose of intervention is to eliminate any existing use/abuse of alcohol, tobacco, drugs and other substances and to identify students considered to be at risk for use/abuse.

(continued)

SUBJECT: ALCOHOL, TOBACCO, DRUGS AND OTHER SUBSTANCES (STUDENTS)
(continued)

The District will pursue a number of intervention strategies to eliminate the use of alcohol, tobacco, drugs and other illegal substances by students.

Disciplinary Measures

Disciplinary measures for students consuming, sharing and/or selling, using and/or possessing alcoholic beverages, tobacco products, illegal drugs, counterfeit and designer drugs, or paraphernalia for the use of such drugs shall be outlined in the District's Code of Conduct.

Staff Development

There shall be ongoing training of District staff about the components of an effective alcohol, tobacco and other substances program. Training shall include, but not be limited to, District policies and regulations and the staff's role in implementing such policies and regulations. Teachers shall be trained to implement the District's K through 12 alcohol, tobacco and other substance prevention curricula; intervention staff shall be suitably trained to carry out appropriate services.

Implementation, Dissemination and Monitoring

It shall be the responsibility of the Superintendent to implement the alcohol, tobacco, drugs and other substances Board policy by collaboration with school personnel, students, parents/guardians and/or persons in parental relation and the community at large.

Additionally, copies of Board policy shall be disseminated to District staff, parents/guardians and/or persons in parental relation and community members. The Superintendent/designee shall periodically review the drug and alcohol abuse prevention program to determine its effectiveness and support appropriate modifications, as needed.

SUBJECT: SEARCHES AND INTERROGATIONS

Students are protected by the Constitution from unreasonable searches and seizures. A student and/or a student's property may be searched and contraband seized on school grounds or in a school building by a School District employee only when the School District employee has reasonable suspicion to believe the student is engaging in proscribed activity which is in violation of school rules and/or illegal.

Factors to be considered in determining whether reasonable suspicion exists to search a student include:

- a) The age of the student;
- b) The student's record and past history;
- c) The predominance and seriousness of the problem in the school where the search is directed; and
- d) The urgency to conduct the search without delay.

If reasonable suspicion exists to believe that a student possesses a weapon, it is permissible for a School District employee to search that student and/or a student's property.

Lockers

Lockers are provided by the school for student use and the administration has the right to search lockers. A student may have exclusive use of a locker as far as other students are concerned but he/she does not have such exclusivity over the locker as it relates to the school authorities.

Questioning of Students by School Officials

School officials have the right to question students regarding any violations of school rules and/or illegal activity. In general, administration may conduct investigations concerning reports of misconduct which may include, but are not limited to, questioning students, staff, parents/guardians and/or persons in parental relation, or other individuals as may be appropriate and, when necessary, determining disciplinary action in accordance with applicable due process rights.

Should the questioning of students by school officials focus on the actions of one particular student, the student will be questioned, if possible, in private by the appropriate school administrator. The student's parent/guardian and/or persons in parental relation may be contacted; the degree, if any, of parental/guardian and/or persons in parental relation involvement will vary depending upon the nature and the reason for questioning, and the necessity for further action which may occur as a result.

(continued)

SUBJECT: SEARCHES AND INTERROGATIONS *(continued)*

The questioning of students by school officials does not preclude subsequent questioning/interrogations by police authorities as otherwise permitted by law. Similarly, the questioning of students by school officials does not negate the right/responsibility of school officials to contact appropriate law enforcement agencies, as may be necessary, with regard to such statements given by students to school officials.

School officials acting alone and on their own authority, without the involvement of or on behalf of law enforcement officials (at least until after the questioning of students by school authorities has been conducted) are not required to give the so-called "Miranda warnings" (i.e., advising a person, prior to any custodial interrogations as defined in law, of the right to remain silent; that any statement made by the individual may be used as evidence against him/her; and that the individual has the right to the presence of an attorney, either retained or appointed) prior to the questioning of students.

If deemed appropriate and/or necessary, the Superintendent/designee may also review the circumstances with School District legal counsel so as to address concerns and the course of action, if any, which may pertain to and/or result from the questioning of students by school officials.

Law Enforcement Officials

It shall be the policy of the Southern Cayuga Central School District that a cooperative effort shall be maintained between the school administration and law enforcement agencies. Law enforcement officials may be summoned to conduct an investigation of alleged criminal conduct on school premises or during a school-sponsored activity, or to maintain the educational environment. They may also be summoned for the purpose of maintaining or restoring order when the presence of such officers is necessary to prevent injury to persons or property.

Administrators have the responsibility and the authority to determine when the assistance of law enforcement officers is necessary within their respective jurisdictions. The School District's administrators shall at all times act in a manner that protects and guarantees the rights of students and parents/guardians and/or persons in parental relation.

(continued)

SUBJECT: SEARCHES AND INTERROGATIONS *(continued)***Interrogation of Students by Law Enforcement Officials**

If police are involved in the questioning of students on school premises, whether or not at the request of school authorities, it will be in accordance with applicable law and due process rights afforded students. Generally, police authorities may only interview students on school premises without the permission of the parent/guardian and/or persons in parental relation in situations where a warrant has been issued for the student's arrest (or removal). Police authorities may also question students for general investigations, general questions regarding crimes committed on school property. In all other situations, unless an immediate health or safety risk exists, if the police wish to speak to a student without a warrant they should take the matter up directly with the student's parent/guardians and/or persons in parental relation.

Whenever police wish to question a student on school premises, administration will attempt to notify the student's parent/guardian and/or persons in parental relation.

SUBJECT: BUS RULES AND REGULATIONS

The Southern Cayuga Central School District furnishes transportation to those students whose disability or distance from the school make the service essential. Except as otherwise mandated in a student's Individualized Education Program (IEP), riding these buses is a privilege and may be withdrawn if the student does not comply with the rules and regulations set forth in this District.

Students riding school buses are expected to conform to the rules of conduct to permit the bus driver to transport his/her passengers safely.

The Board of Education, the Superintendent and/or his/her designee has the authority to suspend the transportation privileges of children who are disorderly and insubordinate on buses. In these cases, the parents/guardians and/or persons in parental relation of the children involved become responsible for seeing that their children get to and from school safely.

Bus drivers shall be held responsible for reasonable and acceptable behavior of students while riding the school bus.

The Board directs the administration to establish rules and regulations for student conduct on buses, including applicable due process rights to be afforded students suspended from transportation privileges. These rules and regulations shall be promulgated to all concerned, including the non-public schools to which students are transported.

SUBJECT: CORPORAL PUNISHMENT

Corporal punishment as a means of discipline shall not be used against a student by any teacher, administrator, officer, employee or agent of this School District.

However, if alternative procedures and methods which would not involve physical force do not work, then the use of reasonable physical force is not prohibited for the following reasons:

- a) Self-protection;
- b) Protection of others;
- c) Protection of property; or
- d) Restraining/removing a disruptive student.

Whenever a school employee uses physical force against a student, the school employee shall, within the same school day, make a report to the Superintendent describing in detail the circumstances and the nature of the action taken.

The Superintendent of Schools shall submit a written report semi-annually to the Commissioner of Education, with copies to the Board of Education, by January 15 and July 15 of each year, setting forth the substance of each written complaint about the use of corporal punishment received by the Southern Cayuga Central School District authorities during the reporting period, the results of each investigation, and the action, if any, taken by the school authorities in each case.

SUBJECT: WEAPONS IN SCHOOL AND THE GUN-FREE SCHOOLS ACT

Weapons in School

The possession of a weapon on school property, in District vehicles, in school buildings or at school sponsored activities or settings under the control and supervision of the District regardless of location, is strictly prohibited, except by law enforcement personnel. Any person possessing a weapon for educational purposes in any school building must have written authorization of the Superintendent of Schools or his/her designee.

The Penal Code of the State of New York shall be used to determine what is considered a weapon. Penal Law Sections 265.01-265.06

Specific Penalties Imposed by the Gun-Free Schools Act

No student shall bring or possess any "firearm" as defined in federal law on school premises (including school buildings and grounds, District vehicles, school settings and/or school sponsored activities under the control and supervision of the District regardless of location). For purposes of this policy, the term "firearm" includes any weapon (including a starter gun) which will or is designed to or may readily be converted to expel a projectile by the action of an explosive; the frame or receiver of such weapon; any firearm muffler or silencer; or any "destructive device" (e.g., any explosive, incendiary, or poison gas, including bombs, grenades, rockets or other similar devices). The term does not include a rifle which the owner intends to use solely for sporting, recreational or cultural purposes; antique firearms; or Class C common fireworks.

In accordance with the Gun-Free Schools Act Section 3214(3)(d) of the Education Law, any student who brings or possesses a firearm, as defined in federal law, on school property, will be referred by the Superintendent to the appropriate agency or authority for a juvenile delinquency proceeding in accordance with Article 3 of the Family Court Act when the student is under the age of sixteen (16) except for a student fourteen (14) or fifteen (15) years of age who qualifies for juvenile offender status under the Criminal Procedure Law, and will be referred by the Superintendent to the appropriate law enforcement officials when the student is sixteen (16) years of age or older or when the student is fourteen (14) or fifteen (15) years of age and qualifies for juvenile offender status under the Criminal Procedure Law.

In addition, any student attending a District school who has been found guilty of bringing a firearm to or possessing a firearm on school property, after a hearing has been provided pursuant to Section 3214 of the Education Law, shall be suspended for a period of not less than one (1) calendar year and any student attending a non-district school who participates in a program operated by the School District using funds from the Elementary and Secondary Education Act of 1965 who is determined to have brought a firearm to or possessed a firearm at a District school or on other premises used by the School District to provide such programs shall be suspended for a period of not less than one (1) calendar year from participation in such program.

(continued)

SUBJECT: WEAPONS IN SCHOOL AND THE GUN-FREE SCHOOLS ACT *(continued)*

The procedures of Education Law Section 3214(3) shall apply to such a suspension of a student attending a non-district school. Further, after the imposition of the one (1) year penalty has been determined, the Superintendent of Schools has the authority to modify this suspension requirement for each student on a case-by-case basis. In reviewing the student's one (1) year suspension penalty, the Superintendent may modify the penalty based on factors as set forth in Section 100.2 of the Regulations of the Commissioner of Education and in Commissioner's Decisions. The determination of the Superintendent shall be subject to review by the Board of Education in accordance with Education Law Section 3214(3)(c) and by the Commissioner of Education in accordance with Education Law Section 310.

Student with a Disability

A student with a disability who is determined to have brought a firearm to school or possessed a firearm at school may be placed in an interim alternative educational setting, in accordance with federal and state law, for not more than forty-five (45) calendar days. If the parent/guardian and/or persons in parental relation requests an impartial hearing, the student must remain in the interim alternative placement until the completion of all proceedings, unless the parent/guardian and/or persons in parental relation and District can agree on a different placement.

A student with a disability may be given a long term suspension pursuant to the Gun-Free Schools Act only if a group of persons knowledgeable about the student, as defined in federal regulations implementing the IDEA, determines that the bringing of a firearm to school or possessing a firearm at school was not a manifestation of the student's disability, subject to applicable procedural safeguards.

If it is determined that the student's bringing of a firearm to school or possessing a firearm at school was a manifestation of the student's disability, the Superintendent must exercise his/her authority under the Gun-Free Schools Act to modify the long term suspension requirement, and determine that the student may not be given a long term suspension for the behavior. The Committee on Special Education may review the student's current educational placement and initiate change in placement proceedings, if appropriate, subject to applicable procedural safeguards.

The District may offer home instruction as an interim alternative educational setting during the pendency of review proceedings only if the student's placement in a less restrictive alternative educational setting is substantially likely to result in injury either to the student or to others.

(continued)

SUBJECT: WEAPONS IN SCHOOL AND THE GUN-FREE SCHOOLS ACT *(continued)*

The District may also seek a court order to immediately remove a student with a disability from school if the District believes that maintaining the student in the current educational placement is substantially likely to result in injury to the student or to others.

Students with disabilities continue to be entitled to all rights enumerated in the Individuals With Disabilities Education Act and Article 89 of the Education Law; and this policy shall not be deemed to authorize suspension of students with disabilities in violation of these laws.

This policy does not prohibit the District from utilizing other disciplinary measures including, but not limited to, out-of-school suspensions for a period of five days or less, or in-school suspensions, in responding to other types of student misconduct which infringe upon the established rules of the school. Additionally, this policy does not diminish the authority of the Board of Education to offer courses in instruction in the safe use of firearms pursuant to Education Law Section 809-a.

The District will continue to provide the suspended student who is of compulsory attendance age with appropriate alternative instruction during the period of the student's suspension.

SUBJECT: EXTRACURRICULAR ACTIVITIES

The Board of Education considers extracurricular activities to be a valuable part of the program of the school and shall support these activities within the financial means of the District.

Extracurricular activity offerings can change each year dependent upon participation numbers and availability of advisors. Budget constraints may also affect offerings. Clubs affected by these conditions may request reinstatement provided minimums are met and are within the financial means of the District.

New, never before offered activities will first be considered as a club, with adults who meet basic requirements volunteering as advisors. Sustained student participation over a period of time will be the foundation of a rationale for instating the club or activity as a regular offering and a stipend determined to remunerate the advisor. Board of Education approval is required.

Limited Open Forum

The Board of Education maintains a limited open forum where secondary students may meet for voluntary student-initiated activities unrelated directly to the instructional program, regardless of religious, political or philosophical content.

To provide "a fair opportunity" to students who wish to conduct a meeting, the Board of Education, in accordance with the provisions of the Equal Access Act, shall ensure that:

- a) The meeting is voluntary and student-initiated;
- b) There is no sponsorship of the meeting by the school, the government, or its agents or employees;
- c) Employees or agents of the school or government are present at religious meetings only in a non-participatory capacity;
- d) The meeting does not materially and substantially interfere with the orderly conduct of educational activities within the school; and
- e) Nonschool persons may not direct, conduct, control, or regularly attend activities of student groups (20 USC Section 4071[c]).

The Board prohibits student organizations whose activities may be unlawful or may cause disruption or interference with the orderly conduct of the educational process. The existence of secret societies/gangs is determined to not be in the best interest of students and the school program.

Administration is responsible for establishing regulations governing the use of school facilities by student organizations.

SUBJECT: EXTRACURRICULAR ACTIVITIES *(continued)*

Eligibility for Attendance

- a) Students who are suspended from school on a day of an athletic game or practice session, party, school dance, or other school affair scheduled after regular school hours are not eligible for participation or attendance at such events.

- b) Daily School Attendance
 - A student must be in attendance for the full day on the day of the event to participate in any extra-curricular activity. An exception would be a school-recognized excused absence or exceptional circumstances as approved by the building principal. If the student is late to school without an excused reason more than three (3) times (per season or event), he/she may not be able to participate in an event, practice and/or game. The student may attend the event, practice and/or game.
 - For weekend/holiday activities, a student must be in attendance for the last scheduled school day prior to the activity.
 - Students must attend all classes including full participation in physical education. The teacher, coach or principal will consider extenuating circumstances regarding class participation on an individual basis.
 - Students are expected to maintain good attendance the day following a school activity.
 - Athletes suspended in-school or out-of-school for any disciplinary infraction will not be allowed to attend, practice or participate in any contest until reinstated back to school.

SUBJECT: CENSORSHIP OF SCHOOL SPONSORED STUDENT PUBLICATIONS AND ACTIVITIES**Student Publications**

Students shall enjoy the constitutional right of freedom of expression. They shall have the right to express their views in speech, writing, or through any other medium or form, limited solely by those restrictions imposed on all citizens generally and those specifically applicable to children and youth in a school setting.

The Board of Education encourages student publications not only because they offer an educational activity through which students gain experience in reporting, writing, editing, and understanding responsible journalism, but also because they provide an opportunity for students to express their views and a means of communicating both with and beyond the school community.

All student publications will comply with the rules for responsible journalism. Libelous statements, unfounded charges and accusations, obscenity, false statements, materials advocating racial or religious prejudice, hatred, violence, the breaking of laws and school regulations, or materials designed to disrupt the educational process will not be permitted. Expressions of personal opinion must be clearly identified as such, and bear the name of the author. Opportunity for the expression of opinions differing from those of the student publishers must be provided.

In addition, student newspapers and/or publications which are paid for by the school district and/or produced under the direction of a teacher as part of the school curriculum are not considered a public forum. In such cases the Board reserves the right to edit or delete such student speech which it feels is inconsistent with the district's basic educational mission.

Distribution of Literature

Students have a right to distribute literature on school grounds and in school buildings provided such distribution does not interfere with or disrupt the educational process. No literature may be distributed unless a copy is submitted in advance to the Superintendent of Schools.

The Superintendent shall establish guidelines that are in keeping with the above and shall provide for the review of the content of all student publications prior to their distribution.

SUBJECT: ACADEMIC ELIGIBILITY FOR PARTICIPATION IN EXTRACURRICULAR ACTIVITIES

The primary goal of the Southern Cayuga Central School District is to educate the whole student, first by stimulating the student academically and then by offering a number of common experiences designed to develop the social, emotional, physical and ethical development of the individual. Extracurricular programs are designed to provide such experiences and are, therefore, considered an integral part of our educational program. These programs are, however, a privilege, and a student must maintain a good academic standing in order to earn the right to participate in these programs.

The following prohibitions and penalties deal with students involved in athletics/extracurricular activities and pertain to the entire season or duration of the activity; provided, however, that a student may be disciplined for out-of-season conduct that (1) is a criminal offense, or (2) causes such adverse notoriety and is of such a nature that it has, in the judgment of the District, the potential to negatively impact the educational program and, unless addressed, to create the impression among other students that it is condoned by the District. In either of these events, the administration may impose such penalty as it deems appropriate under the circumstances.

Elements and Procedures for the Academic Eligibility Program:

- a) Academic Eligibility will be extended to include all extracurricular activities
- b) Each advisor will produce a list of participants and submit the information to the designated administrator.

The coach or advisor will submit a list at the beginning of every season or production. Other advisors will produce a list at the beginning of the year and update it throughout the year.

- c) At the conclusion of the first six weeks of the school year, each student who is failing two (2) or more subjects will be placed on academic ineligibility for extracurricular activities for a period of three weeks. Students will be required to seek extra help in the appropriate content area. Students failing two or more courses may continue to attend practice but will not be able to participate in games/activities until their grades are appropriate. This probation will be in effect until the student has a signed document from the teacher(s) stating the student is passing all of their courses and has appropriate permission from administration. Incompletes will be considered failures until the work is completed. These failure lists will be used to determine who will be academically ineligible for the next report card.
- d) An academically ineligible student who drops a failed course after the report card is issued remains ineligible until the next report card and must meet all specified conditions.
- e) A student is academically ineligible until he/she is not failing two (2) or more courses.

SUBJECT: ACADEMIC ELIGIBILITY FOR PARTICIPATION IN EXTRACURRICULAR ACTIVITIES *(continued)*

- f) If a student is ineligible the day before a vacation, the student will remain ineligible during the vacation.

Options Available for Academically Ineligible Students

Involvement in extracurricular activities can have a positive influence on the academic achievement of students. Therefore, in order to achieve our goal of educating the whole student, a support system has been established, to assist students who are academically ineligible.

The following options will be offered to Academically Ineligible students:

Option A:

- a) The student who has been identified as academically ineligible may not practice, attend practice, attend meetings, or participate in a game, performance or field trip held after school hours.
- b) The student must go home on the 2:30 bus or leave by his/her own transportation unless he/she is getting extra help from the teacher of the subject in which the student is failing.

Option B:

- a) The student must attend a designated after school study hall on a daily basis or attend an after-school extra-help session with the teacher if the teacher is available.
- b) The student will then be eligible to practice or attend a meeting if and only if, the student provides the advisor or coach a pass indicating that the student participated in the designated study hall or obtained extra help from a classroom teacher. The student must complete the assigned work before being given a pass. The pass must be signed by the study hall teacher or the classroom teacher before the academically ineligible student may participate. The student will not be admitted without this pass.
- c) A student who cannot attend because of an emergency, a scheduled doctor's appointment, or a driver's education class must see the principal to obtain a waiver. For whatever reason, students will not be given more than one waiver per week. The student may not return for a meeting or practice.

SUBJECT: INTERSCHOLASTIC SPORTS AND THE ATHLETIC PROGRAM

Athletics are an integral part of a well balanced educational program. Therefore, the Board supports within its resources a broad sports program with equal access for both males and females, with emphasis on maximum participation, through interscholastic and intramural activity.

Athletic offerings can change each season dependent upon minimum participation numbers and availability of coaches or advisors. Budget constraints may also affect offerings. Teams affected by these conditions may request reinstatement provided minimums are met and are consistent with the District vision for athletics.

New athletic offerings will be considered if sustained student participation is demonstrated over a period of time and is aligned with the District vision for athletics. Only athletic programs, meeting the New York State Public High School Athletic Association requirements and standards, will be eligible for Board of Education consideration and for interscholastic contest scheduling.

Individual student athlete requests to participate in alternatives as a Southern Cayuga team will be referred to administration.

Intramural activities, new or already offered, require BOE approval. Adult supervision will be provided by certified personnel. Offerings can change each season dependent upon minimum participation numbers and availability of coaches or advisors. Budget constraints may also affect offerings. Activities affected by these conditions may request reinstatement provided minimums are met and are consistent with the District vision for athletics.

The interscholastic athletic program shall conform to the Regulations of the Commissioner of Education as well as the established rules of the New York State Public High Schools Athletic Association and the State Education Department.

Eligibility for interscholastic athletic competition requires that the students:

- a) Provide written parent/guardian and/or persons in parental relation consent;
- b) Pass satisfactorily the medical examination administered by the school physician or the student's personal physician. The school physician retains final approval on all physicals performed by the student's personal physician; and
- c) Meet the requirements for interscholastic competition as set forth by the Commissioner's Regulations and the New York State Public High School Athletic Association.

Athletic Placement Process

WHEREAS, Section 135.4(c) (7) (ii) (a) (4) of the Regulations of the Commissioner of Education provides for a board of education to permit pupils in grades no lower than seventh grade to compete on interscholastic athletic teams organized for senior high school pupils, or senior high school pupils to compete on interscholastic athletic teams organized for pupils in the seventh and eighth grades; and

WHEREAS, these pupils are to be allowed to compete at levels that are appropriate to their physical maturity, physical fitness and sport skills in relationship to other pupils in accordance with the standards established by the Commissioner of Education; and

WHEREAS, the State Education Department issues the competition standards for these pupils to compete under a program called the Athletic Placement Process;

THEREFORE BE IT RESOLVED that the Southern Cayuga CSD Board of Education shall permit pupils to compete after successfully completing the Athletic Placement Process for the requested sport and level.

Student Athletic Injuries

No student should be allowed to practice or play in an athletic contest if he/she is suffering from an injury. The diagnosis of and prescription of treatment for injuries is strictly a medical matter and should under no circumstances be considered within the province of the coach. A coach's responsibility is to see that injured players are given prompt and competent medical attention, and that all details of a doctor's instructions concerning the student's functioning as a team member are carried out. No student will be allowed to practice or compete if there is a question whether he/she is in adequate physical condition.

A physician's certificate may be required before an athlete is permitted to return to practice or competition.

Athletic Program - Safety

The District will take reasonable steps to see that physical risks to students participating in the interscholastic athletic program shall be kept at a minimum by:

- a) Requiring medical examinations of participants;
- b) Obtaining appropriately certified and/or licensed officials to coach all varsity, junior varsity and modified games.
- c) Ensuring that equipment is both safe and operative within approved guidelines.

Athletic Program - Regulations

The athletic program shall maintain a handbook of rules and regulations for coaches and student participation.

Contests for Students

Distribution of educational material, essay contests, and poster contests must be approved in advance by the building principals if the sponsoring organization wishes to involve students in the project on school time. Samples of informational material should accompany the request. Upon the judgment of the principal, the request may be forwarded to the Superintendent and the Board of Education for approval.

Student Awards and Scholarships

The School District may obtain and award to its students awards and scholarships. The Board of Education, having been entrusted by law, will hold in trust gifts, grants, bequests and legacies given or bequeathed to the Southern Cayuga Central School District and shall apply the same and/or their interest and proceeds according to the instruction of the donors and according to the procedures established by the administration.

Awards and/or scholarships that are to be continued annually and are awards or scholarships of fifty dollars (\$50) or more, may, at the request of the donating person or organization, be deposited in the School's Trust and Agency Fund. Prior to the establishment of such an account, it will be necessary for the donating person or organization to define the criteria for the selection of the recipient.

SUBJECT: IMMUNIZATION OF STUDENTS

Every child entering or attending a District school must present proof of immunization or proof of immunity by serology (blood test) if applicable unless a New York State licensed physician certifies that the immunization is detrimental to the child's health. The requirement for that immunization is waived until the immunization is no longer detrimental to the child's health.

Except for this exemption, the District may not permit a child lacking evidence of immunization to remain in school for more than 14 days, or more than 30 days for an out-of-state or out-of-country transferee who can show a good faith effort to get the necessary certification or other evidence of immunization.

The administration will notify the local health authority of the name and address of excluded children and provide the parent or person in parental relation a statement of his or her duty regarding immunization as well as a consent form prescribed by the Commissioner of Health. The school will cooperate with the local health authorities to provide a time and place for the immunization of these children.

For homeless children, the enrolling school must immediately refer the parent or guardian of the child to the District's homeless liaison, who must assist them in obtaining the necessary immunizations, or immunization or medical records.

The District will provide an annual summary of compliance with immunization requirements to the Commissioner of Health.

SUBJECT: ADMINISTRATION OF MEDICATION

The school's registered professional nurse may administer medication to a student during the school day under certain conditions. For the purpose of this policy, the term "medication" includes both prescription and non-prescription medications. The school must receive the following before medication will be administered to a student:

- a) The original written order from the student's provider stating the name of the medication, precise dosage, frequency, and time of administration;
- b) A written, signed consent from the student's parent/guardian and/or person in parental relation requesting the administration of the medication, as prescribed by the physician, to the student in school; and
- c) The medication, properly labeled in its original container, must be delivered to the school health office by the student's parent/guardian and/or person in parental relation. The term "properly labeled," in the context of this policy, means that the container must include the following information: the student's name, name of medication, dosage, frequency and prescribing physician. A student is not permitted to carry any medication on his/her person in school, or on the school bus, or keep any medication in his/her school locker(s). Exceptions may apply, however, for students diagnosed with asthma or other respiratory illnesses, diabetes or allergies who will be permitted to carry and self-administer medication under certain conditions.

All medication orders must be reviewed annually by school health office personnel or whenever there is a change in dosage.

Self-Administration of MedicationGenerally

Each student who is permitted to self-administer medication should have an emergency care plan on file with the District. Further, the school will maintain a record of all written parental/guardian and/or persons in parental relation consents in the student's cumulative health record.

School health office personnel will also maintain regular parental contact to monitor the effectiveness of such self-medication procedures and to clarify parental/guardian and/or persons in parental relation responsibility as to the daily monitoring of their child to ensure that the medication is being utilized in accordance with the physician's or provider's instructions. Additionally, the student will be required to report to the health office on a periodic basis as determined by health office personnel so as to maintain an ongoing evaluation of the student's management of such self-medication techniques, and to work cooperatively with the parents/guardians and/or persons in parental relation and the student regarding such self-care management.

(continued)

SUBJECT: ADMINISTRATION OF MEDICATION *(continued)*

Students who self-administer medication without proper authorization will be referred for counseling by school nursing personnel, as appropriate. Additionally, school administration and parents/guardians and/or persons in parental relations will be notified of such unauthorized use of medication by the student, and school administration may determine the proper resolution of this behavior.

Students with asthma or another respiratory disease

A student will be permitted to carry and self-administer their prescribed inhaled rescue medication during the school day, on school property, and at any school function if the school health office has the following on file:

- a) Written order/permission and an attestation from a duly authorized health care provider stating that the student has a diagnosis of asthma or other respiratory disease for which inhaled rescue medications are prescribed to alleviate respiratory symptoms or to prevent the onset of exercise induced asthma; the student has demonstrated that he/she can self-administer the prescribed medication effectively; and the expiration date of the order, the name of the prescribed medication, the dose the student is to self-administer, times when the medication is to be self-administered, and the circumstances which may warrant the use of the medication; and
- b) Written consent from the student's parent/guardian and/or person in parental relation.

Upon written request of the student's parent/guardian and/or person in parental relation, the school will allow the student to maintain an extra inhaled rescue medication in the care and custody of the school's registered professional nurse, nurse practitioner, physician assistant or school physician.

Students with AllergiesUse of Epinephrine Auto-Injector Devices (Epi-Pens) in the School Setting

The administration of epinephrine by epi-pen to a student with a known severe allergy needing an anaphylactic treatment agent may be performed by a school staff member responding to an emergency situation when such use has been prescribed by a licensed prescriber. However, a registered professional nurse/nurse practitioner/physician/physician's assistant *must* have trained the staff member to administer the epi-pen for that emergency situation and given him/her approval to assist the student in the event of an anaphylactic reaction.

Documentation of training must be maintained in the Anaphylaxis Protocol for Non-Licensed School Staff Members for each affected student. The emergency response by non-licensed school staff members is permitted under the Medical Practice Act (Education Law Section 6527(4)(a)) and the Nurse Practice Act (Education Law Section 6908 (1)(a)(iv)) and is covered by the "Good Samaritan Law" (Public Health Law Section 3000-a).

A student will be permitted to carry and self-administer his/her prescribed EpiPen during the school day, on school property, and at any school function if the school health office has the following on file:

(continued)

SUBJECT: ADMINISTRATION OF MEDICATION *(continued)*

- a) Written order/permission and an attestation from a duly authorized health care provider stating that the student has a diagnosis of an allergy for which an EpiPen is needed for the emergency treatment of allergic reactions; the student has demonstrated that he/she can self-administer the prescribed EpiPen effectively; and the expiration date of the order, the name of the medicine, the dose the student is to self-administer, and the circumstances which may warrant the use of the medication; and
- b) Written consent from the student's parent/guardian and/or person in parental relation.

Upon written request of the student's parent/guardian and/or person in parental relation, the school will allow the student to maintain an extra EpiPen in the care and custody of a licensed nurse, nurse practitioner, physician assistant, or school physician.

Students with Diabetes

A student will be permitted to carry and self-administer his/her prescribed insulin through an appropriate medication delivery device, carry glucagon and carry and use equipment and supplies necessary to check blood glucose and/or ketone levels during the school day, on school property and at any school function if the school health office has the following on file:

- a) Written order/permission and an attestation from a duly authorized health care provider stating that the student has a diagnosis of diabetes for which insulin and glucagon through appropriate medication delivery devices, and the use of equipment and supplies to check blood glucose and/or ketone levels are necessary; the student has demonstrated that he/she she can self-administer effectively, can self-check glucose or ketone levels independently, and can independently follow prescribed treatment orders; and the expiration date of the order, the name of the prescribed insulin or glucagon, the type of insulin delivery system, the dose of insulin and/or glucagon the student is to self-administer, times when the insulin and/or glucagon is to be self-administered, and the circumstances which may warrant administration by the student. The written permission must also identify the prescribed blood glucose and/or ketone test, the times testing is to be done, and any circumstances which warrant checking a blood glucose and/or ketone level.
- b) Written consent from the student's parent/guardian and/or person in parental relation.

Upon written request of the student's parent/guardian and/or person in parental relation, the school will allow the student to maintain extra insulin, insulin delivery system, glucagon, blood glucose meter, and related supplies to treat the student's diabetes in the care and custody of a licensed nurse, nurse practitioner, physician assistant, or school physician.

Students with diabetes will also be permitted to carry food, oral glucose or other similar substances necessary to treat hypoglycemia in accordance with District policy.

SUBJECT: ADMINISTRATION OF MEDICATION *(continued)*

Alcohol-Based Hand Sanitizers

The New York State Education Department (NYSED) permits the use of alcohol-based hand sanitizers in schools. The school medical director may approve and permit the use of alcohol-based hand sanitizers in the District's schools without a physician's order. Parents may provide written notification to the school in the event that they do not wish to have their child use this product.

Sunscreen

Students may carry and use FDA approved sunscreen products for over-the-counter use. The student's parent/guardian and/or person in parental relation must provide written permission for the student to carry and use sunscreen. This written parental consent will be maintained by the school. A student who is unable to physically apply sunscreen may be assisted by unlicensed personnel when directed to do so by the student, if permitted by a parent/guardian or person in parental relation, and authorized by the school.

Storage and Disposal

The District will comply with relevant state laws, regulations, and guidelines governing the District's receipt, storage, and disposal of medication.

SUBJECT: ACCIDENTS AND MEDICAL EMERGENCIES

Procedures shall be established and maintained by the Superintendent for the handling of student injuries and medical emergencies that occur on school property and during school activities.

Student Emergency Treatment

All staff members of the School District are responsible to obtain first aid care of students who are injured or become ill while under school supervision.

In most instances first aid should be rendered, and then the parent/guardian and/or persons in parental relation should be contacted to come to school and transport the student to the family physician. Beyond first aid, the medical care of the student is the parent's/guardian's and/or persons in parental relation's responsibility. However, the student's welfare is always the primary concern, and it is the responsibility of school personnel to exercise good judgment and care under all circumstances.

Any athlete who exhibits signs, symptoms or behaviors consistent with a concussion (such as loss of consciousness, headaches, dizziness, confusion or balance problems) shall be immediately removed from the practice or contest and shall not return to play until cleared by the school or family physician.

The Board of Education encourages all staff members to become qualified to give emergency treatment through instruction in first aid and Cardiopulmonary Resuscitation (CPR).

Transporting an Ill or Injured Student

In the event of an illness or injury to a student, an ambulance may be called if warranted. This solution will be used after other alternatives, including parent/guardian and/or persons in parental relation or emergency contact, have been made.

Insurance

The Board of Education shall approve provisions for all students to be covered by group insurance.

Such student accident insurance policies are to be a co-insurance with family coverage(s) as primary.

SUBJECT: HEAD LICE (PEDICULOSIS)

In the United States, head lice infestations are most common among preschool and elementary school-age children and their household members regardless of socioeconomic status and hygienic living conditions. According to research head lice infestations predominantly affect the age group of 3-11 years. “No-nit” policies that require a child to be free of nits before he or she can return to school lack evidence of being effective and may result in excessive absenteeism. Therefore, the Board of Education does not condone the excessive absence of students from school for unnecessary reasons and considers head lice an unnecessary absence that impedes a student's educational progress.

To control infestations of head lice (Pediculosis), the Board of Education has adopted the following protocols:

- a) Whenever there is a possibility that a student is infested, staff will contact the student's parents/guardians and/or persons in parental relation. An infested student will not return to school unless corrective treatment has been given and the student is free of active lice. Current treatment protocols make this possible in less than twenty-four (24) hours. Parents/guardians and/or persons in parental relation may be asked to have a physician prescribe medication for treatment.
- b) A student who has been infested will be readmitted to school after successfully completing an examination by the school nurse.
- c) School staff will work with parents/guardians and/or persons in parental relation to minimize student absence caused by exposure to head lice. An infested student is not sick and is not a danger to other students. Excessive and unnecessary absences affect a student's educational progress.
- d) School staff will protect student privacy and maintain confidentiality of medical information when infestations are detected.
- e) School staff will also work to minimize the social stigma that is unfairly attached to victims of head lice infestations. Head lice are not caused by poverty or unsanitary conditions. Students will not be separated from their peers or singled out as infected. All staff will learn proper precautions to prevent further spread of the infestation.

Regulations will be developed to provide guidelines on the detection and treatment of head lice, as well as classroom procedures for dealing with affected students.

SUBJECT: STUDENTS WITH LIFE-THREATENING HEALTH CONDITIONS

Students come to school with diverse medical conditions which may impact their learning as well as their health. Some of these conditions are serious and may be life-threatening. As a result, students, parents, school personnel, and healthcare providers must all work together to provide the necessary information and training to allow children with chronic health problems to participate as fully and safely as possible in the school experience. This policy encompasses an array of serious or life-threatening medical conditions such as anaphylaxis, diabetes, seizure disorders, or severe asthma and acute medical conditions. All students within the District with known life-threatening conditions will have a comprehensive plan of care in place: an Emergency Care Plan (ECP) or Individualized Healthcare Plan (IHP) and if appropriate, an Individualized Education Plan (IEP) or Section 504 Plan.

Life-Threatening Conditions

For those students with chronic life-threatening conditions such as diabetes, seizure disorders, asthma, and allergies, the District must work cooperatively with the parent(s) and the healthcare provider(s) to:

- a) Immediately develop an ECP for each at risk student to ensure that all appropriate personnel are aware of the student's potential for a life-threatening reaction;
- b) If appropriate, develop an IHP that includes all necessary treatments, medications, training, and educational requirements for the student. If the student is eligible for accommodations based upon the Individuals with Disabilities Act (IDEA), Section 504 of the Rehabilitation Act of 1973, or the Americans with Disabilities Act, the appropriate procedures will be followed regarding evaluation and identification;
- c) Provide training by licensed medical personnel (e.g., registered professional nurse) for all adults in a supervisory role in the recognition and emergency management of a specific medical condition for specific students;
- d) Obtain specific medical-legal documents duly executed in accordance with New York State law; appropriate healthcare provider authorization in writing for specific students that includes the frequency and conditions for any testing or treatment, symptoms, and treatment of any conditions associated with the health problem; and directions for emergencies;
- e) Secure written parent permission and discuss parental responsibility that includes providing the health care provider's orders, providing any necessary equipment, and participation in the education and co-management of the child as he/she works toward self-management;

(continued)

SUBJECT: STUDENTS WITH LIFE-THREATENING HEALTH CONDITIONS *(continued)*

- f) Allow self-directed students to carry life-saving medication, provided those students have prior approval by the medical provider and the school nurse, maintain and carry medication according to district practices and procedures, and have appropriate supervision for the administration of the medication. The District will also encourage parents and students to provide duplicate life-saving medication to be maintained in the Health Office in the event the self-carrying student misplaces, loses, or forgets their medication;
- g) Assure appropriate and reasonable building accommodations are in place within a reasonable degree of medical certainty.

In addition, the District will:

- a) Provide training for transportation, instructional, food service, and physical education staff, as appropriate, in the recognition of an anaphylactic reaction;
- b) Have standing emergency medical protocols for nursing or other staff;
- c) Maintain or ensure the maintenance of a copy of the standing order(s) and protocol(s) that authorizes the nursing or other staff to administer emergency medications such as anaphylactic treatment agents;
- d) As permitted by New York State law, maintain stock supplies of life-saving emergency medications such as epinephrine auto-injectors for use, especially in first time emergencies;
- e) Ensure that building-level and district-wide school safety plans include appropriate accommodations for students with life-threatening health conditions;
- f) Encourage families to obtain medic-alert bracelets for at risk students;
- g) Educate students regarding the importance of immediately reporting symptoms of an allergic reaction.

Creating an Allergen-Safe School Environment

The risk of accidental exposure or cross-contamination is always present in school, particularly for students with food allergies. The school setting is a high-risk environment for accidental ingestion of a food allergen due to the presence of a large number of students, increased exposure to food allergens, and cross-contamination of tables, desks, and other surfaces.

(continued)

SUBJECT: STUDENTS WITH LIFE-THREATENING HEALTH CONDITIONS *(continued)*

In an effort to prevent accidental exposure to allergens, the District will monitor the following high-risk areas and activities:

- a) Cafeteria;
- b) Food sharing;
- c) Hidden ingredients in art, science, and other projects;
- d) Transportation;
- e) Fund raisers and bake sales;
- f) Parties and holiday celebrations;
- g) Field trips;
- h) Before and after school programs.

The District will work toward assisting students in the self-management of their chronic health condition based upon the student's knowledge level and skill by:

- a) Adequately training all staff involved in the care of the child, as appropriate;
- b) Assuring the availability of the necessary equipment or medications;
- c) Providing appropriately trained licensed persons as required by law;
- d) Developing an emergency plan for the student; and
- e) Providing ongoing staff and student education.

Child Abuse in an Educational Setting

The School District is committed to the protection of students in educational settings from abuse and maltreatment by employees or volunteers as enumerated in law.

"Child abuse" shall mean any of the following acts committed in an educational setting by an employee or volunteer against a child:

- a) Intentionally or recklessly inflicting physical injury, serious physical injury or death; or
- b) Intentionally or recklessly engaging in conduct which creates a substantial risk of such physical injury, serious physical injury or death; or

(continued)

SUBJECT: CHILD ABUSE *(continued)*

- c) Any child sexual abuse, defined as conduct prohibited by Article 130 or 263 of the Penal Law; or
- d) The commission or attempted commission against a child of the crime of disseminating indecent materials to minors pursuant to Article 235 of the Penal Law.

"Educational setting" shall mean the building(s) and grounds of the School District; the vehicles provided by the School District for the transportation of students to and from school buildings, field trips, co-curricular and extracurricular activities both on and off School District grounds; all co-curricular and extracurricular activity sites; and any other location where direct contact between an employee or volunteer and a child has allegedly occurred.

In any case where an oral or written allegation is made to any school employee or volunteer to include a teacher, school nurse, school guidance counselor, school psychologist, school social worker, school administrator, School Board member, or other school personnel or volunteer, that a child (defined in the law as a person under the age of twenty-one (21) years enrolled in a school district in this state) has been subjected to child abuse by an employee or volunteer in an educational setting, that person shall upon receipt of such allegation:

- a) Promptly complete a written report of such allegation including the full name of the child alleged to be abused; the name of the child's parent/guardian and/or persons in parental relation; the identity of the person making the allegation and their relationship to the alleged child victim; the name of the employee or volunteer against whom the allegation was made; and a listing of the specific allegations of child abuse in an educational setting. Such written report shall be completed on a form as prescribed by the Commissioner of Education.
- b) Except where the school administrator is the person receiving such an oral or written allegation, the employee completing the written report must promptly *personally deliver* a copy of that written report to the school administrator of the school in which the child abuse allegedly occurred (subject to the following paragraph).

In any case where it is alleged the child was abused by an employee or volunteer of a school other than a school within the school district of the child's attendance, the report of such allegations shall be promptly forwarded to the Superintendent of Schools of the school district of the child's attendance and the school district where the abuse allegedly occurred.

Any employee or volunteer who reasonably and in good faith makes a report of allegations of child abuse in an educational setting in accordance with the reporting requirements of the law shall have immunity from civil liability which might otherwise result by reason of such actions.

(continued)

SUBJECT: CHILD ABUSE *(continued)*

Upon receipt of a written report alleging child abuse in an educational setting, the school administrator or Superintendent must then determine whether there is "reasonable suspicion" to believe that such an act of child abuse has occurred. Where there has been a determination as to the existence of such reasonable suspicion, the school administrator or Superintendent must follow the notification/reporting procedures mandated in law and further enumerated in administrative regulations. When the school administrator receives a written report, he/she shall promptly provide a copy of such report to the Superintendent.

Where the school administrator or Superintendent has forwarded a written report of child abuse in an educational setting to law enforcement authorities, the Superintendent shall also refer such report to the Commissioner of Education where the employee or volunteer alleged to have committed such an act of child abuse holds a certification or license issued by the State Education Department.

Any school administrator or Superintendent who reasonably and in good faith makes a report of allegations of child abuse in an educational setting, or reasonably and in good faith transmits such a report to a person or agency as required by law, shall have immunity from civil liability which might otherwise result by reason of such actions.

Reports and other written material submitted pursuant to law with regard to allegations of child abuse in an educational setting, and photographs taken concerning such reports that are in the possession of any person legally authorized to receive such information, *shall be confidential and shall not be redisclosed except* to law enforcement authorities involved in an investigation of child abuse in an educational setting or as expressly authorized by law or pursuant to a court-ordered subpoena. School administrators and the Superintendent shall exercise reasonable care in preventing such unauthorized disclosure.

Additionally, teachers and all other school officials shall be provided an annual written explanation concerning the reporting of child abuse in an educational setting, including the immunity provisions as enumerated in law. Further, the Commissioner of Education shall furnish the District with required information, including rules and regulations for training necessary to implement District/staff responsibilities under the law.

Prohibition of "Silent" (Unreported) Resignations

The Superintendent and other school administrators are prohibited from withholding from law enforcement authorities, the Superintendent or the Commissioner of Education, where appropriate, information concerning allegations of child abuse in an educational setting against an employee or volunteer in exchange for that individual's resignation or voluntary suspension from his/her position.

(continued)

SUBJECT: CHILD ABUSE *(continued)*

Superintendents (or a designated administrator) who reasonably and in good faith report to law enforcement officials information regarding allegations of child abuse or a resignation as required pursuant to the law shall have immunity from any liability, civil or criminal, which might otherwise result by reason of such actions.

SUBJECT: SUICIDE

The suicide of a student has an extremely disturbing effect on the school and the local community. Unfortunately, there has been a significant increase in the number of adolescents who choose suicide as a way to resolve their problems. It is the intent of this District to alert school personnel to the implications of suicide by a student, to help the school and the community cope with the aftermath of such a tragic event should it occur, to recommend ways of identifying children and adolescents at risk of attempting suicide and to suggest ways to prevent such occurrences.

Suicide prevention will be incorporated into the educational program to make students aware of this growing problem. This will be done in a manner so as not to glamorize the situation but to educate students in regard to this policy.

The administration is responsible for informing staff of regulations and procedures of suicide prevention, intervention, and post-intervention that have been adopted by the district.

SUBJECT: DIGNITY FOR ALL STUDENTS ACT (DASA)

The Board of Education recognizes that learning environments that are safe and supportive can increase student attendance and improve academic achievement. A student's ability to learn and achieve high academic standards, and a school's ability to educate students, is compromised by incidents of discrimination or harassment, including but not limited to bullying, taunting and intimidation. Therefore, in accordance with the Dignity for All Students Act, Education Law, Article 2, the District will strive to create an environment free of bullying, discrimination and harassment and will foster civility in the schools to prevent and prohibit conduct which is inconsistent with the District's educational mission. Since cyberbullying is a form of bullying, the term "bullying" as used in this policy will implicitly include cyberbullying even if it is not explicitly stated.

The District condemns and prohibits all forms of bullying, discrimination and harassment of students based on actual or perceived race, color, weight, national origin, ethnic group, religion, religious practice, disability, sexual orientation, gender or sex by school employees or students on school property and at school-sponsored activities and events that take place at locations off school property. In addition, any act of bullying, discrimination or harassment, outside of school sponsored events, which can reasonably be expected to materially and substantially disrupt the education process may be subject to discipline.

Dignity Act Coordinator

At least one (1) employee at every school shall be designated as the Dignity Act Coordinator(s). The Dignity Act Coordinator(s) will be trained to handle human relations in the areas of race, color, weight, national origin, ethnic group, religion, religious practice, disability, sexual orientation, gender (identity or expression) and sex. The Board of Education shall appoint a Dignity Act Coordinator(s) who is employed by such District and is licensed and/or certified as a classroom teacher, school counselor, psychologist, nurse, social worker, administrator/supervisor or Superintendent of Schools. Districts must share the name(s) and contact information of the Dignity Act Coordinator(s) with all school personnel, students, and parents/guardians and/or persons in parental relation, which shall include, but is not limited to, providing the name, designated school and contact information by:

- a) Listing such information in the *Code of Conduct* and updates posted on the internet website, if available; and
- b) Including such information in the plain language summary of the *Code of Conduct* provided to all parents/guardians and/or persons in parental relation to students before the beginning of each school year; and

SUBJECT: DIGNITY FOR ALL STUDENTS ACT (DASA)

- c) Providing such information to parents/guardians and/or persons in parental relation in at least one (1) district or school mailing or other method of distribution, including, but not limited to, through electronic communication and/or sending such information home with each student, and, if such information changes, in at least one subsequent district or school mailing or other such method of distribution as soon as practicable thereafter; and
- d) Posting such information in highly visible areas of school buildings; and
- e) Making such information available at the district and school-level administrative offices.

If a Dignity Act Coordinator vacates his/her position, another school employee shall immediately be designated for an interim appointment as Coordinator, pending approval from the Board of Education, within thirty (30) days of the date the position was vacated. In the event a Coordinator is unable to perform the duties of the position for an extended period of time, another school employee shall immediately be designated for an interim appointment as Coordinator, pending return of the previous Coordinator to the position. The District must provide the change in information to parents/guardians and/or persons in parental relation as soon as practicable. The change in name and/or contact information of the Dignity Act Coordinator will not constitute a revision to the *Code of Conduct* so as to require a public hearing.

Training and Awareness

Training will be provided each school year for all District employees in conjunction with existing professional development training to raise staff awareness and sensitivity of harassment and discrimination directed at students that are committed by students or school employees on school property, at a school function or off school property when the actions would foreseeably create a risk of substantial disruption within the school environment or where it is foreseeable that the conduct might reach school property.

Training will include ways to promote a supportive school environment that is free from bullying, discrimination and/or harassment. Training shall

- a) Raise awareness and sensitivity;
- b) Address social patterns and the effects on students;
- c) Inform employees on the identification and mitigation of such acts;
- d) Provide strategies for effectively addressing problems of exclusion, bias and aggression;
- e) Include safe and supportive school climate concepts in curriculum and classroom management; and
- f) Ensure the effective implementation of school policy on conduct and discipline.

SUBJECT: DIGNITY FOR ALL STUDENTS ACT (DASA)

Instruction in grades kindergarten through 12 shall include a component on civility, citizenship and character education. Such component shall instruct students on the principles of honesty, tolerance, personal responsibility, respect for others, observance of laws and rules, courtesy, dignity and other traits which will enhance the quality of their experiences in, and contributions to, the community. For the purposes of this policy, "tolerance," "respect for others" and "dignity" shall include awareness and sensitivity to discrimination or harassment and civility in the relations of people of different races, weights, national origins, ethnic groups, religions, religious practices, mental or physical abilities, sexual orientations, genders and sexes. Such component must also include instruction on the safe and responsible use of the internet and electronic communications.

Rules against bullying, discrimination and/or harassment will be included in the *Code of Conduct*, publicized District-wide and disseminated to all staff and parents/guardians and/or persons in parental relation. Any amendments to the Code will be disseminated as soon as practicable following their adoption. New teachers shall be provided a complete copy of the current Code upon their employment. An age-appropriate summary shall be distributed to all students at a school assembly at the beginning of each school year.

Reports and Investigations of Bullying, Discrimination and/or Harassment

The District will investigate all complaints of bullying, harassment and/or discrimination, either formal or informal, and take prompt corrective measures, as necessary. School employees who witness or receive a report (oral or written) of harassment, bullying and/or discrimination must orally notify the Superintendent, principal or their designee *no later than one (1) school day* after witnessing or receiving a report of such incident. The employee must then file a written report *within two (2) school days* after making the oral report. If, after an appropriate investigation, the District finds that this policy has been violated, corrective action will be taken in accordance with District policies and regulations, the *Code of Conduct* and all appropriate federal or state laws. The Superintendent, principal or their designee shall notify the appropriate local law enforcement agency when it is believed that any harassment, bullying and/or discrimination constitute criminal conduct.

The District will annually report material incidents of bullying, discrimination and/or harassment to the State Education Department. Such report shall be submitted in a manner prescribed by the Commissioner, on or before the basic educational data system (BEDS) reporting deadline or such other date as determined by the Commissioner. SED has developed a form for gathering data titled, "Reports of Incidents Concerning School Safety and the Educational Climate" which can be found on the NYSED website.

SUBJECT: DIGNITY FOR ALL STUDENTS ACT (DASA)

The principal of each primary and secondary school shall provide a regular report (at least once during each school year) on data and trends related to harassment, bullying and/or discrimination to the Superintendent and in a manner prescribed by the district. There is no need for schools or districts to submit this report to the State Education Department.

Prohibition of Retaliatory Behavior (Commonly Known as "Whistle-Blower" Protection)

Any person who has reasonable cause to suspect that a student has been subjected to discrimination or harassment by an employee or student, on school grounds or at a school function, who acts reasonably and in good faith and reports such information to school officials or law enforcement authorities, shall have immunity from any civil liability that may arise from making such report. The Board prohibits any retaliatory behavior directed at complainants, victims, witnesses and/or any other individuals who participated in the investigation of a complaint of discrimination or harassment.

SUBJECT: SEXUAL HARASSMENT OF STUDENTS

The Board of Education affirms its commitment to provide an environment free from sex-based discrimination and sexual harassment, including sexual violence and intimidation. The Board, therefore, prohibits all forms of sexual harassment against students by other students, employees, school volunteers, and non-employees such as contractors and vendors, which occur on school grounds or at school-sponsored events, programs, or activities, including those that take place at locations off school premises.

Sexual Harassment

Sexual harassment is unwelcome conduct of a sexual nature. It includes unwelcome sexual advances, requests for sexual favors, and other verbal, nonverbal, or physical conduct of a sexual nature. For the purposes of this policy, sexual harassment also includes sexual violence. Sexual violence refers to physical sexual acts perpetrated against a person's will or where a person is incapable of giving consent. Sexual violence includes, but is not limited to: rape, sexual assault, sexual battery, and sexual coercion.

Sexual harassment can originate from a person of either sex against a person of the opposite or same sex, and from students, District employees, or third parties such as visitors or school volunteers.

Prohibited Conduct

Sexual harassment can be verbal, non-verbal, or physical. Examples of such conduct may include, but are not limited to, the following:

- a) Verbal abuse or ridicule, including innuendoes, stories and jokes that are sexual in nature and/or gender-related. This might include inappropriate sex-oriented comments on appearance, including dress or physical features.
- b) Direct or indirect threats or bribes for unwanted sexual activity.
- c) Asking or commenting about a person's sexual activities.
- d) Unwelcome and unwanted physical contact of a sexual nature including, but not limited to, physical acts such as assault, impeding or blocking movement, offensive touching, or any physical interference with normal work or movement.
- e) Displaying or distributing pornographic or other sexually explicit materials such as magazines, pictures, internet material, cartoons, etc.
- f) The use of profanity and/or other obscenities that are sexually suggestive or degrading in nature.

SUBJECT: SEXUAL HARASSMENT OF STUDENTS *(continued)*

- g) Unwelcome staring, leering, or gesturing which is sexually suggestive in nature.
- h) Unwelcome and/or offensive public displays of sexual/physical affection.
- i) Clothing that reflects sexually obscene and/or sexually explicit messages, slogans, or pictures.
- j) Demanding sexual favors of a student, insinuating that refusal to acquiesce in such favors will adversely affect a student's grades, references, academic/scholastic placement, and/or participation in extracurricular activities.
- k) Engaging in sexual conduct with an individual who is unable to consent due to his/her age, use of drugs or alcohol, intellectual disability, or other disability.
- l) Any other unwelcome and unwanted sexually oriented and/or gender-based behavior which is sexually demeaning, belittling, intimidating, or perpetrates sexual stereotypes and attitudes.

Investigation of Complaints and Grievances

In order for the Board to enforce this policy, and to take corrective measures as may be necessary, it is essential that any student who believes he/she has been a victim of sexual harassment in the school environment, as well as any other person who is aware of and/or who has knowledge of or witnesses any possible occurrence of sexual harassment, should immediately report such alleged harassment. The District recognizes that sexual harassment is a sensitive issue and that students may choose to inform any trusted staff member of suspected discrimination or harassment. Staff members who receive such complaints will immediately inform the Civil Rights Compliance Officer. Where appropriate, the Civil Rights Compliance Officer may seek the assistance of the relevant Dignity Act Coordinator in investigating, responding to, and remedying student complaints of discrimination and/or harassment. In the event that the Civil Rights Compliance Officer is the alleged offender, the report will be directed to another Civil Rights Compliance Officer, if the District has designated an additional individual to serve in such capacity, or to the Superintendent.

The School District will act to promptly, thoroughly, and equitably investigate all complaints, whether verbal or written, of sexual harassment and will promptly take appropriate action to protect individuals from further sexual harassment. All such complaints will be handled in a manner consistent with the District's policies, procedures, and/or regulations regarding the investigation of discrimination and harassment complaints, including Policy #3420 -- Non-Discrimination and Anti-Harassment in the School District; and Administrative Regulation #3420R -- Non-Discrimination and Anti-Harassment in the School District.

SUBJECT: SEXUAL HARASSMENT OF STUDENTS *(continued)*

Additional information regarding the District's discrimination and harassment complaint and grievance procedures, including but not limited to the designation of the Civil Rights Compliance Officer, knowingly making false accusations, and possible corrective actions, can be found in Policy #3420 -- Non-Discrimination and Anti-Harassment in the School District and Administrative Regulation #3420R -- Non-Discrimination and Anti-Harassment in the School District.

Prohibition of Retaliatory Behavior

The Board prohibits any retaliatory behavior directed against complainants, victims, witnesses, and/or any other individuals who participated in the investigation of a complaint of sexual harassment. Complaints of retaliation may be directed to the Civil Rights Compliance Officer. In the event the Civil Rights Compliance Officer is the alleged offender, the report will be directed to another Civil Rights Compliance Officer, if the District has designated another individual to serve in such a capacity, or to the Superintendent.

Where appropriate, follow-up inquiries will be made to ensure that sexual harassment has not resumed and that all those involved in the investigation of sexual harassment have not suffered retaliation.

SUBJECT: BULLYING: PEER ABUSE IN THE SCHOOLS

The Board of Education is committed to providing a safe and productive learning environment within its schools. Bullying of a student by another student is strictly prohibited on school property, in school buildings, on school buses and at school sponsored events and/or activities whether occurring on or off campus. The Board of Education shall require the prohibition of bullying - along with the range of possible intervention activities and/or sanctions for such misconduct - to be included in the *District Code of Conduct* for all grade levels.

For purposes of this policy, the term "bullying" among children is defined, in general, as: "a variety of negative acts carried out repeatedly over time. It involves a real or perceived imbalance of power, with a more powerful child or group attacking those who are less powerful." Bullying can take three forms:

- a) Physical (including, but not limited to, hitting, kicking, spitting, pushing, taking personal belongings);
- b) Verbal (including, but not limited to, taunting, malicious teasing, name calling, making threats); and
- c) Psychological (including, but not limited to, spreading rumors; manipulating social relationships; or engaging in social exclusion, extortion, or intimidation).

Bullying may also occur as various forms of harassment and/or hazing of students by other students (including "pledging" and/or a student's initiation into or affiliation with a school or student related organization or team).

The District also prohibits "internet bullying" (also referred to as "cyber-bullying") including the use of instant messaging, email, web sites, chat rooms and text messaging when such use interferes with the operation of the school; or infringes upon the general health, safety and welfare of District students or employees.

However, it is important to note that a single negative act as enumerated above may also constitute "bullying" (if not more serious misconduct) based upon the particular circumstances such as the seriousness of the act and/or the intent of the actor.

Any student who believes that he/she is being subjected to bullying behavior, as well as any other person who has knowledge of or witnesses any possible occurrence of bullying, shall report the bullying to any staff member or the building principal. The staff member/building principal to whom the report is made (or the staff member/building principal who witnesses bullying behavior) shall investigate the complaint and take appropriate action to include, as necessary, referral to the next level of supervisory authority and/or other official designated by the District to investigate allegations of bullying. Investigation of allegations of bullying shall follow the procedures utilized for complaints of harassment within the School District. Allegations of bullying shall be promptly investigated and will be treated as confidential and private to the extent possible within legal constraints.

SUBJECT: BULLYING: PEER ABUSE IN THE SCHOOLS *(continued)*

The Board prohibits any retaliatory behavior directed against complainants, victims, witnesses and/or any other individuals who participate in the investigation of allegations of bullying. Follow-up inquiries and/or appropriate monitoring of the alleged bully and victim shall be made to ensure that bullying behavior has not resumed and that all those involved in the investigation of allegations of bullying have not suffered retaliation.

Personnel at all levels are responsible for taking corrective action to prevent bullying behavior of which they have been made aware at School District sites or activities and/or reporting such behavior to their immediate supervisor. Further, staff training shall be provided to raise awareness of the problem of bullying within the schools and to facilitate staff identification of and response to such bullying behavior among students.

Prevention and intervention techniques within the District to prevent against bullying behavior and to support and protect victims shall include building-level and classroom-level strategies and activities as determined by administration. Individual intervention will be provided by appropriate staff members to bullies, victims and their parents/guardians and/or persons in parental relation to help ensure that the bullying stops.

Rules against bullying shall be publicized District-wide and shall be disseminated as appropriate to staff, students and parents/guardians and/or persons in parental relation. Disciplinary sanctions for violation of this policy shall be outlined in the *District Code of Conduct* as enumerated above and may also be incorporated in staff and student handbooks.

SCCS BOE Reviewed and Readopted November 9, 2015
SCCS BOE Reviewed and Readopted August 16, 2010
Adopted: 6/7/04

The Board of Education is committed to providing a safe, productive, and positive learning environment within its schools. Hazing activities are demeaning and abusive behaviors that harm victims, are inconsistent with the educational goals of the District, and may constitute criminal conduct. Consequently, the hazing of students by other students or groups of students is strictly prohibited on school property, in school buildings, on school buses, by school sponsored groups, clubs or teams, and at school sponsored events and/or activities whether occurring on or off-campus. Hazing is prohibited regardless of the victim's apparent willingness to participate in the activity.

For purposes of this policy, the term "hazing" is defined as any humiliating or dangerous activity expected of a student to join a group, regardless of their willingness to participate. Acts constituting hazing may range in severity from teasing or embarrassing a student to various forms of physical, emotional, and/or sexual abuse. Hazing behaviors include, but are not limited to:

- Humiliation: socially offensive, isolating, or uncooperative behaviors.
- Substance abuse: abuse of tobacco, alcohol, or illegal drugs.
- Other dangerous actions: hurtful, aggressive, destructive, and disruptive behaviors.

Hazing is a form of harassment and bullying, as those terms are defined for the purposes of Policy #7550 -- Dignity for All Students, and may constitute discrimination. As such, the District's response to reports of hazing will be governed by applicable law, the District's *Code of Conduct*, and Policy #7550 and its implementing regulations. In the event allegations involve hazing based on a student's race, color, religion, national origin, sex, sexual orientation, or disability, the District may utilize the procedures set forth in Policy #3420 -- Non-Discrimination and Anti-Harassment in the School District, and its implementing regulations.

SUBJECT: NOTIFICATION OF SEX OFFENDERS

In accordance with the Sex Offender Registration Act ("Megan's Law"), the Board of Education supports the New York State Department of Criminal Justice Services (DCJS) in its effort to inform the community in certain circumstances of the presence of individuals with a history of sex offenses, particularly against children, in the school locality. This policy is enacted to minimize the possibility that the sex offender will come in contact with school-age children, and to assist law enforcement agencies in preventing further criminal activity from occurring. Furthermore, the District shall cooperate with local police authorities and the local community in promoting and protecting the safety and well being of its students.

It is the policy of the Board of Education to disseminate all information which the District receives from local police authorities in conjunction with Megan's Law to designated staff members who might have possible contact with the offender during the course of their school duties, including, but not limited to, building principals, supervisors, teachers, office personnel, coaches, custodians, bus drivers and security personnel. The Superintendent reserves the right to automatically disseminate such information to additional members of the staff, designated supervisors of non-school groups that regularly use District facilities and have children in attendance, parents/guardians and/or persons in parental relation of District students, and other community residents who, in the opinion of the Superintendent, have an immediate need to be notified of such data to protect the safety of our students.

All staff members shall be informed of the availability of the information received by the District pursuant to Megan's Law upon written request to the applicable building principal/designee or supervisor. (** If applicable to District practice, include in policy: Community residents shall be notified of the availability of this information, with written requests directed to the District Office.*)

Staff members shall inform their immediate supervisor if they observe within the school building, on school grounds, at school activities, or at or near bus routes any individual whose description matches the information which was provided to the District by local law enforcement authorities. Such law enforcement officials will be notified of this information by the District as appropriate.

Information that is disseminated to the School District pursuant to Megan's Law may be disclosed or not disclosed by the District in its discretion. Any information which the School District receives regarding a sex offender from a source other than the Sex Offender Registry, and which is maintained independent of the requirements of Megan's Law, will be available from the District, upon written request, in accordance with the requirements of the Freedom of Information Law.

Implementation

Administrative regulations shall be developed to implement this policy.

SUBJECT: CHILDREN WITH DISABILITIES

The Board of Education recognizes the existence of individual differences in the intellectual, social, emotional and physical development of children attending school in the District. In recognizing these differences the Board supports a continuum of services for children with disabilities which includes programs such as: prevention, education in regular classes with or without support services, education in a resource room, education for part of the day in a special class, full time education in a special class, declassification support services, transitional support services, consultant teacher services, home instruction and mainstreaming children with disabilities with regular class children where appropriate. In deciding on which system of support services are appropriate on an individual case basis, the Board adheres to and actively supports a placement policy providing the least restrictive environment for children with disabilities.

**SUBJECT: GROUPING OF SPECIAL EDUCATION STUDENTS BY SIMILARITY
 OF NEEDS**

The Board of Education will provide appropriate special education and related services to students with disabilities. For those students for whom an appropriate education requires that they be placed together for purposes of special education, the following guidelines shall apply:

- a) That each student with a disability shall be identified, evaluated and placed in service or program as determined by the Committee on Special Education (CSE).
- b) The Committee shall determine written goals and corresponding short-term instructional objectives for each student with a disability by considering the special and individual needs of each student with a disability.
- c) The Committee shall recommend to the Board of Education appropriate educational programs and services for each student with a disability based upon the CSE evaluation.
- d) The CSE shall provide information to those teachers, case manager and professionals who arrange instructional groups for students with disabilities. Information shall include physical, psychological and social information as well as achievement test results and access to a student's IEP.
- e) The curriculum and instruction provided to students with disabilities who are grouped by similarity of needs shall be consistent with the individual needs of each student in the group.
- f) Students with disabilities may be grouped according to:
 - 1. Academic or educational achievement and learning characteristics;
 - 2. Social needs;
 - 3. Physical development; and
 - 4. Management needs.
- g) When grouping students by similarity of needs, the social needs or physical development of a student shall not be the sole determinant for placement of a student in a special education program.
- h) The management needs of such students may vary, provided that environmental modifications, adaptations, or human or material resources required to meet the needs of any one student in the group are provided and do not consistently detract from the opportunities of other students in the group to benefit from instruction.

**SUBJECT: THE ROLE OF THE BOARD OF EDUCATION IN IMPLEMENTING A
STUDENT'S INDIVIDUALIZED EDUCATION PROGRAM**

The Board of Education shall establish at least one Committee on Special Education and one Committee on Preschool Education. The Board shall also establish, as necessary, Subcommittees on Special Education to ensure timely evaluation and placement of students with disabilities.

Committee on Special Education

The Board of Education shall, upon completion of its review of the student's Individualized Education Program (IEP), arrange for the appropriate special education programs and services to be provided to a student with a disability as recommended by the Committee on Special Education (CSE). The Board shall notify the parent/guardian and/or persons in parental relation of its action in accordance with federal and state law and regulations.

For a student not previously identified as having a disability, the CSE shall provide a recommendation to the Board which shall arrange for the appropriate special education programs and services to be provided within sixty (60) school days of the date of receipt of consent to evaluate. For a student with a disability referred for review, a recommendation shall be provided to the Board which shall arrange for the appropriate special education programs and services to be provided within sixty (60) school days of the referral for review. However, if such recommendation of the CSE is for placement in an approved in-state or out-of-state private school, the Board shall arrange for such special education programs and services for students with disabilities within thirty (30) days of the Board's receipt of the recommendation of the CSE.

If on review of the recommendation of the CSE, the Board of Education disagrees with such recommendation, the Board shall follow one of the following procedures:

- a) The Board may remand the recommendation to the CSE with a statement of the Board's objections or concerns and a request that a timely meeting be held to review and consider such objections or concerns. The CSE shall consider the Board's objections or concerns, revise the IEP where appropriate, and resubmit a recommendation to the Board. If the Board continues to disagree with the recommendation of the CSE, the Board may continue to remand the recommendation to the original committee for additional reviews of its objections or concerns, or establish a second CSE to develop a new recommendation in accordance with the following paragraph, provided that the Board arranges for the programs and services in accordance with the student's IEP within the timelines as outlined above; or, in the alternative,

- b) The Board may establish a second CSE to develop a new recommendation for the student. If the Board disagrees with such new recommendation, the Board may remand the recommendation to the second CSE with a statement of the Board's objections or concerns and a request that a timely meeting be held to review and consider such objections or concerns. The second CSE shall consider the Board's objections or concerns, revise the IEP where appropriate, and resubmit a recommendation to the Board. If the Board continues to disagree with the recommendation of the second CSE, the Board may continue to remand the recommendation for additional reviews of its objections or concerns by the second CSE, provided that the Board arranges for the programs and services in accordance with the student's IEP, as developed by the second CSE, within the timelines as outlined above.

Pursuant to Commissioner's Regulations, the Board may not select the recommendation of the original CSE once it has established a second CSE.

The Board shall provide the student's parents/guardians and/or persons in parental relation with a copy of the statement of its objections or concerns and notice of due process rights in accordance with Section 200.5 of the Regulations of the Commissioner.

Committee on Preschool Special Education

Upon receipt of the recommendation of the Committee on Preschool Special Education (CPSE), the Board of Education shall arrange for the preschool student with a disability to receive such appropriate programs and services in accordance with the student's IEP, commencing with the July, September or January starting date for the approved program, unless such services are recommended by the CPSE less than thirty (30) school days prior to, or after, the appropriate starting date selected for the preschool student with a disability; in that case, such services shall be provided no later than thirty (30) days from the recommendation of the CPSE.

If the Board disagrees with the recommendation of the CPSE, the Board shall send the recommendation back to the CPSE with notice of the need to schedule a timely meeting to review the Board's concerns and to revise the IEP as deemed appropriate. The Board of Education shall provide such notice as required by federal and state law and regulations.

Subcommittee on Special Education

The number of Subcommittees on Special Education will be determined by the CSE and the CSE will be responsible for the oversight and monitoring of the activities of each subcommittee to assure compliance with the requirements of applicable state and federal laws and regulations.

(continued)

**SUBJECT: THE ROLE OF THE BOARD OF EDUCATION IN IMPLEMENTING A
STUDENT'S INDIVIDUALIZED EDUCATION PROGRAM** *(continued)*

Each Subcommittee may perform the functions for which the CSE is responsible, except:

- a) When a student is considered for initial placement in a special class; or
- b) When a student is considered for initial placement in a special class outside of the student's school of attendance; or
- c) When a student is considered for placements in a school primarily serving students with disabilities or a school outside the District.

Subcommittees shall report annually to the CSE regarding the status of each student with a disability within its jurisdiction. Upon receipt of a written request from the parent/guardian and/or person in parental relationship to a student, the Subcommittee shall refer to the CSE any matter in which the parent/guardian and/or person in parental relation disagrees with the Subcommittee's recommendation concerning a modification or change in the identification, evaluation, educational placement or provision of a free appropriate education to the student.

SUBJECT: PRESCHOOL SPECIAL EDUCATION PROGRAM

The Board recognizes the need for educational programs for three (3) and four (4) year old children with disabilities and directs that administrative practices and procedures be developed to:

- a) Ensure for the provision of special education services and programs for each preschool child with a disability residing in the District.
- b) Establish a Committee on Preschool Special Education (CPSE) which shall be comprised in accordance with applicable federal and state law and regulation.
- c) Ensure that parents/guardians and/or persons in parental relation have received and understand the request for consent for evaluation of a preschool aged child.

Evaluations for Preschool Children with Disabilities

The District is required to collect entry assessment data in the three (3) outcome areas on all preschool children who receive an initial evaluation. As currently required by Commissioner's Regulation Section 200.5, a parent/guardian and/or person in parental relation must be fully informed about the proposed initial evaluation and must provide consent for an initial evaluation. This would include a description of the proposed evaluation.

The CPSE will receive entry-level assessment results in the three (3) outcome areas from approved preschool evaluators conducting initial evaluations on all preschool children suspected of having disabilities. The CPSE will then meet to determine the child's eligibility for preschool education programs and/or services and complete the Child Outcomes Summary Form to determine the child's entry level of functioning in the three (3) outcome areas for all preschool children evaluated and found to be eligible. The form is to be kept in the student's record until the exit assessment information is due as a way to summarize complex assessment information in a format so the data can be aggregated and reported to the State Education Department (SED).

SUBJECT: LEAST RESTRICTIVE ENVIRONMENT

Least restrictive environment means that placement of students with disabilities in special classes, separate schools or other removal from the regular educational environment occurs only when the nature or severity of the disability is such that even with use of supplementary aids and services, education in regular classes cannot be satisfactorily achieved. The placement of an individual student with a disability in the least restrictive environment shall:

- a) Provide the special education and related services, as well as supplementary aids and services, needed by the student;
- b) Provide for education of the student to the maximum extent appropriate to the needs of the student with other students who do not have disabilities; and
- c) Be as close as possible to the student's home.

The District has an obligation, pursuant to law and regulation, to educate students with disabilities in the least restrictive environment. The School District shall ensure that:

- a) Each student with a disability shall be educated with nondisabled students to the maximum extent appropriate;
- b) Each student with a disability shall be removed from the regular educational environment only when the nature or severity of the student's disability is such that education in regular classes with the use of supplementary aids and services cannot be achieved satisfactorily; and
- c) To the maximum extent appropriate to the student's needs, each student with a disability shall participate with nondisabled students in nonacademic and extracurricular services and activities.

SUBJECT: RESPONSE TO INTERVENTION (RTI) PROCESS

Response to Intervention (RtI) is a multi-tiered early prevention and intervention process designed to improve outcomes for all students. In accordance with Commissioner's regulations, the SCCS District has established administrative practices and procedures for implementing District-wide initiatives that address an RtI process applicable to all students. For students suspected of having a potential learning disability, the District will provide appropriate intervention services pursuant to Commissioner's regulations prior to a referral to the Committee on Special Education (CSE) for evaluation.

The New York State Education Department (SED) has released a guidance document to assist school districts in designing and implementing an effective RtI process, which includes, but is not limited to, information regarding regulatory requirements, quality indicators, staff development, tools to assist districts in selecting a specific model and procedures for the use of RtI data in determining if a student has a learning disability. This guidance document is available on the SED's official website.

The District has established procedures for identifying students with learning disabilities that use a research-based RtI process prior to, or as part of, an individual evaluation to determine whether a student has a learning disability. An RtI process is required for all students in grades kindergarten through grade 8 suspected of having a learning disability in the area of reading. RtI cannot be utilized as a strategy to delay or deny a timely initial evaluation of a student suspected of having a disability under the Individuals with Disabilities Education Act (IDEA).

The District's RtI process will include the following:

1. Scientific, research-based instruction in reading and mathematics provided to all students in the general education class by qualified personnel. Instruction in reading, per Commissioner's regulations, means scientific, research-based reading programs that include explicit and systematic instruction in phonemic awareness, phonics, vocabulary development, reading fluency (including oral reading skills) and reading comprehension strategies;
2. Screenings of all students to identify those students who are not making academic progress at expected rates. All students in grades K-8 will be given appropriate screening measures three times per year;
3. Multiple measures to determine student eligibility for services. These assessments include, but are not limited to, performance on NYS, classroom, and diagnostic assessments. Specifically, student scores below proficiency on state assessments may qualify a student for services;
4. Multiple tiers of interventions to raise achievement levels for all students;

5. RtI documentation to include clearly identified standard-based goals, when and what interventions occurred, and weekly progress monitoring. Documentation shall be completed prior to decisions regarding academic intervention services (AIS) and/or special education services;
6. Written notification to the parents when the student requires an intervention beyond that provided to all students in the general education classroom. Parent notification will take place for all Tier 2 & 3 AIS services and includes the following information:
 - a. The reason the student requires such services;
 - b. A summary of services to be provided; and
 - c. The parent's right to request an evaluation.

Multi-Tiered System of Supports (MTSS) Team

MTSS Team members may include, but are not limited to, regular education teachers, special education personnel, the school psychologist, reading and math coordinators, designated administrators, and other individuals deemed appropriate by the District.

The MTSS Team's responsibilities will include, but are not limited to, the following:

1. Review of student performance results and address academic needs;
2. Ensuring the fidelity of Tier 1 curriculum and instruction;
3. Determining students who qualify for intervention based on assessment results and/or a recommendation with supporting documentation;
4. Reviewing Tier 1 RtI documentation provided by the general education teacher, which includes clearly identified standard-based goals, detailed documentation of supports and differentiation, and weekly progress monitoring;
5. Determining if Tier 2 or Tier 3 interventions are appropriate and the student performance criteria (including goals, interventions, and progress monitoring) for each tier of the RtI model;
6. Monitoring the progress of those students receiving intervention services beyond that provided to all students in the general education classroom. The Team will meet with the student's teacher(s) and determine if further adjustments must be made to the student's current instructional program and/or a change to the level of intervention provided;
7. Determining whether to make a referral for special education programs or services.

Multi-Tiered System of Supports (MTSS)

MTSS will be specific to each student's needs and will be an ongoing process, with students entering and exiting tiers of intervention according to the analysis of student performance data and progress monitoring.

Tier 1 Interventions

Tier 1 interventions are provided to all students in the general education setting. The use of scientific, research-based instruction in the areas of reading and math will be provided by the general education teacher and/or other qualified personnel as appropriate, and will emphasize proactive, preventative core instructional strategies in the classroom setting. Group and/or individualized instruction, assessment, and reinforcement activities will be provided as deemed appropriate by the classroom teacher.

The analysis of Tier 1 student performance data will be used to identify those students who need additional support and instruction at Tier 2. Specifically, Tier 1 RtI documentation provided by the general education teacher will include clearly identified standard-based goals, detailed documentation of when and what supports, specifically differentiation occurred, and weekly progress monitoring.

Tier 2 Interventions

In general, Tier 2 interventions will consist of small group, targeted interventions for those students identified as being "at risk" and who fail to make adequate progress in the general education classroom. Tier 2 instruction will include programs and intervention strategies designed to supplement Tier 1 interventions provided to all students in the general education setting. Tier 2 instruction may be provided by specialized staff such as teachers, teaching assistants, speech therapists, school psychologists, and/or school counselors as determined by the MTSS Team.

The progress of all students receiving Tier 2 instruction will be assessed on an ongoing basis by the MTSS Team and they will determine whether Tier 2 interventions should be maintained, the student should be returned to the general education classroom if satisfactory progress is shown, or should be referred for Tier 3 intervention.

Tier 3 Interventions

Tier 3 interventions are more intensive instructional interventions, tailored to the needs of the individual student, and are provided to those students who do not achieve adequate progress after receiving interventions at the Tier 2 level. Tier 3 instruction may include longer periods of intervention services than those provided in the first two Tiers based upon the significant needs of the student.

Tier 3 interventions will be provided by those specialists, as determined by the MTSS Team, best qualified to address the individual student's targeted area(s) of need. If deemed appropriate by the Team, and in accordance with applicable law and regulation, a referral of the student may be made to the CSE.

Progress monitoring on a continuous basis is an integral part of Tier 3 and the student's response to the intervention process will determine the need or level of further intervention services and/or educational placement.

Examples of Interventions

Interventions will supplement general classroom interventions and may include;

- Additional class time & extended day
- Brief, frequent & individualized interventions targeting specific need
- Small group instruction
- Use of cues and prompts
- Pre-teaching important concepts and skills

Staff Development

All staff members involved in the development, provision, and/or assessment of the District's RtI program, including both general education and special education instructional personnel, will receive appropriate training necessary to implement the District's RtI program. Staff development will focus on developing appropriate interventions to meet student need and the frequency of effective progress monitoring.

SUBJECT: DECLASSIFICATION OF STUDENTS WITH DISABILITIES

The School District shall establish and implement a plan for the appropriate declassification of students with disabilities which must include:

- a) The regular consideration for declassifying students when appropriate;
- b) A reevaluation of the student prior to declassification; and
- c) The provision of educational and support services to the student upon declassification.

Eligibility Determinations

The School District must evaluate a student with a disability prior to determining that a student is no longer a student with a disability as defined in accordance with Commissioner's Regulations, and the District shall provide a copy of the evaluation report and the documentation of eligibility to the student's parent/guardian and/or persons in parental relation. The District is not required to conduct a reevaluation of a student before the termination of a student's eligibility due to graduation with a local high school or Regents diploma or exceeding the age eligibility for a free appropriate public education. However, the parent/guardian and/or persons in parental relation must receive prior written notice, in accordance with Commissioner's Regulations, before the student's graduation from high school with a local or Regents diploma or before he/she receives an Individualized Education Program (IEP) diploma. The results of any reevaluations must be addressed by the Committee on Special Education (CSE) in a meeting to review and, as appropriate, revise the student's IEP.

Prior to the reevaluation, the School District shall obtain informed consent from the parent/guardian and/or persons in parental relation unless otherwise authorized pursuant to law and/or regulation. Parental/guardian and/or persons in parental relation consent need not be obtained if the District can demonstrate that it has taken reasonable measures to obtain that consent, and the student's parents/guardians and/or persons in parental relation fail to respond. The District must have a record of its attempts to obtain parental/guardian and/or persons in parental relation consent. Should the student's parents/guardians and/or persons in parental relation refuse consent for the reevaluation, the District may continue to pursue the reevaluation by using mediation and/or due process procedures.

The District shall take whatever action is necessary to ensure that the parent/guardian and/or persons in parental relation understands the proceedings at the meeting of the CSE, including arranging for an interpreter for parents/guardians and/or persons in parental relation with deafness or whose native language is other than English.

Individual Evaluation

As part of any reevaluation, a group that includes the CSE and other qualified professionals, as appropriate, shall review existing evaluation data on the student including evaluations and information provided by the parents/guardians and/or persons in parental relation of the student, current classroom-based assessments and observations, and observations by teachers and related services providers.

(continued)

SUBJECT: DECLASSIFICATION OF STUDENTS WITH DISABILITIES *(continued)*

On the basis of that review, and input from the student's parents/guardians and/or persons in parental relation, the CSE and other qualified professionals, as appropriate, shall identify what additional data, if any, are needed to determine:

- a) In the case of a reevaluation of a student, whether the student continues to have such a disability;
- b) The present levels of performance and educational needs of the student;
- c) In the case of a reevaluation of a student, whether the student continues to need special education; and
- d) Whether any additions or modifications to the special education services are needed to enable the student to meet the measurable annual goal set out in the Individualized Education Program (IEP) of the student and to participate, as appropriate, in the general curriculum.

If additional data are not needed, the District must notify the parents/guardians and/or persons in parental relation of that determination and the reasons for it and of the right of the parents/guardians and/or persons in parental relation to request an assessment to determine whether, for purposes of services provided in accordance with law and Commissioner's Regulations, the student continues to be a student with a disability. The District is not required to conduct the assessment unless requested to do so by the student's parents/guardians and/or parental relation.

The CSE shall arrange for an appropriate reevaluation of each student with a disability at least every three (3) years by a multidisciplinary team or group of persons, including at least one (1) teacher or other specialist with knowledge in the area of the student's disability. The reevaluation shall be sufficient to determine the student's individual needs, educational progress and achievement, the student's ability to participate in instructional programs in regular education and the student's continuing eligibility for special education. The results of any reevaluations must be addressed by the CSE in reviewing and, as appropriate, revising the student's IEP.

Recommendation for Declassification

If the student has been receiving special education services, but it is determined by CSE that the student no longer needs special education services and can be placed in a regular educational program on a full-time basis, the recommendation shall:

- a) Identify the declassification support services, if any, to be provided to the student; and/or the student's teachers; and

(continued)

SUBJECT: DECLASSIFICATION OF STUDENTS WITH DISABILITIES *(continued)*

- b) Indicate the projected date of initiation of such services, the frequency of provision of such services, and the duration of these services, provided that such services shall not continue for more than one (1) year after the student enters the full-time regular education program.

Declassification Support Services

Declassification support services means those services provided by persons appropriately certified pursuant to Part 80 of Commissioner's Regulations, or holding a valid teaching license in the appropriate area of service, to a student or the student's teacher to aid in the student's move from special education to full-time regular education, including:

The District will further ensure that the procedural safeguards notice is provided in the native language of the parent/guardian and/or persons in parental relation or other mode of communication used by the parent/guardian and/or persons in parental relation, unless it is clearly not feasible to do so. If the native language or other mode of communication of the parent/guardian and/or persons in parental relation is not a written language, the District shall take steps to ensure that the notice is translated orally or by other means to the parent/guardian and/or persons in parental relation in his/her native language or other mode of communication; that the parent/guardian and/or persons in parental relation understands the content of the notice; and that there is written evidence that all due process procedures, pursuant to law and/or regulation, have been met.

**SUBJECT: STUDENT INDIVIDUALIZED EDUCATION PROGRAM (IEP):
DEVELOPMENT AND PROVISION**

Development of Individualized Education Program

The Board of Education directs that the Committee on Special Education (CSE) or Committee on Preschool Special Education (CPSE) shall have prepared a written statement (program) for each child with a disability.

The CSE or CPSE is responsible for the development of an Individualized Educational Program (IEP) for every child identified as a student with a disability. Every child's IEP will be reviewed annually and revised to meet the needs of the student. Program reviews may occur prior to the annual date if deemed necessary by the parent/guardian and/or persons in parental relation, teacher or related service providers or CSE or CPSE Chairperson.

Provision of Individualized Education Program

The Board of Education directs that the Superintendent/designee(s) establish administrative practices and procedures to ensure that each regular education teacher, special education teacher, related service provider and/or other service provider who is responsible for the implementation of a student's IEP is *provided a paper or electronic copy of such student's IEP prior to the implementation of such program*. For purposes of this policy, "other service provider" means a representative of another public school district, charter school, Board of Cooperative Educational Services (BOCES) or school enumerated in Articles 81, 85 or 89 of the Education Law where the student receives or will receive IEP services. Further, the District will designate at least one school official who shall be responsible for maintaining a record of the personnel who have received IEP copies for each student.

Any copy of a student's IEP shall remain confidential in compliance with the Individuals with Disabilities Education Act, the Family Educational Rights and Privacy Act, and District policy regarding confidentiality of student records; and shall not be disclosed to any other person other than the parent/guardian and/or persons in parental relation of such student, except in accordance with federal and state laws and/or regulations. Appropriate training and information will be provided to designated school personnel, as applicable, to ensure the confidentiality of such information. Procedures will be established to ensure that copies of students' IEPs are stored in secure locations and retrieved or destroyed when such professionals are no longer responsible for implementing a student's IEP.

The Chairperson of the CSE, CSE subcommittee, or CPSE *shall designate* for each student one or, as appropriate, more than one professional employee of the School District with knowledge of the student's disability and education program *who will be responsible to, prior to the implementation of the IEP, inform* each regular education teacher, special education teacher, related service provider, other service provider, paraprofessional (i.e., a teaching assistant or a teacher aide as defined in Commissioner's Regulations), and other provider and support staff person of his/her responsibility to implement the recommendations on a student's IEP, including the responsibility to provide specific accommodations, program modifications, supports and/or services for the student in accordance with the IEP.

(continued)

**SUBJECT: STUDENT INDIVIDUALIZED EDUCATION PROGRAM (IEP):
DEVELOPMENT AND PROVISION** *(continued)*

In selecting the professional staff person(s), the Chairperson could select him/herself for this responsibility, another administrator, or a teacher, related service provider or other professional based on the particular circumstances of the student's disability and education program.

The School District shall also ensure that each teaching assistant, teacher aide and each other provider responsible for assisting in the implementation of a student's IEP has *the opportunity to review* a copy of the student's IEP prior to the implementation of such program. Further, each teaching assistant, teacher aide and such other provider responsible for assisting in the implementation of a student's IEP shall have *ongoing access* to a copy of the IEP, which may be the copy provided to the student's special education teacher or the teacher or related service provider under whose direction the paraprofessional or other provider works. However, the District may, at its discretion, provide a copy of the IEP to teaching assistants and/or teacher aides.

A copy of a student's IEP shall be provided to the student's parents/guardians and/or persons in parental relation at no cost to the student's parents/guardians and/or persons in parental relation.

Individual Re-evaluations of Individualized Education Program

A committee on special education (CSE/CPSE) shall arrange for an appropriate re-evaluation of each student with a disability if conditions warrant a re-evaluation, or if the student's parent/guardian and/or persons in parental relation or teacher requests the re-evaluation; however, a re-evaluation must take place at least once every three years. The re-evaluation will be conducted by a multi-disciplinary team or group of persons, including at least one teacher or other specialist with knowledge in the area of the student's disability. The re-evaluation shall be sufficient to determine the student's individual needs, educational progress and achievement, the student's ability to participate in instructional programs in regular education and the student's continuing eligibility for special education. The results of any re-evaluations must be addressed by the CSE/CPSE in reviewing, and as appropriate, revising the student's IEP.

Use of Recording Equipment at IEP Meetings

The Board of Education shall allow recording equipment to be used at meetings regarding individualized education programs for students with disabilities.

SUBJECT: TRANSITION SERVICES

The Board of Education will provide transition services for students with disabilities who are fifteen (15) and older (and at a younger age if determined appropriate). Additionally, beginning at age fourteen (14), and updated annually, the student's Individualized Education Program (IEP) must include a statement of transition service needs under the applicable components of the student's IEP that focuses on the student's courses of study. As defined by the Commissioner's Regulations, transition services means a coordinated set of activities for a student with a disability, designed within an outcome-oriented process, that promotes movement from a school to post-school activities. Post-school activities include, but are not limited to, post-secondary education, vocational training, integrated competitive employment (including supported employment), continuing and adult education, adult services, independent living, or community participation. The coordinated set of activities must be based on the individual student's needs, taking into account the student's preferences and interests and shall include needed activities in the following areas:

- c) Community experiences;
- d) The development of employment and other post-school adult living objectives; and

SUBJECT: PARENT INVOLVEMENT

The Board of Education recognizes the rights of the parent/guardian and/or persons in parental relation to be fully informed of all information relevant to the identification, or change in identification, evaluation and educational placement of a child with a disability.

All due process procedures for parents/guardians and/or persons in parental relation and children in the Commissioner's Regulations shall be observed by the School District.

Surrogate Parents

In the event that no parent/guardian and/or persons in parental relation for a child with a disability can be identified or after reasonable efforts, the whereabouts of the parent/guardian and/or persons in parental relation cannot be determined, or the child with a disability is a ward of the state, the Board shall assign an individual to act as a surrogate for the parents/guardians and/or persons in parental relation. The person selected as a surrogate shall have no interest that conflicts with the interest of the child he/she represents, and shall have knowledge and skills that insure adequate representation of the child.

It is the duty of the School District to determine whether a child needs a surrogate parent/guardian and/or persons in parental relation and to assign a surrogate parent/guardian and/or persons in parental relation in the manner permitted under New York State law.

SUBJECT: IMPARTIAL HEARINGS/SELECTION OF IMPARTIAL HEARING OFFICERS

The School District is committed to making every effort to amicably resolve differences involving the educational programs for students with disabilities. When outside assistance is needed to aid in resolving a disagreement about the identification, evaluation, educational placement or provision of a free appropriate education for a student with a disability, mediation is encouraged. For those exceptional circumstances where a more formal method is required, the impartial hearing process will be utilized. The impartial hearing officer (IHO) renders a written decision after the parties present and refute evidence before him/her. The decision of the IHO is final and binding on both parties unless appealed to the State Review Officer (SRO).

Impartial Hearing Process

The following is an overview of the Impartial Hearing process:

- a) Either the parent/guardian and/or persons in parental relation or the School District may request an impartial hearing. If a parent/guardian and/or persons in parental relation makes the request, it must be in writing to the Board of Education describing the nature of the dispute and a proposed resolution of the problem. The District will provide a form for this purpose. However, the District may not deny or delay a parent's/guardian's and/or persons in parental relation's right to an impartial hearing if the written request is not complete.

If the District is the party initiating an impartial hearing, the District will provide prior written notice to the parent/guardian and/or persons in parental relation including a statement of the action proposed and any explanation of why the District proposes to take such action.

- b) Upon receipt of or initiation of a request for an impartial hearing, the District will inform the parent/guardian and/or persons in parental relation of the availability of mediation, of any free or low-cost legal and other relevant services available in the area, and provide them with a copy of the District's Procedural Safeguards Notice.
- c) The District must immediately [but not later than two (2) business days after receipt of the written request] initiate the process to select an IHO. The District selects the IHO through a rotational selection process in accordance with regulatory timelines. A person appointed by the Superintendent (ie CSE secretary) will be responsible for contacting IHOs and maintaining appropriate records.

(continued)

SUBJECT: IMPARTIAL HEARINGS/SELECTION OF IMPARTIAL HEARING OFFICERS *(continued)*

- d) The IHO must be certified by the Commissioner of Education, be independent and have access to the support and equipment necessary to perform the duties of an IHO. When the selected IHO indicates availability, the Board of Education must immediately appoint him/her. To expedite this process the Board may designate one (1) or more of its members to appoint the IHO on behalf of the Board.
- e) The impartial hearing will be conducted at a location that is reasonable and convenient to the parent/guardian and/or persons in parental relation and the student involved. The hearing shall be closed to the public unless the parent/guardian and/or persons in parental relation requests an open hearing.
- f) The IHO presides over the hearing at which the parties have an opportunity to present evidence and testimony.
- g) The student remains in his/her current placement during the pendency of the impartial hearing unless both parties agree and except as otherwise provided for expedited impartial hearings for certain disciplinary suspensions or removals of a student.
- h) The IHO renders and forwards the finding of fact and decision to the parties and to the State Education Department in accordance with regulatory timelines.
- i) The decision of the IHO is final and binding on both parties unless appealed to the State Review Officer (SRO).

Recordkeeping and Reporting

The District will maintain an alphabetical list of the names of each IHO who is certified in New York State and available to serve in the District. The District will record and report to the State Education Department required information relating to the selection of IHOs and the conduct of impartial hearings according to the manner and schedule specified by the department. The Superintendent shall designate a staff member(s) who will be responsible for reporting such information as required relating to the impartial hearing process into the State Education Department's web-based reporting system.

(continued)

SUBJECT: IMPARTIAL HEARINGS/SELECTION OF IMPARTIAL HEARING OFFICERS *(continued)*

Compensation of Impartial Hearing Officers

The District will be responsible for compensating the IHO for pre-hearing, hearing and post-hearing activities at the rate agreed upon at the time of the IHO's appointment. The rate of compensation may not exceed the maximum rate approved by the Director of the Division of the Budget. The District will also reimburse the IHO for travel and other hearing-related expenses (e.g., duplication and telephone costs) pursuant to an annually determined schedule. On an annual basis, the District will forward a copy of its compensation rates to each IHO on the District's rotational list.

Mediation

Mediation is voluntary and does not deny or delay a parent's/guardian's and/or persons in parental relation's right to an impartial hearing. If mediation is initiated after a request for an impartial hearing has been received, the impartial hearing must continue unless the request for the impartial hearing is withdrawn. However, a party may request an extension to an impartial hearing to pursue mediation.

Guardians ad Litem at Impartial Hearings

Unless a surrogate parent has been previously appointed, the IHO must appoint a guardian ad litem when he/she determines that the interests of the parent(s) are opposed to or inconsistent with those of the student or whenever the interests of the student would be best protected by such appointment.

Confidentiality

All issues relating to a request for and conduct of an Impartial Hearing must be kept confidential by all District staff.

Administrative Procedures

Administrative procedures will be developed for the selection and appointment of an IHO consistent with regulatory requirements.

SUBJECT: INDEPENDENT EDUCATIONAL EVALUATIONS

Parents/guardians and/or persons in parental relation of children with disabilities have the right under Federal and State regulations to obtain an independent evaluation at public expense under certain conditions. Regulatory standards are outlined in New York State Regulations of the Commissioner of Education Part 200.5(a)(1)(vi). Additionally, the Federal Regulations (34 Code of Federal Regulations [CFR] 300.503) specify requirements for an independent evaluation.

Administrative regulations on independent evaluations will be developed to explain the rights of parents/guardians and/or persons in parental relation and the responsibilities of school districts with regard to independent evaluations and also to avoid any misunderstandings.

SUBJECT: SPECIAL EDUCATION MEDIATION

The District will offer mediation as an alternative to the impartial hearing process in disputes regarding the provision of a free, appropriate public education for students identified by the Committee on Special Education (CSE) or Committee on Preschool Special Education (CPSE) as having a disability, or students suspected of having a disability. Such mediation shall be conducted by mediators furnished by a Community Dispute Resolution Center who are not employees of a school district or program serving students with disabilities. Mediators may not have a personal or professional interest which would conflict with their objectivity in the mediation process.

Parents/guardians and/or persons in parental relation to students suspected of or having disabilities will receive written notice of the availability of the mediation program each time they receive notice of their entitlement to the impartial hearing procedures in accordance with Federal and State law and regulations.

Mediation will not operate to diminish or limit any rights provided for in law, including the right of the parent/guardian and/or persons in parental relation to request an impartial hearing subsequent to mediation. Parents/guardians and/or persons in parental relation to students suspected of or having disabilities continue to have full access to all rights, including due process procedures, provided for in federal and state laws and regulations. Similarly, mediation shall not be construed to limit a parent/guardian and/or persons in parental relation from requesting an impartial hearing without having first utilized mediation procedures set forth in Education Law.

CONTENT FILTERING/SAFETY POLICY**

In compliance with The Children's Internet Protection Act (CIPA) and Regulations of the Federal Communications Commission (FCC), the District has adopted and will enforce this internet safety policy that ensures the use of technology protection measures (i.e., filtering or blocking of access to certain material on the internet) on all District computers with internet access. Such technology protection measures apply to internet access by both adults and minors with regard to visual depictions that are obscene, child pornography, or, with respect to the use of computers by minors, considered harmful to such students. Further, appropriate monitoring of online activities of minors, as determined by the building/program supervisor, will also be enforced to ensure the safety of students when accessing the internet.

Further, the Board of Education's decision to utilize technology protection measures and other safety procedures for staff and students when accessing the internet fosters the educational mission of the schools including the selection of appropriate teaching/instructional materials and activities to enhance the schools' programs; and to help ensure the safety of personnel and students while online.

However, no filtering technology can guarantee that staff and students will be prevented from accessing all inappropriate locations. Proper safety procedures, as deemed appropriate by the applicable administrator/program supervisor, will be provided to ensure compliance with the CIPA.

In addition to the use of technology protection measures, the monitoring of online activities and access by minors to inappropriate matter on the Internet and World Wide Web *may* include, but shall not be limited to, the following guidelines:

- d) Ensuring the presence of a teacher and/or other appropriate District personnel when students are accessing the internet including, but not limited to, the supervision of minors when using electronic mail, chat rooms, and other forms of direct electronic communications. As determined by the appropriate building administrator, the use of email and chat rooms may be blocked as deemed necessary to ensure the safety of such students;
- e) Monitoring logs of access to keep track of the web sites visited by students as a measure to restrict access to materials harmful to minors;
- c) The dissemination of the District's Acceptable Use Policy and accompanying Regulations to parents/guardians and/or persons in parental relation and students to provide notice of the school's requirements, expectations, and student's obligations when accessing the Internet.

(continued)

**SUBJECT: THE CHILDREN'S INTERNET PROTECTION ACT: INTERNET
CONTENT FILTERING/SAFETY POLICY** *(continued)*

Parent/guardian and/or persons in parental relation or student consent, as may be applicable, shall be required prior to authorization for student use of District computers. In compliance with this Internet Safety Policy as well as the District's

Acceptable Use Policy, unauthorized access (including so-called "hacking") and other unlawful activities by minors are prohibited by the District; and student violations of such policies may result in disciplinary action; and

- d) Appropriate supervision and notification to minors regarding the prohibition as to unauthorized disclosure, use and dissemination of personal information regarding such students.

The determination of what is "inappropriate" for minors shall be determined by the District and/or designated school official(s). It is acknowledged that the determination of such "inappropriate" material may vary depending upon the circumstances of the situation and the age of the students involved in online research.

The terms "minor," "child pornography," "harmful to minors," "obscene," "technology protection measure," "sexual act," and "sexual contact" will be as defined in accordance with CIPA and other applicable laws/regulations as may be appropriate and implemented pursuant to the District's educational mission.

Under certain specified circumstances, the blocking or filtering technology measure(s) may be disabled for adults engaged in bona fide research or other lawful purposes. The power to disable can only be exercised by an administrator, supervisor or other person authorized by the School District.

The School District shall provide certification, pursuant to the requirements of CIPA, to document the District's adoption and enforcement of its Internet Safety Policy, including the operation and enforcement of technology protection measures (i.e., blocking/filtering of access to certain material on the Internet) for all School District computers with internet access.

The District has provided reasonable public notice and has held at least one (1) public hearing or meeting to address the proposed Internet Content Filtering/Safety Policy prior to Board adoption. Furthermore, appropriate actions will be taken to ensure the ready availability to the public of the District's Internet Content Filtering/Safety Policy, as well as any other District policies relating to the use of technology.

Such a student will be counted as an ELL/LEP student as well as a student with a disability for purposes of calculating State aid.

The parent/guardian and/or persons in parental relation of a student identified as an English language learner or as limited English proficient shall be informed in his/her native language, if necessary, of the student's identification for and/or participation in an English language learner instructional program as well as other school related information.

- a) To provide materials that will enrich and support the curriculum, taking into consideration the varied interests, abilities and maturity levels of the students served.
- b) To provide materials that will stimulate growth in factual knowledge, literary appreciation, aesthetic values and ethical standards.

SUBJECT: OBJECTION TO INSTRUCTIONAL MATERIALS, LIBRARY BOOKS, TEXTS, and/or MEDIA

The Board of Education will not permit any individual to exercise censorship over instructional materials and library collections, but recognizes that at times a re-evaluation of certain material may be desirable. Should an individual ask to have any book or other material withdrawn from school use, the procedure outlined below will be followed;

1. The complaint should be written to the teacher or library media specialist as appropriate and specifically cite the content they deem objectionable, and include title, author, and page number.
2. Should the complaint not be satisfactorily addressed, the matter will be referred to the Building Principal and the Instructional Material Review Committee. The committee will include the librarian, principals, and two teachers who will review the challenged material and upon reaching consensus will make recommendations to the Superintendent concerning the disposition of the complaint.
3. If the complaint should remain unresolved, the complainant may appeal to the Board of Education, whose decision will be final.

Parents are encouraged to discuss with the child(ren) which materials and content are appropriate for them and which types of materials they do and do not want them to check out of the library.

The Board of Education will be notified of any complaint referred to the Instructional Material Review Committee. The committee will review the challenged material according to the principles and qualitative standards stated in Policy #8320 -- Selection of Library and Audiovisual Materials.

Curriculum Areas In Conflict With Religious Beliefs

A student may be excused from the study of specific materials if these materials are in conflict with the religion of his/her parent/guardian and/or persons in parental relation. Alternatives may be provided that are of instructional value.

SUBJECT: CONTROVERSIAL ISSUES

It is the policy of the Southern Cayuga Board of Education to maintain and encourage full freedom, within the law, of inquiry, teaching and research. In the exercise of this freedom, faculty members in delivery of the curriculum of the district may use instructional practices in the classroom and utilize materials necessary; they may not claim as their right the privilege of discussing in their classroom controversial matters which have no relation to their subject. In their role as citizens, the faculty members have the same freedoms as other citizens. They should be mindful, however, that in their extramural utterances, they have an obligation to indicate that they are not an institutional spokesperson.

The Southern Cayuga Board of Education believes that as one means of realizing the maximum potential of a democracy, all citizens should have the opportunity to play their role in society to the limit of their talents. Decisions concerning school learning experiences, which will develop a person's talents, can be made best by a teacher who knows the learner and has professional experience and training. The quality of teaching depends on freedom to make such decisions.

The Board directs the administration to develop guidelines for dealing with controversial issues.

SUBJECT: TEXTBOOKS/WORKBOOKS

The term "textbook" shall refer to a book supplied to a student for a fixed period of time for his/her personal use and basic to the study of a subject.

The Board of Education shall make provision for funds to be budgeted for the purchase of textbooks and related instructional materials.

Upon the recommendation of the Superintendent of Schools, the Board of Education shall designate the textbooks to be used.

Students will be required to pay for lost books or for excessive damage to books.

Textbooks for Resident Students Attending Private Schools

Resident students attending private schools will be supplied non-sectarian textbooks in accordance with the requirements of Education Law.

Workbooks

The Board of Education shall approve the expenditure of funds for the purchase of workbooks and manuals.

The term "workbook" shall refer to the type of book that provides spaces to write in and is consumed each year. It is usually paper-covered and designed to be used in connection with a textbook.

Education Law Section 701 et seq.

SUBJECT: USE OF COPYRIGHTED MATERIALS

It is the intent of the Board of Education to abide by the provisions of the United States Copyright Law (Title 17 United States Code Section 101 et seq.).

All employees are prohibited from copying materials not specifically allowed by the copyright law, fair use guidelines, licenses or contractual agreements, or the permission of the copyright proprietor.

Any employee who willfully disregards the copyright policy shall be in violation of Federal Copyright Laws and District policy and shall assume all liability.

A copyright officer may be appointed by the Superintendent to provide information for all personnel regarding current copyright law and to maintain copyright records.

Regulations and procedures shall be developed by the administration detailing what can and cannot be copied. Appropriate copyright notices will be placed on or near all equipment used for duplication.

SUBJECT: RELIGIOUS EXPRESSION IN THE PUBLIC SCHOOLS

The Board of Education acknowledges the importance of religion to the understanding of society and the richness of the human experience. In approaching the teaching about religion in the school, the District will be guided by three concepts when making decisions about the appropriateness of activities for inclusion in the school program: the activity should have a secular purpose; the activity should neither advance nor inhibit religion; and the activity must not foster an excessive entanglement of "government" with religion.

Nurturing the development of knowledge and respect for the rights of all cultural and religious groups is a continuing goal of the School District. Students, faculty and administration are reminded of the pluralism of religious beliefs and are urged to be conscious of and respect the sensitivity of others.

Opportunities to learn about cultural and religious traditions should be provided within the framework of the curriculum. Information about religious and cultural holidays and traditions focusing on how and when they are celebrated, their origins and histories should be part of this instruction. This educational opportunity should be handled with great care, sensitivity and respect for the feelings and beliefs of individuals.

An environment should be created and encouraged where students of various ethnic backgrounds feel comfortable in sharing comments about their religious and cultural traditions. No student should be singled out to share or participate in such discussions solely on the basis of that student's identification with the cultural/religious heritage being addressed. A student's preference not to share or participate in such discussions should be honored and respected without penalty.

School Activities Related to Religious Holidays or Themes

School activities related to the teaching about religious holidays or themes must be consistent with, representative of, and congruent with the District's curriculum.

In planning school activities related to the teaching about religious holidays or themes, special effort must be made to ensure that the activity is not devotional and that students of all faiths can join without feeling they are betraying their own beliefs.

In planning school activities related to the teaching about religious holidays or themes, age appropriate activities are encouraged within the framework of the curriculum. Teaching about religious and cultural holidays may include such special activities as parties and special foods, if they reinforce educational goals.

Symbols in the Schools

The purpose of using religious symbols should be to teach about religious concepts and traditions, and to convey historical or cultural content, not to promote or celebrate religious concepts, events or holidays.

(continued)

SUBJECT: RELIGIOUS EXPRESSION IN THE PUBLIC SCHOOLS (*continued*)

Music in the Schools

The purpose of using religious music should be to teach musical concepts, to convey historical and cultural content, or to create aesthetic experiences in a setting which emphasizes artistic expression and educational value, not to promote or to celebrate a religious faith.

District Calendar

The days on which members of a religious group may be absent to observe a religious holiday (legal absence) will be noted on the school planning calendar and the District calendar distributed to parents/guardians and/or persons in parental relation. Out of respect for a student's observance of these holidays, teachers will be sensitive to the needs of the student by allowing them to make up all classwork, homework and tests without penalty. Parents/guardians and/or persons in parental relation are encouraged to notify the school prior to the absence to assist the staff in instructional planning and in meeting the needs of the student.

Curriculum Areas In Conflict With Religious Beliefs

Students shall be given the option to be excused from participating in those parts of an activity, program or area of instruction involving a religious theme which conflicts with their own religious beliefs or that of their parents/guardians and/or persons in parental relation in accordance with applicable law and regulations. Alternatives may be provided that are of comparable instructional value.

Implementation

Administrative regulations will be developed to implement the terms of this policy. Further, the District shall vigorously publicize and disseminate this policy and accompanying regulations to ensure community, faculty, student and parental/guardian and/or persons in parental relation awareness.

SUBJECT: HOMEWORK

The Board of Education views the completion of assignments outside the classroom as an integral part of the educational process for all students. Homework is intended to promote personal responsibility, extend learning, encourage positive work habits, give students the opportunity to develop critical thinking skills and demonstrate understanding of content. Additionally, families can use homework to monitor the progress of their children and to be better acquainted with the curriculum.

The Board of Education has set the following guidelines regarding homework.

1. Homework should be a properly planned part of the curriculum extending and reinforcing the learning experience of the school.
2. Homework should help children learn by providing practice in the mastery of skills, experience in data gathering and integration of knowledge and an opportunity to remediate learning problems.
3. Homework should help develop the student's sense of responsibility by providing an opportunity for the exercise of independent work and judgment.
4. The number, frequency and degree of difficulty of homework assignments should be based on the abilities, activities and needs of the student. However, the grade given for the homework is dependent on the student's performance.
5. As a valid educational tool, homework should be clearly assigned and its product carefully and promptly evaluated.

The Board of Education believes that parental/guardian and/or persons in parental relation involvement in students' homework is essential to making homework an integral part of the educational program. Parents/guardians and/or persons in parental relation are expected to encourage and monitor homework assignments and, to the extent possible, provide conditions that are conducive to their successful completion.

SUBJECT: HOME INSTRUCTION (HOME SCHOOLING)

From time to time, parents/guardians and/or persons in parental relation will choose to instruct their children at home. The School District will attempt to cooperate with parents/guardians and/or persons in parental relation who wish to provide home schooling for their children, realizing that the child who is educated at home should receive an education in a manner consistent with an educational plan and at least substantially equivalent to that given to students of like age and attainments in the local public schools. The required subjects should be taught in a competent, systematic and sequential manner, specifically in relation to the required courses as enumerated in Commissioner's Regulation Section 100.10.

Provision of Services to Home-Instructed Students

They are not awarded a high school diploma. A high school diploma may only be awarded to a student enrolled in a registered secondary school who has completed all program requirements set by the Board of Regents, the school or the District.

- a) They are not eligible to participate in interscholastic sports. Commissioner's Regulations mandate that only students enrolled in the public school are allowed to participate in interscholastic sports.

They may participate in intramural and other school-sponsored club activities. The School District will permit home-instructed students to participate in such extracurricular activities so long as the student can arrange for his or her own transportation, there is room in the program and there is no additional cost to the District. The student must abide by all District rules and regulations such as, but not limited to, the student Code of Conduct. The District will follow the provisions of Public Health Law Section 2164 when dealing with any health-related requirements.

- b) The District is not required to loan available textbooks and other materials (e.g., library materials, microscopes, computer software, movie projectors). However, the District shall provide such textbooks and other materials to the extent available to home-instructed students.
- c) The School District does not furnish health services and is not required to do so.
- d) The District is not responsible for providing remedial programs.
- e) They may not participate in the instructional program of the School District except for dual enrollment opportunities the District *may* make available under the "Dual Enrollment Law" and for special education programs and services the District is required to offer.

(continued)

SUBJECT: HOME INSTRUCTION (HOME SCHOOLING) (continued)

The District shall not make available to home-instructed students occupational and vocational education programs (career and technical education programs) and programs for the gifted in accordance with the provisions of the "Dual Enrollment Law."

- f) The District shall offer a home-instructed student with disabilities the special education services as addressed in the approved Individualized Education Program (IEP) by the Committee on Special Education. *However, there is no requirement that such services be provided in the student's home.* Further, the District shall conduct a census and register of students with disabilities who reside in the District in accordance with Education Law and Commissioner's Regulations.
- g) Students instructed at home shall not be allowed to use school facilities, except as provided for community organizations in Policy #3280 -- Community Use of School Facilities.
